THE WAR ON THE COURTS.

Our dependence in the political campaign now opened is that the people at large, and by a large majority, may find out before it is too late what is going on.

Let it be noted that at Chicago Gov. Altgeld inserted in the platform in diplomatic language clear propositions for the indulgence of the vindictiveness that is known to rankle in him against the courts, particularly those of the United States; and Mr. Bryan was at pains to give a part of his bird song to that theme and in the spirit of the master.

If Mr. Bryan is our next president he will have a congress to go with him. It will be silver mad in both branches. The senate will become even more deplorable than it is.

The silver senators and the Democrats and the Populists, and the fresh blood senators, the product of the revolution, will be a working majority, and if this happens the contagion will strike in the congressional representative districts, and the house of representatives will be clothed in the same red paint that the president is to wear.

Will the revolution be checked by the supreme court? Oh, no; one of the great objects of the revolution is to wipe out the supreme court, and as Altgeld will, of course, be the principal adviser of the administration, and take personally to himself the department of justice, we may anticipate rapid results from this retro barbarism of the radicals.

The combination of cranks in the executive and legislative bodies would be at once intensely active, and revel in the exercise of the law-making power.

If Bryan will be in the same state that Cleveland was when he found a Democratic congress on his hands and responsibility for the whole policy of the government fastened on him. The supreme court would first be attacked by its extension. Instead of nine judges, there would probably be twenty-one, and the worst cranks in the country pitchedforked onto the bench.

Altgeld would probably be chief justice, Bryan has already invited all the loafers to march as tramps to Washington, and feed on the farmers by the way, saying he never would give an order to keep off the grass. The grass would be loaded with loafers, and armies of tramps forever on the march looking for any way to make a living without work.

The Astorian's comment on Mr. Fulton's letter to the Oregonian was not inspired by any hostile feeling towards Mr. Fulton, nor does it believe that Mr. Fulton's letter published this morning was written in any unfriendly spirit towards the Astorian.

In the main the Astorian agrees with Mr. Fulton's construction of the St. Louis platform, but until it appears that Mr. Bourne has been rescued from his contention in favor of the free and unlimited coinage of silver, at a ratio of 16 to 1, independent of international action, the Astorian submits as a fair proposition, even under Mr. Fulton's construction, that Mr. Bourne cannot stand on the St. Louis platform, and he must be, therefore, an improper person to act as secretary of the Republican state committee.

It will be remembered that the Astorian stated after the St. Louis convention that the convention had succeeded in making a money plank, which while in no sense a straddle, was yet so admirably worded that no Republican, whether a believer in international bimetalism, the free coinage of silver at its marketable ratio, or the preservation of the existing standard could refuse to stand on it.

The only class of people, as it looks to the Astorian, who are proscribed by the St. Louis declaration are those who believe in the free coinage of silver, independent of international agreement, at a fixed ratio of 16 to 1. To this class Mr. Bourne unquestionably belongs.

Under the St. Louis interpretation, therefore, he cannot be a Republican, and should resign or be summarily deposed from the committee.

With restricted coinage of silver we have been able to keep the silver dollar at 16 to 1 at par with gold. If we had free and unlimited coinage of silver we could not do so. The coin value of the silver dollar would then decline to the real commercial value of the metal.

On account of the extraordinary production of silver of late years the real relation of value between gold and silver is 32 instead of 16.

than that we should buy up all the wheat in the country at double its commercial price and give the farmers the difference in money.

Free silver agitators make a good deal of capital among ignorant people by promising that free coinage would make money more plentiful.

If William McKinley is not elected the next president of the United States, W. J. Bryan will be, and congress will be with the president.

WHEREVER MALARIA EXISTS.

The bilious are its certain prey. In intermittent and remittent fever, dumb ague and ague cake, the liver is always seriously affected, and the blood contaminated with bile.

One of the chief reasons why Hoagster's Stomach Bitters is such a sure defense against chills and fever and every form of malarial disease, is that it does away with liability to the disease, by reforming irregularity of the biliary organ in advance of the arrival of the season when the disease is prevalent.

There is no finer fortifying preparative for those about visiting or emigrating to a locality where the miasma taint exists.

There is no certain immunity from disease in an endemic or epidemic form, to be secured by the use of the average tonics and anti-spasmodics.

But where quinine fails the Bitters succeeds both in preventing and curing. Moreover, it removes every vestige of dyspepsia and overcomes constipation, rheumatism, inactivity of the kidneys and bladder, and tranquilizes and strengthens the nervous system.

This is a good season to wipe our social obligations. Flowers are so cheap that a lawn fete or a dinner party can be made richly decorative at a trifling expense.

Who does not know women and young girls who are continually in tears? Who always see the dark side? Who have frequent fits of melancholy without any apparent cause?

The intelligent physician will know that it is some derangement of the complicated and delicate feminine organs. The young girl suffers, bodily and mentally, in silence.

There is undue weariness, unexpected pain, unreasonable tears and fits of temper. Dr. Pierce's Favorite Prescription exerts a wonderful power over woman's delicate peculiar weaknesses, irregularities and painful derangements of women.

Careless, easy-going doctors frequently treat their women patients for biliousness, nervousness, dyspepsia, liver or kidney troubles, when the real sickness is in the organs distinctly feminine, and no help can come till they are made perfectly strong by the use of Dr. Pierce's Favorite Prescription.

Declaration of Principles OF THE REPUBLICAN PARTY.

The Republicans of the United States, assembled by their representatives in National Convention, appealing for the popular and historical justification of their claims to the matchless achievements of thirty years of Republican rule, earnestly and confidently address themselves to the awakened intelligence, experience and conscience of their countrymen in the following declaration of facts and principles:

For the first time since the Civil War the American people have witnessed the calamitous consequences of full and untrammelled Democratic control of the Government. It has been a record of unparalleled incapacity, dishonor and disaster.

We renew and emphasize our allegiance to the policy of protection as the bulwark of American industrial independence and the foundation of American development and prosperity.

We denounce the practice of the pension bureau so recklessly and unflinchingly carried on by the present administration, of reducing pensions and arbitrarily dropping names from the rolls, as deserting the severest condemnation of the American people.

We denounce the present Democratic tariff as sectional, injurious to the public credit and destructive to business enterprise.

We believe the repeal of the reciprocity arrangements negotiated by the last Republican administration was a national calamity, and we demand their renewal and extension on such terms as will equalize our trade with other nations, remove the restrictions which now obstruct the sale of American products in the ports of other countries and secure the enlarged markets of our farms, forests and factories.

Protection and reciprocity are twin measures of Republican policy, and go hand in hand. Democratic rule has recklessly struck down both, and both must be re-established.

can policy of discriminating duties for the up-building of our merchant marine and the protection of our shipping in the foreign carrying trade, so that American ships—the product of American labor, employed in American shipyards, sailing under the Stars and Stripes, and manned, officered and owned by Americans—may regain the carrying of our foreign commerce.

The Financial Issue. "The Republican party is unreservedly for sound money. It caused the enactment of the law providing for the resumption of specie payments in 1875; since then every dollar has been as good as gold.

Immigration Laws. For the protection of the equality of our American citizenship and of the wages of our workmen against the fatal competition of low-priced labor, we demand that the Immigration laws be thoroughly enforced, and so extended as to exclude from entrance to the United States those who can neither read nor write.

Civil Service. The Civil Service law was placed on the statute book by the Republican party, which has always sustained it, and we renew our repeated declarations that it shall be thoroughly and honestly enforced and extended wherever practicable.

Free Ballot. We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot, and that such ballot shall be counted and returned as cast.

Lynchings Condemned. We proclaim our unqualified condemnation of the unprovoked and barbarous practices, well known as lynching or killing of human beings, suspected or charged with crime, without process of law.

National Arbitration. We favor the creation of a national board of arbitration to settle and adjust differences which may arise between employer and employed engaged in interstate commerce.

Free Homesteads. We believe in an immediate return to the free homestead policy of the Republican party and urge the passage by congress of the satisfactory free homestead measure which has already passed the house and is now pending in the senate.

Admission of Territories. We favor the admission of the remaining territories at the earliest practicable date, having due regard to the interests of the people of the territories and of the United States.

Alaska Representation. We believe the citizens of Alaska should have representation in the congress of the United States, to the end that needful legislation may be intelligently enacted.

Sumptuary Legislation. We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

Rights of Women. The Republican party is mindful of the rights and interests of women. Protection of American industries includes equal opportunities, equal pay for equal work and protection to the home.

Monroe Doctrine. We reassert the Monroe doctrine in its full extent and reaffirm the right of the United States to give the doctrine effect by responding to the appeals of any American state for friendly intervention in case of European encroachment. We have not interfered, and shall not interfere, with the existing possessions of any European power in this hemisphere, but those possessions must, on any pretext, be extended.

Independence of Cuba. From the hour of achieving their own independence the people of the United States have regarded with sympathy the struggles of other American peoples to free themselves from European domination. We watch with deep and abiding interest the heroic battle of the Cuban patriots against cruelty and oppression, and our best hopes go out for the full success of their determined contest for liberty.

Protection to Sugar Producers. We condemn the present administration for not keeping faith with the sugar producers of this country. The Republican party favors such protection as will lead to the production on American soil of all the sugar the American people use, and for which they pay other countries more than \$100,000,000 annually.

Wool and Woollens. To all our products—to those of the mine and the field, as well as to those of the shop and the factory—to hemp, to wool, the product of the great industry of sheep husbandry, as well as to the finished woollens of the mill—we promise the most ample protection.

Merchant Marine. We favor restoring the early American policy of discriminating duties for the up-building of our merchant marine and the protection of our shipping in the foreign carrying trade, so that American ships—the product of American labor, employed in American shipyards, sailing under the Stars and Stripes, and manned, officered and owned by Americans—may regain the carrying of our foreign commerce.
