It is hardly probable that the American people are paying enough attention | Liver, Summed just now to Mr. Bryan's rear platform Regulate just now to Mr. Bryan s reas possesses to note all the glaring absurdities and inconsistencies which they contain. Having entirely abandened the discussion of the free coinage question, and having persistently declined to state his position on the tariff, it can hardly be expected that the American people will continue to manifest further interest in his utterances. Some of his recent speeches, however, present absurdities that are an interesting lilustration of the grotesque extremes of inconsistency to which an illogical mind can go. On one occasion he declared that free silver would benefit manufacturers because they could go into the market and buy silver with which to pay laborers, and thus get labor as cheap as the foreign manufacturer can get it. On another occasion he promised that the debtor could go into the market and buy silver and have it coined and thus lift his mortgage for 50 per cent less than it requires on the gold basis. On several other occasions he has made the statement that free coinage would bring the price of silver Toe up from 65 cents to \$1.29 an ounce, bringing it up to par with gold at the ratio of 16 to 1. If Mr. Bryan's election is to bring the price of silver up to \$1.29,

how will it enable the mortgaged debtor

to lift his mortgage with 53-cent dollars and how will it double the selling price of the farmers' products? Mr. Bryan's speeches are the most amazing examples of monumental absurdity in the history of American politics. He has not made a single utterance on the currency question that will stand the test of logic.

AS TO FREE SILVER.

Delivered by carrier, per month 45 While Mr. Bryan is denouncing trusts and syndicates, it might be well for him Bent by mail per year, 12 in advance, to give some attention to the charge that there is a silver trust or combination which is behind the free silver agitation. Senator Hill, of New York, has declared that there is such a combination and that the whole agitation for free silver is due to it. Mr. David A.
