The first full carload of freight to pass over the Seashore road was consigned to Campbell Brothers yesterday.

Carbons are the only permanent photos as well as the most artistic, and Snodgrass knows how to make them.

In the rear of Schofield & Hauke's store, Uppertown, yesterday, the steep bank was being reduced by hydraulic power.

Kopp's new brewery is rapidly being completed, and will be an ornament to that part of the city in which it is located.

Family commutation tickets to Clatsop beach over the Seashore railroad can be had on application to the auditor, Room 4, Flavel Block.

News was received by telegraph yesterday from Luverne, Minn., of the death of Miss Lulu Miller, sister of W. C. Miller, of this place.

The newspaper criticisms and those made by individuals, referred to in Judge Taylor's letter, have been unfair, unjust and uncalled for.

"I think Judge Taylor's letter, published last Sunday is on the right line. I don't believe in knocking people in the head for rendering inestimable service to the community. We have had too much of this kind of work already. We have got to have some one to help us develop a city here and bring our natural resources to the front. Mr. Hammond has already done more than was required of him, and he should have the support instead of the kicks of the community."

The particular attention of the public is called to the fact that no tickets will be sold to way stations on the Seashore road on first-class trains. Reference to the published time cards will show that on first-class trains passengers will be carried only between Astoria, Warrenton, Carnahan, Gearhart Park and Seaside. He leaves for the Fort today.

The new band saw now in operation at the Clatsop Mill, is a magnificent piece of machinery. It was erected by Edward P. Allis & Co., of Milwaukee, Wis., and was sold through D. B. Hanson, their San Francisco agent. The band is 45 feet long, 12 feet wide, and 14 gauge. It has a capacity of 45,000 feet of one-inch spruce per day, of 50,000 feet of fir. The saw operates over two eight-foot fly wheels, and revolves at a rate of speed of 10,000 feet a minute. It makes little or no noise, and is handled easily by one head sawyer and two assistants. In operation it is a great saving over the circular saw, as it only takes out one-half the amount of material in a seam. Above the saw in a cupola is the filing room, where the bands are sharpened for use. There are four bands on hand all the time, and the machinery for repairing and sharpening is operated automatically. Mr. Barnhart is the machinist in charge.

THE NATIONAL DEMOCRACY

INTEREST IS STILL UNABATED (Continued from First Page.)

not as enthusiastic as they thought it should be. Strong effort is being made to bring out Senator Palmer or General Black, of Illinois, Secretary Morton of Nebraska, and Daniel Lawler, of Minnesota, are also enjoying incipient honors.

Senator Palmer does not desire the nomination, and there is said to be a letter here from Secretary Morton declining to permit the use of his name. Were General Bragg not in the way, Senator Vilas might be named, but he absolutely refuses to consider the question as long as General Bragg is in the field. The Watterton team does not grow.

Hugh C. Wallace, of Washington, who began booming Cleveland for the nomination when he came here a few days ago, is now engaged in trying to undo all that he has been doing. It is said that he has been called off on an intimation from Buzard's Bay that his efforts were not approved by the president.

A NEW RECORD. Marvellous Performance of John R. Gentry.

New York, Sept. 2.—In the free for all pacing race at Fleetwood Park today, John R. Gentry won in three straight heats; Robert J. second, Frank Agan third; time, 2:27 1/2, 2:27 1/2, 2:27 1/2. This lowers Gentry's record half a second and breaks the world's record for three heats.

All the finishes were very close and exciting and the contest was from every standpoint of view a great one. Robert J. had beaten his rival so often of late, and he was known to be in such splendid form that everybody, including the keenest circuit followers, expected him to win the championship purse at Fleetwood. The odds were 10 to 1 on his chance before the first heat, and so confident were his backers that he would win that the record-holder remained the favorite to the end, starting at even money against the field in the final heat.

Marvellous is the only word that describes the performance of John R. Gentry. The day was too chilly to favor fast time, and a stiff breeze retarded the horses in the home stretch. Fleetwood, never a fast track, was in good condition, though not at its best. Gentry got two lengths the worst of the wind-off in the first heat, and talked the leaders, while Robert J. and Frank Agan went off to the three-quarters pole. Robert J. made a break in the third quarter, leaving Agan in the lead, but Gentry came on with a great burst of speed, and beat him a short neck in the drive to the wire.

The second heat was a repetition of the first, except that Robert J. broke before reaching the first turn and Agan was three lengths in the lead at the stretch when Andrews made his drive with Gentry. Like an arrow the little stallion came on and cut down Agan's lead, winning in the last strides by a short neck.

In the last heat Gentry got away on even terms with the others and was not headed.

VANCOUVER REGATTA. Vancouver, B. C., Sept. 2.—This morning was taken up with a military and naval review and a sham fight, in which the local militia and sailors and marines from H. M. S. Comus took part. In the afternoon the regatta was continued.

In the senior scull Bob Johnson rowed over the course alone, no opponent appearing.

In today's regatta the senior fours was won by Victoria; Vancouver Rowing Club second; and Burrard Inlet Rowing Club third.

For professional single sculls Bob Johnson, of Vancouver, won; McLean, of Vancouver, second; and Martin, of Nanaimo, third.

IN NEW HAMPSHIRE. Concord, N. H., Sept. 2.—The Democratic state convention met today. The platform commends the Chicago convention and its platform and pledges earnest support to Bryan and Sewall. A resolution endorsing the administration of Cleveland was lost. The gold Democrats left the convention hall.

Col. Henry Kent, of Lancaster, was nominated for governor.

NEW YORK, Sept. 2.—The North German Lloyd Steamship Company announces they received a telegram today that the steamer Trave, which sailed from Southampton this evening for this port has on board \$4,250,000 gold.
