The Financial Issue.

"The Republican party is unreserv edly for sound money. It caused the enactment of the law providing for the resumption of specie payments in 1879; since then every dollar has been as good as gold. We are unalterably opposed to every measure calculated to debase our currency or impair the credit of our country. We are, therefore, opposed to the free coinage of silver, except by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote, and until such agreement can be obtained we believe the existing gold standard must be preserved. All our silver and paper currency now in circulation must be maintained at a parity with gold, and we favor all measures designed to maintain inviolable the obligations of the United lating foreign production for the Amer-States, and all our money, whether coin or paper, at the present standard, the public safety and individual interest standard of the most enlightened na-

The Republican party is mindful of the rights and interests of women. Protection of American industries includes equal opportunities, equal pay for equal work and protection to the home. We favor the admission of women to wider spheres of usefulness, and welcome their co-operation in rescuing the country from Democratic and Populist mismanagement and misrule. Such are the principles and policies of the Republican party. By these principles we will abide and these principles we will put into execution. We ask for them the considerate judgment of the American
