### NEXT IN IMPORTANCE.

The suggestion thrown out in yesterday's base by Mr. M. J. Kinney that there is good work for the Chamber of Commerce to do, scarcely needs comment. It is worth emphasizing the point, however, that the committee on manufactures of that body is not only one of the most important committees of the chamber, but it has a great duty to perform for the city at large. There is nothing so important, next to the raticoad itself as the immediate building of manufacturing institutions at the mouth of the Columbia river. Not only do we want manufactures to The make tonnage for the railroad, and the morchant murine plying between this port and the great commercial centers L the world, but above everything e what Astoria wants is a large list

of payrolls which will support a growing population and a thriving people. It is the tin pail brigade that starts for the factory in the morning and returns at night after the day's work is done, which makes the backbone and sinew of all prosperous commercial centers With a large number of this class of people in our midst making good wages and happy and contented, the Sent by mail, per month .......... .50 idly than it could under any other .45 conditions. There is every natural resource here to support all kinds of Sent by mail per year, \$3 in advance, manufacturing enterprises, and it is for the people to see that they are developed now, or whether it will be left All communications intended for publish for a future generation to build the cation should be directed to the editor. city and reap the profits. #### The Financial Issue.

"The Republican party is unreservedly for sound money. It caused the enactment of the law providing for the resumption of specie payments in 1879; since then every dollar has been as good as gold. We are unalterably opposed to every measure calculated to debase our currency or impair the credit of our country. We are, therefore, opposed to the free coinage of silver, except by International agreement with the leading commercial nations of the world, which we pledge ourselves to promote, and until such agreement can be obtained we believe the existing gold standard must be preserved. All our silver and paper currency now in circulation must be maintained at a parity with gold, and we favor all measures designed to maintain inviolable the obligations of the United States, and all our money, whether coin or paper, at the present standard, the standard of the most enlightened nations of the earth."

#### Pensions for Veterans.

The veterans of the Union armies deserve and should receive fair treatment and generous recognition. Whenever practicable they should be given the preference in the matter of employment, and they are entitled to the enactment of such laws as best calculated to secure the fulfillment of the tween employer and employed engaged pensions and arbitrarily dropping severest condemnation of the American Republican party and urge the passage
