laration of facts and principles: For the first time since the Civil War the American people have witnessed the calamitous consequences of full and unrestrained Democratic control of the Government. It has been a record of unparalled incapacity, dishonor and disaster. In administrative management it has ruthlessly sacrificof indiscensible revenue, entailed an unceasing deficit, eked out ordinary urrent expenses with borrowed money. piled up the public debt by \$262,000,000 in time of peace, forced an adverse balance of trade, to a perpetual menace hanging over the redemption fund. pawned American credit to allen syndicates and reversed all the measures and results of successful Republican rule. In the broad effect of its policy it has precipitated panic, blighted industry and trade with prolonged depression, closed factories, reduced work and wages, halted enterprise and orippled American production while stimulating foreign production for the American market. Every consideration of ublic safety and individual interest demands that the government shall be rescued from the hands of those who have shown themselves incapable of conducting it without disaster at home and dishonor abroad, and shall be restored to the party which for thirty years administered it with unequaled uccess and prosperity.
