It is a noticeable fact that the little launch Moro, which arrived yesterday from Bandon with a cargo of salmon, will carry back to Bandon a large amount of merchandise to that point from Portland and Astoria. They ran to the upper end of Commercial street, where they were stopped. Fortunately no damage was done.

THE REPUBLICAN DEMONSTRATION

(Continued from First Page.)

emergency brought about by the Chicago rioters, has not only been a surprise to every honest and right thinking man, but has appalled some of us as the declaration of a principle which if carried out can only mean the direct disaster to our fair land. Can we safely trust the government with a conglomerate party believing in such a principle and advocating it in their platform?

"Now, my fellow citizens, I will not detain you much longer. I only attempted to point out some facts for you to study yourselves, and I would urge your careful attention to these great subjects. I thoroughly believe that when the great Republican party goes back into power next November we shall again see those good times which gave work to the laboring man and whose pay was in dollars good for a dollar the world over. If there are any of those good Democratic friends here tonight who do not like to desert the principles of the party with which they have been identified for years, and who yet cannot swallow the Chicago platform, nor vote for the nominee who stand upon it, I would suggest that they might adopt the plan of an old gentleman whom I met recently while traveling in the South. He was 81 years old and had always supported the Democratic party. When asked what he was going to do, in order to avoid the difficulty in which he found himself, because he could not support the Chicago platform, he replied by saying that on November 3d he should take a McKinley and Hobart ticket, scratch off the names at the head of it, and substitute the names of Palmer and Buckner. He could thus vote for his principles and help to secure the election of an electoral college to take care of the prosperity of the country.

"I thank you, ladies and gentlemen, one and all, for the careful attention you have given me tonight, and trust that you will investigate the questions we have been considering; and I hope that upon the evening of November 3d, when many of us will be gathered at the state Republican headquarters, we will get the news over the wires from Astoria that Clatsop county had rolled up a one thousand majority for McKinley." (Prolonged applause.)

The music furnished throughout the evening by the McKinley Quartet, Messrs. Belcher, Burnett, Garner and Smith, was new, bright and entertaining. The members of the quartet have worked hard, and the repeated encores given them last night are the best evidence of the success they have attained.

NEHALEM NEWS.

Mr. Lewis, the well known rancher of Jewell, is spending a few days in the city. He says that politics in the Nehalem are all one-sided. A careful canvass of that district shows that the voters stand three to one for McKinley. At Vesper the same state of affairs exists. Such old-line Democrats as the Cahills are out openly for sound money and McKinley. Old Mr. Bottom, however, has offered to bet his ranch that Bryan will win the fight. But of course his wife would not permit such a wager on his part. Mr. Lewis says that the people of Jewell and Vesper would like to have a visit from one of the Republican campaign speakers, and that they would enjoy entertaining him, although his presence is not absolutely necessary. Talking of country roads, he said that since the new work started by the county court had been completed, they were enabled to reach the city much more easily than heretofore. He left Jewell at 9 o'clock in the morning and covered the thirty miles to Astoria by a mountain road in an excellent record. This season quite a large amount of wheat has been raised in the Upper Nehalem, and a great deal of it will be manufactured into flour at the little mill on the creek. They make a fine grade of flour, although not so white as that manufactured in the cities. Mr. Lewis besides wheat, also carries a large quantity of hams and bacon, and will put in another large crop of grain the coming season. Good prices were obtained in Astoria this year for all kinds of produce, although up to the present time farmers have been about as conveniently situated to Portland as Astoria. A seaport is always the best market for the farmer. Transportation facilities being equal, the produce raiser will always seek a seaport even if the distance is greater than to an interior town.

IN THE CIRCUIT COURT.

A number of interesting cases were considered yesterday in the circuit court. The grand jury did a good deal of work, and Judge Melville's time was fully occupied during the day. Sheriff Hare returned the following special jury venire, whose names were placed in the jury box: Wm. Chance, T. L. Moore, Duncan Stuart, Thos. Wilkins, son, Denny Curran, S. B. Howard.

W. M. LaForce vs. A. Levy & Co., re-set for trial this afternoon.

State vs. J. J. Kenney, No. 2, plea not guilty, set for trial to follow No. 1.

Grand jury returned one true bill against J. H. D. Gray.

C. A. Peterson vs. E. Thompson, on trial.

Jan. Anderson, a native of Sweden, declared his intention of becoming a citizen of the United States.

OBITUARY.

Wm. H. Ryan, an old time resident of this city, died yesterday afternoon. Mr. Ryan during his long residence here made many friends; he was one of those men whom it is safe to be to; quiet, unassuming, charitable, and honorable; his word was as good as his bond.

No flattery, no conceit was there in his make-up; he held his friends as with hooks of steel. Suffering humanity ever enlisted his sympathy and assistance. The little tots especially touched his heart, and there are many of them in Astoria today who will mourn his death with as sincere regret as his nearest kin.

Poor Dad! No longer will your friends enjoy your friendship. Such friendship, our hearts fill with sorrow and our eyes with tears at the cruel parting; but thank God, we can point to a chapter of noble acts and many kindnesses as a heritage and we can console ourselves with the hope of a reunion in the Valley of Peace beyond.

H. W. CLOUDBURST IN ARIZONA.

Tucson, Ariz., October 1.—A special to the Star from Benson says: A part of the town was washed away and six persons drowned by the flood from a cloudburst in Whetstone mountains, twelve miles southwest of the town. The dead whose bodies have been recovered are: William Zeek, A. Barber, his wife and two children; Oscar Ashburn, a cattleman. Four more persons are missing.

It is expected that great loss of life and destruction of property will be reported all along the San Pedro river until it empties into the Gila. Details of the disaster at Benson and an accurate description of the extent of the cloudburst have not been received, but the precipitation must have occurred along the whole length of the Whetstone mountains.

STILL POURING INTO CANTON. Canton, Ohio, October 1.—Four trains brought delegations from Portage county, Ohio, today, with greetings to McKinley. The first was a party from the southern part of the county, comprising over the Pennsylvania lines in the regular trains. The other three came in special cars, each carrying over the C. & C. No. 100. No demonstration was made till the last arrived, when a parade was organized. After a short march a meeting was held in the tabernacle. A delegation from Springfield, Ohio, arrived on a special train of seven coaches at 1:45 this afternoon. It brought the "Heavyweight" McKinley and Hobart Club and other clubs and citizens generally. After a short party in the business portion of the city the crowd assembled in the tabernacle.

Cyrus H. McCormick, of Chicago, who is at the head of the great harvesting machine company, recently wrote the following: "We have never before been so much at a loss to lay our plans for the work for next season as now. If we thought the country would go for unlimited coinage of silver we do not wish to run our shops for more than half their capacity."

"We have in that statement a description of our business troubles and it teaches the striking lesson which must impress every thinking man. The manufacturer does not know how to plan for the next year's business because of the financial uncertainty created by the attitude of a great political party in combination with two other parties. If free silver is to be inaugurated in this country it will change all values, disarrange the relation of labor to production and of raw material to the finished product. This uncertainty makes every business enterprise halt, and while they pause and halt the home of every workman is filled with despair."

In the light of the present political situation in this country, the following extract from the great essay of Macaulay, written on the future of the American commonwealth, and published in the year 1856, is certainly one of the most astounding prophecies ever made in the history of the world: "The day may come in the United States when a multitude of the people, oppressed by hard times, will be called upon to choose rulers. On one side will stand a statesman preaching patience, respect for vested rights, and strict observance of the public faith. On the other side will stand a demagogue, ranting about the tyranny of usurers and capitalists. Let us hope that if such a season of adversity ever comes, the American nation will not act like people who would in a year of scarcity devour all the seed corn, and thus make the next year 8 year, not of scarcity, but of absolute famine."

Free coinage would defer, if not defeat, international bimetalism. Free silver would contract our currency and drive 500,000,000 gold dollars out of circulation. The money of a country should never be the subject of partisan contention. In addition to free silver we are asked to enter on an era of irredeemable paper currency. We are not a nation of classes, and appeals to prejudice should be rebuked.
