BRYANISM MEANS ANARCHY.

Objection is made that the Republicans are denouncing Bryan as an anarchist because he favors free silver. This is not true. Free silver is not, necessarily, anarchy. It may, it is true, lead up to anarchy, but a mere belief in the 16 to 1 ratio, in its ordinary manifestation, implies nothing worse than ignorance or dishonesty. It is not for advocating free silver that Republicans call Bryan an anarchist. As long as he stuck to the silver question as the sole issue of his campaign, whatever else was thought of him, the country was charitable enough to believe that he did not favor anarchy. But Mr. Bryan's later utterances have dispelled this belief. He has abandoned the silver issue. The glaring inaccuracies and crude sophistries of his earlier speeches have brought upon him such an avalanche of solid facts in disproof, that he has been compelled to shift his line of battle.

His position was indicated in his formal letter of acceptance which practically ignored the silver issue. He had already thrown overboard the tariff issue, knowing full well that, in the light of the country's experience, untenable. In his letter, and ever since, he has been viciously assailing the national government's authority to enforce United States laws anywhere in the Union. He is making every effort to array the disinterested elements of our huge population in his support, under a virtual promise that, if elected, he will not allow the national government to enforce its own laws when a riot interferes with the business intercommunication of the states and the transit of mails.

This is why so many good citizens now regard Mr. Bryan as an anarchist, and he deserves the characterization. Feeling himself whipped on the 16 to 1 issue, he is playing a more desperate game, and in doing so is unmasking himself fully. His election as president of the United States would require him on March 4 to take a solemn oath to execute that office so as to "preserve, protect and defend the constitution of the United States." The constitution vests in the president the executive power—the duty of seeing that the laws of the United States are faithfully observed.

What would Mr. Bryan do if a mob should stop the mails and obstruct interstate commerce, as one did sometime ago in the city of Chicago? His oath of office would require him to use all the power of the national government to prevent the obstruction of the mails and start the wheels of commerce again. Would he obey that oath, or would he violate it? He has given his answer to this question. His associate, Aitken, wrote and had inserted a plank in the Chicago platform designed to forbid the exercise of this very power, in exactly that kind of emergency. Mr. Bryan has not only repeatedly stated within the past few weeks that he believes in and stands upon every plank of the Chicago platform, but has sought to emphasize this particularly obnoxious plank by criticizing and condemning President Cleveland for the part he took in suppressing the Chicago riot. What else is Mr. Bryan doing in these declarations but advocating anarchy? If any of his deluded admirers are in doubt as to the propriety of applying this term to Mr. Bryan's present line of appeal to the people, let them read the constitution of the United States and then consult some standard dictionary and learn the meaning of the word "anarchy."

If, as the Populists candidate for president, free coinage would immediately restore the market price of silver to \$1.25 an ounce and keep gold and silver currency on a parity at the ratio of 16 to 1, why does the Chicago platform propose to enact legislation to prevent contracts requiring payment in any specified kind of money? If silver is to be as good as gold, why prohibit gold contracts? What reason would any one have to insist on gold payments if gold coin is no more valuable than silver coin? If a free coinage law is all that is needed to restore silver to \$1.25 an ounce, why any additional legislative props like this?

It is true, as McKinley says, that the Republican party has never before appealed more strongly to the best sentiments and noblest aims of American citizens than it does in the present conflict. The man who votes with any other party this year has to vote against truth, justice, honesty, and everything else that is creditable and profitable.

"Consider, my fellow citizens, the advancement we made between 1880 and 1890, and during those years we never had free trade nor free silver. The marvelous progress of the country between 1880 and 1890 is worthy the study of all American citizens. It is the

best answer to the oft-repeated but fallacious statement that the country had been suffering from the effect of the act of 1873, which stopped the free coinage of silver. It is an unanswerable argument for the restoration of a protective tariff and the maintenance of sound money."—McKinley.

Secretary Carlisle is going to make some sound money speeches in Kentucky. All the members of the cabinet are doing their duty in opposing the free silver ideology. It is a spectacle the like of which was never seen before—the entire administration arrayed against the regularly nominated candidates for the party to which it belongs. Regularly nominated, certainly, but nominated, all the same, in what Secretary Lamont well terms a moment of delirium.

The fact that there is not a silver currency in the world in which labor is paid one half the average wages paid in the United States and in which the money when received will buy one-half as much as it will buy here, furnishes a complete answer to Bryan's speeches, so far as the workmen are concerned.

In Mr. Bryan's precinct in Lincoln, Nebraska, that is to say his residence, there live 292 legal voters, and there are, according to a recent poll, for McKinley 211, Bryan 61, doubtful 11. Prohib 8.

If strength is what you want, you should study what causes your weakness.

It is practically lack of food.

But you eat three meals a day, and all you can eat at a time.

Yes, but do you digest it?

Food undigested is not food. It is not nourishment.

It doesn't create strength.

To digest your food take Shaker Digestive Cordial at meals. After a while you will digest your food without it. Then you will get well, and strong and healthy.

Shaker Digestive Cordial cures indigestion and all its symptoms, such as nausea, headache, eructations, pain in the stomach, giddiness, loss of appetite, etc. It makes your food nourish you, and make you strong and fat and hearty.

Druggists sell it. Trial bottle free.

The tornado swooped down upon the city, grasped the crowded auditorium as though it were a plaything and scattered its ruins for blocks around that once fair city. The ruins of the platform landed in a cornfield, and to the nodding stalks the orator, who had heroically remained at his post, sat earnestly and convincingly. "The crime of '73, my fellow citizens, etc."—Philadelphia North American.

A MYSTERY.

How the human system ever recovers from the bad effects of the nauseous medicines often literally poured into it for the supposed relief of dyspepsia, liver complaint, constipation, rheumatism and other ailments, is a mystery. The mischief done by bad medicines is scarcely less than that caused by disease. If they who are weak, bilious, dyspeptic, constipated or rheumatic, would often be guided by the experience of invalids who have thoroughly tested Hostetter's Stomach Bitters, they would in every instance obtain the speediest aid derivable from rational medication. This medicine is a searching and at the same time a thoroughly safe remedy, derived from vegetable sources, and possessing, in consequence of its basis of pure spirits, properties as a medicinal stimulant not to be found in the fiery local bitters and stimulants often resorted to by the debilitated, dyspeptic and languid.

The Indianapolis Sentinel says the Republican victory in Maine was expected by the Democrats. Of course it was expected! In what state, whose citizens have public schools on every section of land, would a Republican victory not be expected?—Wabash Tribune.

Horace Greeley once said: "The way to resume is to resume," speaking of again putting gold into circulation after the war. But you may say "resume" any number of times to that torpid liver of yours and it won't budge until you take Simmons Liver Regulator. Many people seem to forget that Constipation, Biliousness and Sick Headache are all caused by a sluggish liver. Keep the liver active.

It is appalling to think what would have become of the human race if Mr. Bryan had died of measles when a boy.

In Medieval Days

When people wanted anything they knelt down and prayed for it. However, that was some time ago. Along about 1600 a fellow named Gutenberg, who had come to Rhine over, was monkeying around a carpenter shop in Leine. He was whittling some little blocks and actually made an alphabet. Then he rigged a sort of well-a machine that would knock something like our letter press of today. He arranged his blocks in order, put some ink on them, also a piece of paper, and then screwed his press down. That was called printing. Old Gutenberg made a howling success of the racket, and his head became so swollen that he really snubbed the king one day. The king overlooked that, but he was a little peeved at the press of today.
