FOR THE LITTLE FOLKS.

Clam Bake To Be Given at Gearhart Park.

The correspondence below tells its own story. Doubtless the children will be given an enjoyable outing next Saturday.

Gearhart Park, August 24, 1896.
Mr. A. B. Hammond—

Dear Sir: We have a large batch of Eastern clams to arrive Friday, for Saturday's "clam bake."

As we have given several "clam bakes" this season and the novelty is worn off, I had a notion to give next Saturday's clam bake during the day time and make it for the school children of Astoria, New Astoria and Warrenton.

If you will have your railroad to give those children an excursion down next Saturday forenoon, returning in the afternoon, at a rate so cheap that the poorest can come, then we will try to make the day pleasant for them and will give them the "clam bake." Should you think favorably of this proposition, let me know by return mail.

I think that the tickets and excursion can be handled through the directors of the various schools without cost, and they should send along enough teachers to keep the children from harm.

Very Respectfully,
ALFRED KINNEY.

Astoria, Or., August 24, 1896.
Hon. Alfred Kinney, Gearhart Park, Oregon.

My dear sir: I beg to acknowledge receipt of your letter of this date, stating that you contemplate giving a clam bake to the school children of this city, providing that our company make a low rate of fare to Gearhart and return. I desire to inform you that the Astoria and Columbia River Railroad Company will be pleased to join with you in giving the school children of this city the outing you propose, providing that after an inspection of the rolling stock of this company, the directors of the schools and the parents and guardians of the children deem it wise to move so large a number of children with the class of equipment that is at the disposal of the company at the present time. While we will be more than pleased to co-operate with you in the worthy undertaking proposed, we do not care to assume the responsibility against accident.

If the directors of the schools, parents and guardians of the children, after inspection of the rolling stock, feel justified in assuming the responsibility, we will be pleased to place such equipment as we have at their disposal, free of charge.

The officers of this company will be pleased to confer with you, or other parties concerned in this matter, at any time. Very sincerely,
A. B. HAMMOND,
President.

ANDERSON & PETERSON.

Most so-called "salmon twines" are colored with acids. The acids rot the fibre and render the material useless. In the office of Elmore, Sanborn & Co. is an object lesson that ought to be examined by all fishermen. It is the whole of the material used in the manufacture of Marshall's twine—from start to finish. Go there and examine the "color" right through. You will see then why Marshall's is called the best in the world.

Go to Elmore, Sanborn's office and see their new and handsome twine testing machine. Take along some of the twines "as good as Marshall's," in your pocket, and test them. Then see how much more Marshall's will stand. It's money in your pocket and fish in your net to find out.

Little folks in white are a joy to the eye at this season.

Highest of all in leavening strength.—U. S. Government Report. Paper furniture is the next novelty promised us.

GRAND EXCURSION.

An excursion for the benefit of the Swedish Lutheran Sunday school will be held at Flavel on Thursday, August 27. The steamer Dwyer will leave the Telephone wharf at 8:30 a. m. sharp, for the convenience of those living down town, and Uppertown residents may take the same boat at George & Barker's cannery, at 9 a. m.

Tickets for adults, 50 cents; children free, to be had from members of the Sunday school and on board the boat. Everybody invited.

DAGGETT'S BENEFIT.

The receipts of the merry-go-round at corner of 9th and Bond streets, for Monday, Tuesday and Wednesday of this week, will be donated to George Weston Daggett, the aeronaut who met with such a thrilling accident Saturday evening on account of the failure of his parachute to open properly. The merry-go-round will be run from 4 to 5 and from 7 to 9:30 o'clock each evening.
T. O. NEWMAN, Prop.

Use Webfoot Corn Cure. No cure no pay.

There are twines sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.

REPUBLICAN LEAGUE.

Milwaukee, August 24.—Milwaukee is filled today with distinguished Republicans, from every state from Maine to California, to attend the convention of the National League of Republican Clubs.

Charles Gordon, of Chicago; John L. Webster, of Omaha, and D. D. Woodmansee, of Ohio, are candidates for the presidency. It looks as if there would be a very spirited contest. The cities that are striving to get the next convention are Boston, Detroit, New Orleans, Omaha, Portland and Chattanooga.

ALEX CAMPBELL, Prop.

In Medieval Days
When people wanted anything they knelt down and prayed for it. However, that was some time ago. Along about 1800 a fellow named Gutenberg made a new device, a printing press. It was a sort of well—a machine that would look something like our letter press of today. His apparatus had a key in order to just some ink on them, also a piece of paper, and then screwed his press down. That was called printing. Old Gutenberg made a howling success of the racket, and his head became so swollen that he really snubbed the king one day. The king overlooked it, however, for he had an idea what kind of fellow printers would be. Well, finally they got the printing system down pat, and, as the centuries passed by, began printing newspapers—first in one country, then in another, and now, in every part of the world.

In This Enlightened Day
There are many newspapers—a matter of fact. But it is an utter impossibility to get a newspaper to admit it. The advertising patronage of a newspaper depends largely, yes, wholly—upon its circulation. A newspaper is a great deal like the human body; if its circulation is good, it prospers; otherwise, it dies. Some papers publish

Want Columns
That is, a column, or a number of columns, devoted to small advertisements. If a fellow wants anything—trouble, a wife, a house—don't make any difference what it is—he can get it by means of a small ad. Included in the "want" columns are "For Sale," "For Rent," "Lost," "Found," "Stolen," and "Miscellaneous." Now, just see what cheap some people are! Why, a man has been known to hunt over a city—this city—for days looking for a house in which to live. Had he come to The Astorian office and asked for a want ad, he could have gotten his house without the least bit of trouble and for about 25 cents.

It Is Needless
To tell of The Astorian's circulation. The paper has been established for a quarter of a century. Why, old Concomly read the first rumor of the building of a railroad to his neighbors from it. Circulation is The Astorian's long suit. Consequently, when a fellow comes into The Astorian office, looks pleasant, throws down 25 cents on the counter and says he wants a house, he gets it.

Why, Just Think!
The Astorian goes into every house in Astoria and a great majority of those in the surrounding sections of Oregon and Washington. Hence, if you insert an ad in The Astorian, it is equivalent to engaging a man to go around to all those houses and telling the inmates that you want something or have something for sale. Why, talk about a snap!

A Bit of Advice
When you want anything—no matter what it is—when you have anything for sale; when you lose, find or steal anything, come around and tell your trouble to The Astorian. Bring 25 cents with you, and above all things, look pleasant. Tell the clerk that you want a want ad. In the want column, give him your 25 cents and go away happy. As Herman Wise would say, a want ad will restore the blind, the lame and the bowlegged to manhood.
