The entertainment given at the opera house last night for the benefit of the High School piano fund, brought out an appreciative audience, though not a very large one. The program was

Mr. Charles Olvis, who has for years been operating the Uppertown tannery, is making a most enviable reputation for the quality of the goods he produces. Mr. Sharpstein was well known in Astoria and on the coast, and has for three years been suffering from consumption. During that time he has traveled all over the country, particularly through the south, but all efforts were of no avail to save his life. He returned home a short time since to die. The deceased leaves a wife and one child. He is a son of Judge D. L. Sharpstein, and a brother-in-law of Mrs. E. L. Parker, Mrs. Tom Trullinger, Mrs. Thos. Kyrle, and Mrs. F. L. Tattle, of Chicago. The commander of one of the steel ships at Flavel is very much provoked in regard to the item which appeared in one of the evening papers charging him with having thrown overboard a political blunder belonging to a certain gentleman of the city. The captain says that he and his friend were simply discussing matters of common interest on the corner four or five weeks ago, when as a matter of good fellowship and fun he chided the gentleman with wearing a silver button and took it from him. The gentleman himself regarded the matter as a joke and nothing more was said about it until a day or two ago, when it came up through parties entirely disinterested, who had nothing to do with the matter. It has been more than once remarked that the British sea captains now in port are the finest lot of skippers who have been here at one time for a number of years. They all understand their business. The vessels visiting this port leave large sums of money here for the purchasing of supplies, and it is scarcely proper, so the captains think, to call names or charge them with crimes of which they are not guilty.

### THE BATTLESHIP OREGON.

Final Efforts to raise the balance of the Funds Necessary to Secure the Testimonial.

Portland, Or., Sept. 21, 1896.

To the Editor of the Astorian:—The undersigned, having by due authority been appointed a sub-committee to make a final effort for raising the balance of the fund necessary to secure a proper testimonial to the battleship Oregon, present the following to the people of the state:

When in May, 1895, the general committee was appointed by the governor, various plans were devised, each promising good results, but for various causes the amount required to give proper recognition to the great honor conferred on the state has not been raised. The main cause has of course been the stringency of the times, but in addition to this, the committee has stepped aside for various enterprises among these being local celebrations and the exposition at Portland. The political contest in June last also interfered to some extent with the work of the committee.

But the time is drawing near when the magnificent battleship Oregon will have been fully completed, and may turn her prow northward to visit the waters of the state after which she has been named. The people of the state owe it to themselves that a fitting recognition of the honor accorded is made. The balance still left to be raised, if all contributions and pledges are collected, is about \$1500.

We regret that the people of the interior parts of the state have not come forward with that liberality which patriotic interest suggests, and this appeal is now made to commercial clubs, associations, churches, societies, clubs and individuals. None are asked to give who cannot give.

The amount contributed will come back to the donors a hundredfold under the consciousness of a duty performed. Subscriptions will be received up to and including October 31, 1896, and should be forwarded to Henry Failing, Treasurer, Battleship Oregon, First National Bank, Portland, Or.

Very Respectfully,  
R. W. MITCHELL,  
CHAS. F. REEBE,  
MRS. MACKENZIE,  
MRS. SOL HIRSCH,  
MRS. H. J. CORBETT,  
MRS. R. NIXON,  
MISS FAILING,  
FRANK MOTTER,  
Sub-Committee.

### CIRCUIT COURT.

In the circuit court yesterday a number of interesting cases were under consideration, and the present jury is making a record for rapid work. So far this term they have decided all cases in less than twenty minutes. The first thing occupying the attention of the court at the morning session was the application of Nels Steffensen, a native of Sweden, for admission as a citizen of the United States. Upon examination of witnesses, the applicant was ordered admitted.

C. A. Peterson vs. A. Thompson, jury rendered a verdict for the plaintiff for \$23.

Julius Jacobs vs. E. L. Jeffrey et al, the motion to make the complaint more definite was sustained by the court.

State vs. Gus Snugg et al, the defendants, who were indicted by the grand jury for participating in a riot during the fishermen's strike, were arraigned in court and charged with the crime of participating in riots. The seven defendants pleaded not guilty. The case was set for trial October 8.

State vs. J. H. D. Gray, defendant was arraigned in court and charged with carrying concealed weapons. He pleaded not guilty, and appeared in his own defense, stating that as a county officer he considered that he had the right to carry a weapon. The case was set for October 8.

Samuel Oliver vs. Astoria Savings Bank. Judgment was rendered for defendant on the verdict of the jury.

State vs. Frank Cabanis, No. 1; defendant was arraigned in court and charged with assault with a dangerous weapon. He entered a plea of guilty and the court fixed this morning as the time for pronouncing sentence.

State vs. Frank Cabanis No. 2, dismissed on motion of district attorney.

W. M. La Force vs. A. Levy, this suit occupied nearly the entire time of the court yesterday afternoon, and towards the close of the session, the attorneys for the defense entered a motion for non-suit. The case was continued until this morning.

### ASTORIA TO HEAR MISS BLOCH.

A Threat to Fill Their Places Wired from Montreal.

Montreal, October 2.—Assistant General Manager Tait has wired to all points that the train dispatchers and operators who had stopped work now have two days in which to consider the magnitude of their blunder and that if they desired to resume the places they had voluntarily given up they must do so before 5 p. m. today or their places will be filled by new men.

### WINTER IS COMING.

The ladies of the W. C. T. U. have in contemplation a series of entertainments during the winter months. Some of the entertainments will be of a unique nature. It is proposed to give in the near future, a novel exhibition to take the form of a birthday party. About October 10 it is expected that the services of Mrs. Lucia H. Addison, of Portland, can be secured to give several lectures in this city. The lady comes highly recommended, and her special line of work is "The Relation of Temperance to Capital and Labor." She brings to the field a fund of information which always makes her entertainments attractive.

The society makes an appeal for supplies of all kinds. Winter is coming on, and unless extra efforts are made by the citizens, there will surely be suffering. Cast-off clothing of all kinds will be gladly received by the committee, and everyone is urged to make a search in closets and old trunks for articles which can be utilized in making some one - wise comfortable. Articles may be left at the rooms of the W. C. T. U., or if the Union is advised, they will call for the same. Doubtless there will be a hearty response to this appeal and no one need be ashamed to send in word of a supply of cast-off articles which can be used to great advantage by the Union.

### NOT ALL ONE WAY IN MONTANA.

The following is an extract from a letter received from an employe of the Northern Pacific Railway in Glendive, Mont., by the Railway Agent:

"I believe the railway men generally are commencing to realize the necessity of placing themselves, irrespective of party, on the side of sound money and law and order, as against repudiation and anarchy, as outlined in the Democratic platform at Chicago. While this state is very largely interested in silver mining, and is, therefore, generally credited to the free silver column, the people in this part of the state are almost a unit for sound money. I believe that no class of labor is more vitally concerned in up-holding the national honor by advocating and working to maintain a sound currency system than the railway men who would, without question, be among the first to suffer for the effects of a depreciated currency. The publishers of the Railway Age are to be congratulated in their great work for the cause of sound money by furnishing each week arguments and valuable information on the subject, which every person can understand, and is demonstrating already its effect by opening the eyes of railway men to the gravity of the situation that confronts them when they march to the polls at the coming election. I believe that no more loyal patriots exist than the railway men of the West, and when the ballots are deposited on November 3, they will be found standing shoulder to shoulder with their brethren in the East for sound money and good government."
