In Medieval Days

When people wanted anything they knelt down and prayed for it. However, that was some time ago. Along about 1800 a fellow named Guten-berg, who had "come de Rhine over," was monkeying around a carpenter shop in Lentz. He whit-tied some little blocks and actually made an alphabet. Then he rigged a sort of—well, a machine that an unknown factor; pure exygen, dense atmosphere and pure water. What more can be desired? It is the place, above all others, for lung troubles, and a paradher screwed his press down. That was called printing. Old Gutenberg made a howing success of the wollen that made a howling success of the react, and his head became so swollen that he really snumbed the king one day. The king overlooked it, however, for he had an idea what kind of fellows printers would be. Well, finally they got the printing system down pat, and, as the centuries rolled by, began printin newspapers-first person, invariable singular number, any gender and
