**New Astoria...**

Is located at the terminus of the Astoria and Columbia River Railroad, at the mouth of the Columbia River.  
 It fronts on the deep water of the Columbia River Harbor, and being perfectly protected from wind and seas, affords the very best docks for ships on this bay; therefore, it is the exact spot for the seaport of the great Northwest.  
 These facts were recognized by the Astoria & Columbia River Railroad Co. when **New Astoria Was Selected as the Starting Point for their Railroad and the Location for the Terminals.**

**New Astoria is platted upon a plane high enough for perfect drainage, and well protected by a high ridge behind it.**  
 Its streets and avenues are wide, and, in fact, it is laid out on modern plans.  
 Extensive street improvements are now under way.

An office has been opened by the proprietors one door east of the Crosby hardware store. Call, he shows the merits of this property, and invest.

**SHOOTING SCRAPE**  
 Jack Kenney Attempts to Take the Life of A. Y. Ross.

Early yesterday morning Jack Kenney, one of the proprietors of the Richmond dance hall on the bovery, without apparent provocation, shot Mr. A. Y. Ross, the Astoria laundryman.

It seems that Mr. Ross and his wife were returning from breakfast and in passing a group of men on their way to the laundry office, opposite the Parker House, were assailed by rude remarks, particularly from one of the men, who was the man Kenney. They went on into the laundry, but were followed by Kenney, who again began using the most abusive and vulgar language. Mr. Ross requested him to leave his office, which only brought out another tirade from his assailant. Many women are employed in the laundry, and upon this outbreak Mr. Ross stepped from behind his counter and pushed Kenney into the street. The latter pulled a pistol from his pocket, when Kenney picked up a brick and threw it at him, striking him on the arm. Kenney then fired, hitting Mr. Ross in the left shoulder, near the jugular vein, making an ugly but not dangerous wound. Shortly after Kenney was captured and disarmed by Captain Hallock and Deputy Sheriff Clinton. When the matter came before Justice Abercrombie, Kenney was placed under \$1000 bonds, and not being able to furnish them, when evening came, a commitment was issued and Kenney was placed in jail. The preliminary hearing of the case will be held Monday morning at 10 o'clock.

**FIREMEN'S ELECTION.**  
 An election will be held on Monday, August 10th, 1896, at the house of Regent Engine Co. No. 2, for the purpose of electing one Chief Engineer, and two Assistants for the ensuing year. Polls will be open from 10 o'clock a. m. until 4 o'clock p. m. of said day.

Judges—C. H. Stockton, J. H. Morrison, and Geo. Stevens.  
 Clerks, L. E. Selig and W. T. Schofield.  
 W. A. WENIG,  
 President Astoria Fire Dept.  
 Attest: F. J. Carney, Acting Secy.

Most so-called "salmon twines" are colored with acids. The acids rot the fibers and render the material useless. In the office of Elmore, Sanborn & Co. is an object lesson that ought to be examined by all fishermen. It is the whole of the material used in the manufacture of Marshall's twine—from start to finish. Go there and examine the color right through. You will see then why Marshall's is called the best in the world.

 They Lack Life  
 There are twines sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.
