INDIO

Absolutely Dry and Pure Tropical Climate

Pronounced by Physicians the most Favorable in America for sufferers from . . .

Lung Diseases and Rheumatism

Many Remarkable Cures

The objections urged against Indio in the past by the large lumbermen who otherwise would have been glad to take advantage of its beneficial climate, has been a lack of suitable accommodation. The Southern Pacific Company takes pleasure in announcing that several

Commodious and Comfortable Cottages

have just been erected at Indio station, that will be rented to applicants at reasonable rates. They are furnished with modern conveniences, supplied with pure artesian water, and so situated as to give occupants all the advantages to be derived from a more or less protracted residence in this delightful climate.

(From the San Francisco Argonaut.)
"In the heart of the great desert of the Colorado—which the Southern Pacific traverses—there is an oasis called Indio, which, in our opinion, is the sanitarium of the earth. We believe, from personal investigation, that for certain individuals, there is no spot on this planet so favorable."

J. Stewart, M. D., writes: "The purity of the air, and the eternal sunshine, fill one with wonder and delight. . . . Nature has accomplished so much that there remains but little for man to do. As to its possibilities as a health resort—here is the most perfect sunshine, with a temperature always pleasant, a perfectly dry soil, for rain is an unknown factor; pure oxygen, dense atmosphere and pure water. What more can be desired? It is the place, above all others, for lung troubles, and a paradise for rheumatism. Considering the number of sufferers who have been cured, I have no hesitancy in recommending this genial oasis as the haven of the afflicted."

For further information inquire of any Southern Pacific Company agent, or address

The Elmore sailed for Tillamook yesterday with a general cargo.

The British bark Java from Hilo arrived in ballast yesterday via the Sound.

The Escort took on a new Coir hawser which was received yesterday from San Francisco.

The Signal arrived in yesterday from British Columbia with a cargo of coal, 226 tons of which are being discharged at the O. I. Co.'s dock.

The Riverdale left down from Portland yesterday and will lighter 250 tons of wheat to Astoria, where it will be loaded into the vessel.

The four-masted American barkentine Arago arrived down river yesterday and will sail today for Nagasaki, Japan, with a heavy cargo of lumber.

The British ship Procyon still remains outside of the mouth of the river, awaiting orders. Her instructions are expected to arrive now and will be carried out to her by the tug.

Dr. J. A. Fulton yesterday gave the Inchaque Hook a clean bill of health. When she arrived one case of smallpox was reported, but the sailor had recovered weeks ago, and none of the rest of the crew took the disease.

The men on the Alaska Packers' Association's tender Afognak, says the Examiner, bring down the best fish story on record. They assert that while they were in Alaska waters "one net at one haul" took in 75,000 salmon; that the average weight of each fish was 11 pounds, and that the total weight of the silvery mass was 412 tons. Not a bad take for one net, so it is no wonder that the salmon pack is a very heavy one this year.

The feeling of unrest which has characterized the captains in the employ of Goodall, Perkins & Co. ever since Captain Bolles of the Portland steamer Columbia was appointed an inspector of hulls and boilers was ended yesterday by the unofficial announcement of the changes that will follow Bolles' resignation. It has practically been decided that Captain Hall of the steamer Corona will succeed Bolles in the Columbia. Captain Conway of the Eureka will leave his ship to take Hall's place in the Corona, and First Mate Parsons of the steamer Queen will be become a captain and occupy the bridge of the Eureka. Captain Bolles will make two more trips to the Columbia—Chronicle.

A special to the Colonist from Port Townsend yesterday says: "My tomorrow noon it is confidently expected by the steamship officers that the Umatilla will be pumped out, floated around Point Wilson into Port Townsend Bay and beached, where she will be safe from bad weather. Then, if it is deemed safe, she will be taken to the dry dock at Quarantine Harbor to have permanent repairs effected. Today the ship's two 2-inch pumps and four 12-inch pumps were started up, and in five minutes they lowered the water four inches. All of the holes found in her bottom have been stopped, and it is believed that she can be easily pumped out. If today's work is any indication, she will be aloft by noon. After she goes on the beach, a further and more thorough examination will be made, and if she will stand the strain, she will be taken to the dry dock at once.

Another steamship line has been established between the Sound and Central American ports, the first vessel, the Amaraopora, being advertised to sail from Tacoma on October 25, and from Seattle October 27. She is to call at Ocos, San Jose de Guatemala, Champerico, Acapulco and La Libertad. The list of freight rates for the new ship are the same as those of the Transit, and strict instructions have been given round trip every two months, and this new vessel will give a monthly service. The steamship is now en route from Hongkong and is due to arrive on the Sound October 26. She is an iron vessel of 3,000 tons burden and 1,519 tons net. Her length is 150 feet; breadth of beam, 35 feet, and depth of hold, 27 feet. She was built in 1874—Colonist.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

Bryan replies to the citizens who ask questions shows that he knows a great deal more about language than he does about statesmanship.—Baltimore American.

THE TRUE FACTS.

The publication in an evening paper last night of a letter signed by A. Paulsen, making certain charges against Mr. Geo. Flavell, led an Astorian reporter to call on that gentleman to ascertain the truth of the charges made. Mr. Flavell said that the matter was hardly worth noticing, but that he would state for the information of the curious that he had not in any manner, shape or form called for bids for any work to be done on the building now occupied by Mr. Copeland and the Bee Hive store; "I did not put any men at work upon such an improvement and of course could not have discharged any men for political or other reasons. Mr. Copeland asked me if I would not make a certain improvement in the way of an addition to the rear of the store room, but I told him I did not feel like making any improvements at the present; but that if he would bring me an estimate of the cost I would talk with him about the matter. He called later in the day and stated that he had had a couple of carpenters make a rough estimate of the cost of what he wanted, and gave me the figures. I then told Mr. Copeland that if McKinley was elected I would probably make the improvement he desired; but that owing to the uncertainty of business matters now, and the probability of hard times if Bryan should be elected, I did not care to spend any money just now, as I might need all I had in case of Bryan's victory. This was all that was said about the matter. I do not know Mr. Paulsen; never saw him to my knowledge, and never had any business with him.

"It has not been my practice, and was not my father's, to allow politics to interfere in any way with our business matters. I am, by a Democrat, as I am, but even in Democratic times we employed many Republicans and I still have some at work for me, as we have made it a principle not to meddle with the political beliefs or disbeliefs of any of our men."

Astoria, Oct. 13, 1896.
In the name of truth and justice allow me space for a few words in last evening's paper headed, "A Case of Corollation in Our Midst."

Any one who knows anything about the facts knows that the Flavell family have had Republicans constantly in the employ of their family for years.

No one but Mr. Copeland was present at any conversation held with Mr. Flavell in regard to the work referred to.

Captain Flavell stated that he would make the desired improvements if McKinley was elected, as he knew that when money matters would be just the same as they are at present; but that if Bryan was elected it was uncertain what would be the condition of money matters.

THE CASTLES REMANDED.
Special to the Astorian.
London, October 13.—In the Marlboro street police court today, Mr. and Mrs. Walter M. Castle, of San Francisco, who were arrested at the Hotel Cecil Tuesday last, charged with stealing a quantity of furs, etc., from various dealers in this city, were arraigned on a remand, and after a short hearing were again remanded for a week, ball being allowed in the sum of \$150,000.

ADMINISTRATOR'S NOTICE.
Notice is hereby given that I have been appointed administrator of the estate of W. H. Ryan, deceased. All persons having claims against said estate must present the same to me at Astoria, within six months from the date hereof. All persons indebted to said estate are hereby notified to pay said indebtedness to me, forthwith.

NOTICE TO SHIPPERS.
Shippers are hereby notified that local freight to points on the Seaboard road will be received at the Telephone dock only. All freight must be delivered one hour before train time. No freight will be received after 4:30 p. m.

Declaration of Principles

OF THE
REPUBLICAN PARTY.

The Republicans of the United States, assembled by their representatives in the National Convention, appealing for the popular and historical justification of their claims to the matchless achievements of thirty years of Republican rule, earnestly and confidently address themselves to the awakened intelligence, experience and conscience of their countrymen in the following declaration of facts and principles:

The Financial Issue.
For the first time since the Civil War the American people have witnessed the calamitous consequences of full and unrestrained Democratic control of the Government. It has been a record of unparalleled incapacity, dishonor and disaster. In administrative management it has ruthlessly sacrificed indispensable revenue, entailed an unceasing deficit, eked out ordinary current expenses with borrowed money, piled up the public debt by \$262,000,000 in time of peace, forced an adverse balance of trade, to a perpetual menace hanging over the redemption fund, pawned American credit to alien syndicates and reversed all the measures and results of successful Republican rule. In the broad effect of its policy it has precipitated panic, blighted industry and trade with prolonged depression, closed factories, reduced work and wages, halted enterprise and crippled American production while stimulating foreign production for the American market. Every consideration of public safety and individual interest demands that the government shall be rescued from the hands of those who have shown themselves incapable of conducting it without disaster at home and dishonor abroad, and shall be restored to the party which for thirty years administered it with unequalled success and prosperity.

A Protective Tariff.
We renew and emphasize our allegiance to the policy of protection as the bulwark of American industrial independence and the foundation of American development and prosperity. This true American policy taxes foreign products and encourages home industry; it puts the burden of revenue on foreign goods, it secures the American market for the American producer; it upholds the American standard of wages for the American workman; it puts the factory by the side of the farm, and makes the American farmer less dependent on foreign demand and price; it diffuses general thrift and founds the strength of all on the strength of each. In its reasonable application it is just, fair, and impartial, equally opposed to foreign control and domestic monopoly, to sectional discrimination and individual favoritism.

We denounce the present Democratic tariff as sectional, injurious to the public credit and destructive to business enterprise. We demand such equitable tariff on foreign imports which come into competition with American products as will not only furnish adequate revenue for the necessary expenses of the government, but will protect American labor from degradation to the wage level of other lands. We are not pledged to any particular schedules. The question of rates is a practical question, to be governed by the conditions of the time and production; the ruling and uncompromising principle is the protection and development of American labor and industry. The country demands a right settlement and then it wants rest.

Reciprocity With Other Nations.
We believe the repeal of the reciprocity arrangements negotiated by the last Republican administration was a national calamity, and we demand their renewal and extension on such terms as will equalize our trade with other nations, remove the restrictions which now obstruct the sale of American products in the ports of other countries and secure the enlarged markets of our farms, forests and factories.

Protection and reciprocity are two measures of Republican policy, and go hand in hand. Democratic rule has recklessly struck down both, and both must be re-established. Protection for what we produce, free admission for the necessities of life which we don't produce, reciprocal agreements of mutual interest which gain open markets for us in return for our open market to others. Protection builds up domestic industry and trade and secures our own market for ourselves. Reciprocity builds up foreign trade and finds an outlet for our surplus.

Protection to Sugar Producers.
We condemn the present administration for not keeping faith with the sugar producers of this country. The Republican party favors such protection as will lead to the production on American soil of all the sugar the American people use, and for which they pay other countries more than \$100,000,000 annually.

Wool and Woollens.
To all our products—to those of the mine and the field, as well as to those of the shop and the factory—to hemp to wool, the product of the great industry of sheep husbandry, as well as to the finished woollens of the mill—we promise the most ample protection.

Enlargement of the Navy.
The peace and security of the republic and the maintenance of its rightful influence among the nations of the earth demand a naval power commensurate with its position and responsibility. We therefore favor the continued enlargement of the navy and a

complete system of harbor and sea-coast defenses.

Immigration Laws.
For the protection of the equality of our American citizenship and of the wages of our workmen against the fatal competition of low-priced labor, we demand that the immigration laws be thoroughly enforced, and so extended as to exclude from entrance to the United States those who can neither read nor write.

Civil Service.
The Civil Service law was placed on the statute book by the Republican party, which has always sustained it, and we renew our repeated declarations that it shall be thoroughly and honestly enforced and extended wherever practicable.

Free Ballot.
We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot, and that such ballot shall be counted and returned as cast.

Lynching Condemned.
We proclaim our unqualified condemnation of the uncivilized and barbarous practices, well known as lynching or killing of human beings, suspected or charged with crime, without process of law.

National Arbitration.
We favor the creation of a national board of arbitration to settle and adjust differences which may arise between employer and employed engaged in interstate commerce.

Free Homesteads.
We believe in an immediate return to the free homestead policy of the Republican party and urge the passage by congress of the satisfactory free homestead measure which has already passed the house and is now pending in the senate.

Admission of Territories.
We favor the admission of the remaining territories at the earliest practicable date, having due regard to the interests of the people of the territories and of the United States. All the federal officers appointed for the territories shall be selected from bona fide residents thereof, and the right of self-government shall be accorded as far as practicable.

Alaska Representation.
We believe the citizens of Alaska should have representation in the congress of the United States, to the end that needful legislation may be intelligently enacted.

Sumptuary Legislation.
We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

Rights of Women.
The Republican party is mindful of the rights and interests of women. Protection of American industries includes equal opportunities, equal pay for equal work and protection to the home. We favor the admission of women to wider spheres of usefulness, and welcome their co-operation in rescuing the country from Democratic and Populist mismanagement and misrule. Such are the principles and policies of the Republican party. By these principles we will abide and these principles we will put into execution. We ask for them the considerate judgment of the American people.

Confident alike in the history of our great party and in the justice of our cause, we present our platform and our considerations, in the full assurance that the election will bring victory to the Republican party and prosperity to the people of the United States.

Less dust, more comfort
If for no other reason than because of its comparative freedom from dust you should take the Burlington Route when you go East. Mind you, we do not claim that our trains enjoy ABSOLUTE exemption from dust. Such a statement would not be true. But we do claim—and we know we are right—that our tracks are better ballasted and better maintained than those of any other railroad to Omaha, St. Joseph, Kansas City, St. Louis and Chicago.

A. C. SHELDON, G. A., Portland, Oregon.

Parties desiring the best of job printing at the lowest prices should call at the Astoria job office before going elsewhere.

Burlington Route
