THE MILLS ARE NOW OPENING

A General Resumption of All Kinds of Industrial Work.

MONEY MARKET IS LOOSENING

The Ball Started to Rolling by the Northwestern Harvester Works, of Milwaukee, Wis.

Cincinnati, November 5.—A special dispatch indicates a revival in business throughout the Ohio valley, as well as here. The Big Four, Chesapeake and Ohio, and Baltimore and Ohio roads all ordered their shops opened today and enlarged the forces at those already running. The Knight Car Works at Huntington, W. Va., resumed. The car works at Mount Vernon, Ill., got an order for 300 cars from the Louisville and Nashville road and resumed work. The Niles Tool Works and other shops at Hamilton announced increased forces. Furnaces at Ironton, Ashland and other river towns announce that they will go in blast soon. The Griffin Wood Works and the Powell Brass Works, both large concerns, employing many men, announced today that they would resume at once. Others report that they had conditional orders on which they will enlarge their forces immediately.

The Pittsburg Packet Co. closed a contract here today for building a new \$65,000 river steambot. Plans were made and the contract drawn two months ago, but the closing of it was conditional upon the result of this election.

The big cooper shops at Haridon, O., have resumed work to their full capacity.

One, and probably two, of the idle mills of the Dayton Pipe Co., this country, will start in full as soon as repairs now in progress can be completed.

The Burns Iron Works at Portsmouth, which have been running on short force announces that it will employ a full force immediately.

MONEY EASY. Kansas City, November 5.—Local bankers in separate interviews today, united in saying the result of the election has been to make the Kansas City money market easy, and that business men who have been cramped, due to the banks contracting loans, need have no more trouble in that respect. Local banks had universally withheld their gold up to the conclusion of the election. Today they began paying yellow metal out to all their customers who desired it.

THE FIRST GUN. Milwaukee, November 5.—The settlement of the presidential election is having a cheerful effect on industrial circles in this city. The Milwaukee Harvester Works was the first institution to start the ball on the road to prosperity by employing three hundred additional men. Two hundred more will be added within a month.

Railway officials report a great rush for mileage books by traveling agents. THE IPSWICH MILLS RESUME. Ipswich, Mass., November 5.—The woolen and cotton mills of the Ipswich Corporation, which have been shut down for some time will start on full time early next week. Employment will be given to about 1,000 hands.

MASSACHUSETTS. Springfield, Mass., November 5.—The Spaulding and Pepper Manufacturing Co. has started up its factory after a few weeks' shut down pending the result of the election. The company had a large number of orders conditional upon a Republican victory.

FROM THE ORIENT. Late News Published by the Yokohama Japan Daily Advertiser.

The following interesting items appear in the Japan Daily Advertiser of October 12th: The mineral products of Japan amounted in value to yen 15,145,517 in 1892; yen 16,365,517 in 1893 and yen 20,195,974 in 1894. One hundred thousand laborers, according to the Jiji, were employed in the various mines, a percentage of two persons to every one thousand of population. At present mine undertakings are considered too speculative, and very few capitalists are willing to meddle with them. But the time must soon arrive when mining will be profitably undertaken by joint stock companies.

It is announced, says the L. and C. Express, that a British firm, which does a considerable business in the Far East, is about to try the experiment of appointing a commercial traveler a Chinaman. It is said that this native "trade drummer" will spend the next winter in exploiting the Celestial Empire on behalf of the firm in question, and that he will carry with him a well-chosen assortment of British textiles. The experiment will doubtless be watched with interest. The original plans of the department of Communications for the extension of telephone lines to be inaugurated during the coming fiscal year are to undergo considerable modification owing to the reduction of the estimated expenditure, yen 2,000,000 having been originally demanded for this purpose. The new cabinet, says the Nichi Nichi, proposed, at first a reduction of nine-tenths of the original amount of this item, but after considerable opposition by the department it was finally agreed to set apart an amount of yen 500,000 for it in the coming budget.

Mr. Suganuma, ex-secretary of the Japan Cotton Mill Owners' Association, and several capitalists of Kanazawa, Ishikawa Prefecture, have formed a company to run a cotton spinning mill at Kanazawa, with a capital of yen 500,000.

Several gentlemen of Nagasaki are reported to have in view a project to construct a railway line from Nagasaki to connect with the Kiushu Railway at Kitagata. The capital is stated at yen 2,000,000. Mr. Naruse, a graduate of the Keio-gijuku, has been selected by the department of agriculture and commerce as one of the students who are to be stationed in foreign countries to study the practical conditions of business. He left by the Empress of Japan for Philadelphia, where he is to be stationed. The construction of a tunnel between Saasani and Maami in Nagano Prefecture on the proposed trunk line of the government railway from Hachioji to Nagoya, through Shinano Province, was begun on October 3th. At a directors' meeting of the Osaka Railway Co., held on October 10th, an annual dividend of 10 per cent was declared. The net profits of the company for the past six months amounted to yen 151,575.

THE FIRST TEN MILES. Corey Brothers Have Completed Their Work on the A. and C. R. R. in Fine Shape.

The work on the first ten mile contract for the railroad line above Tongue Point, has just been completed by Corey Brothers. Yesterday their men broke camp and commenced bringing the tools, material and horses to the city. One drove of twenty horses arrived about 4 o'clock, and the tram cars, rails, plows, scrapers, wagons, shovels, picks, etc., will be shipped on a barge to the city this week. The balance of the horses and men will come in as soon as the last lot of small stuff has been loaded. A warehouse is being constructed at Smith's Point where all of the small tools and equipment liable to be damaged by the weather, will be stored. The rails and larger material will be stacked up near the warehouse, and for the present the horses will be corralled at the same place. The work done by Corey Brothers for the Astoria and Columbia River Railroad has perhaps never been exceeded, if equalled, on the Pacific coast. The grading, tunneling, trestling and bridge work is of the highest order known to engineers. The rip-rapping of the grade along the river shores is superior to any work of this class ever put up in the state. The rock work is eighteen inches in thickness and each stone is laid by hand with the regularity of Belgium block pavement work. The piling used was of the heaviest and clearest material obtainable. The entire character of the work is evidence that the A. and C. R. R. is being built for heavy traffic at the outset. It has also been clearly demonstrated that Corey Brothers know how to build a railroad.

DID 'Y HEAR DEM BELLS A-RINGIN'

For Wm. McKinley, Who Has Already Opened the Factories.

MR. BRYAN TO MR. MCKINLEY

Wrote His Congratulations, Gracefully Retiring from the Fight—Hanna Makes a Statement.

New York, November 5.—The returns received by the Associated Press up to 1:45 p. m. today state that McKinley has carried the following states: California, Connecticut, Delaware, Illinois, Indiana, Iowa, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, West Virginia, and Wisconsin, 200 electoral votes, and that Bryan has carried the following states: Alabama, Arkansas, Colorado, Florida, Georgia, Idaho, Kansas, Louisiana, Mississippi, Missouri, Montana, Nebraska, Nevada, North Carolina, Tennessee, Texas, Utah, Virginia, and Washington, 147 electoral votes, leaving in doubt Wyoming, Kentucky, and South Dakota, twenty votes.

NEBRASKA. Lincoln, Neb., November 5.—The complete returns from forty-four out of ninety-three counties of the state received at Populist headquarters give Bryan 7138 majority, and Holcomb, fusion, for governor, 10,945. It is estimated from these figures that Bryan's majority in the state will be about 12,000 and Holcomb's about 18,000.

THE FACT THAT HOLCOMB RUNS AHEAD OF BRYAN is attributed to the confusion incident to the court decision against the regularity of the Chicago ticket. Populists and Democrats concede the election of Strode, Republican, to congress from the first district, and of Mercer, Republican, in the second. The fusion candidates carry all the other congressional districts by a large majority.

Republican Chairman Post claims the Bryan majority in the state will not exceed 5000.

Lincoln, November 5.—Mr. Bryan announces that he will prepare a statement to be issued to the bimetallicists of the country, and will make it public before noon tomorrow, and not this evening, as previously said. Mr. Bryan did not care to say anything about the result of the election tonight.

CALIFORNIA. San Francisco, November 5.—Returns from 251 precincts out of a total of 377 in California give McKinley 144,932; Bryan 138,754. There are 125 precincts yet to hear from which in 1892 gave Harrison 1792; Cleveland, 2098; Weaver 256.

The Third Congressional district 238 out of 267 precincts give Hillborn, Republican, 19,533; English, Democrat, 15,798. In the Fifth Congressional district complete returns from all precincts give Lord, Republican, 14,446; Kelly, Democrat, 10,723; Kinne, Populist, 19,009.

KENTUCKY. Louisville, November 5.—The Evening Times says with nine precincts missing in the state, McKinley has a plurality of 782.

A bulletin has just been received in which it is stated that the latest returns from Kentucky place it in the Republican column.

IOWA. Des Moines, November 5.—The returns by counties in Iowa were completed today. McKinley received 236,751 votes, and Bryan 219,118; plurality for McKinley, 67,633. This is not only the largest vote ever cast in the state, but it is also the largest Republican majority ever given in Iowa.

WASHINGTON. Seattle, November 5.—Returns from the state are yet very incomplete, those coming in today swelling the fusionist majority to about 11,000. King county complete gives the fusion electors a majority of 1100; Lewis, fusion, for congress, 2141, and Rogers, for governor, 1082.

MASSACHUSETTS. Boston, November 5.—Complete returns from Massachusetts give McKinley a plurality of 168,716. The vote was as follows: Bryan, 104,280; McKinley, 272,996; Palmer, 11,865. Wolcott's plurality for governor is 150,756.

NEW JERSEY. Trenton, N. J., November 5.—Complete returns give McKinley and Hobart 55,000 plurality in New Jersey. The legislature will stand: Senate—Republicans, 18; Democrats, 2. House—Republicans, 56; Democrats, 4.

COLORADO. Denver, Col., November 5.—Bryan's majority in the state will be 120,000 to 130,000. Adams, Democrat, is elected governor by 12,000 to 10,000. The legislature is strongly silver, not a single straight Republican being chosen.

KANSAS. Topeka, November 5.—Complete returns from thirty-five counties in Kansas give McKinley 43,755; Bryan 42,755.

WHEAT FOR BRITAIN. The British ship Durbridge, Captain McLachlan, cleared yesterday for Liverpool, with 155,000 bushels of wheat, valued at \$160,000. She will sail today. While coming down the river from Portland the Durbridge ran around on one of the numerous shoals and it was only by the combined efforts of the steamers Hassaia and Hayward that she was towed into deep water. The steamers brought her up in a hurry and she ran out of the channel on the other side, striking again. She was easily floated the second time.

AT LAST HE GIVES IT UP

Even Jones Now Thinks Bryan Is Defeated, and So Advises Him.

HE EXPLAINS THE DISASTER

Says It Was Coercion and Intimidation by the Money Power and Subordination of the Press.

Chicago, November 5.—Chairman Jones, issued the following statement tonight: "The result of the presidential election is apparently no longer in doubt. It has been one of the closest contests that the people have been called upon to determine in years. We have claimed the election on our advice from states that were admittedly in doubt, in which we know there had been many frauds and from which were evidences of tampering with the returns. It seems now to be apparent that Mr. Bryan, after making the most brilliant campaign in the history of our country, and having carried most of the states claimed to be doubtful, has not carried enough to assure his success in the electoral college. The Bryan electors have been chosen from all of the states south of the Potomac and Ohio except West Virginia, and all those west of the Missouri except California and Oregon. He has 195 electoral votes and this number may be increased by final returns from the states yet in question. He has not obtained enough votes to carry the electoral college. Thus this remarkable campaign closes with the election of William McKinley.

"The result was brought about by every kind of coercion and intimidation on the part of the money power, including threats of lockouts and dismissals and impending starvation; by the employment of by far the largest campaign fund ever used in this country and by the subversion of a large portion of the American press.

"The president-elect and his party are under pledge to the American people to continue the gold standard and by his operation to restore prosperity to this country. As chief executive Mr. McKinley will have the cordial support of millions of patriotic Americans who have cast their votes for William Jennings Bryan. They bow to the majesty of the office and able by the result with none of the mutterings that would have come from the money power, had it been unsuccessful.

"They are confident the gold standard cannot give the promised prosperity, but will gladly welcome it if it comes. They will continue the great struggle for the uplifting of humanity and the maintenance of the dignity of our country in the establishment of the American monetary system. And the Democratic party, aided by its present allies, will still uplift the bimetallic standard and bear it to its victory. (Signed) James K. Jones, Chairman Democratic National Committee."

BRYAN WIVES MCKINLEY. Congratulates the Major Upon His Election.

United Press. Lincoln, Neb., November 5.—At 8:35 o'clock Senator Jones telegraphed to Mr. Bryan that he had given up the fight. Mr. Bryan said to the United Associated Press representative: "You may say that the election of McKinley is conceded and that I will issue a statement tonight."

Mr. Bryan then wrote the following telegram: "Hon. Wm. McKinley, Canton, Ohio: Senator Jones has just informed me that the returns indicate your election and I hasten to extend my congratulations. We have submitted the issues to the American people and their will is law. (Signed.) William J. Bryan."

LOCKS OPENED. Portland, November 5.—The locks at the Cascades of the Columbia were formally opened for traffic this afternoon.

BIRTHDAY SURPRISE. Rev. J. J. Walter, of the M. E. church, was reminded last evening that he had reached another milestone on life's journey.

Not feeling very well, he was preparing to retire, when called to the door, and for an hour a stream of members and friends poured into the parsonage, filling all available space, each bringing generous supplies for the larder, until the kitchen looked like a grocery store. Conversation and music made the evening pass most pleasantly, each wishing the pastor many returns of the same anniversary.

CONGRESSIONAL SUMMARY

Washington, November 5.—The table prepared by the Associated Press from telegraphic returns up to midnight shows the election of 201 Republicans to the next house, 124 Democrats, 19 Populists, fusionists and independents, the number which perhaps should be slightly increased as a few of those classified as Democrats have independent leanings.

HANNA'S ESTIMATE. New York, November 5.—Chairman Hanna just issued a statement in which he says McKinley has 265 electoral votes sure and that he feels confident of 13 more in Kentucky, 2 in Wyoming, and 11 in North Carolina, which are in doubt.

DELAWARE. Dover, Del., November 5.—McKinley has a majority in Delaware. The legislature is Democratic.

OHIO. Cincinnati, November 5.—McKinley's majority in Ohio is 52,438.

WHEAT MARKET POOR. Several Features Tended to Bring About a Reduction in Price.

Chicago, November 5.—Everybody appeared to have wheat for sale when trading in it started, December, which was worth 75c as the season was closing yesterday, was urgently pressed for sale at 75c cents, but practically none could be disposed of until it was offered at 75c cents. It was only a minute or two longer until there were no buyers at over 75 cents, and a half hour from the opening it sold at 74c. Stop-loss orders in a great number of instances could not be filled until the loss had largely exceeded the limit set by the brokers' customers. There was considerable disappointment in the case, which came lower in spite of our sharp bulge yesterday and it had a depressing tendency on other news. All outside markets were much higher than this one.

Cash wheat was in excellent demand and for the most part brought within 1/4 or 1/2 cents of yesterday's price, even when December was down 2 cents. Too much had evidently been bought in expectation of an immediate big advance after election, and those who had not seized yesterday's opportunity to take their profits had evidently begun to think it was now time to take what might be left.

Beardom's report on the world's wheat supply, which increased 25,000,000 during October, was another weakening factor, as was also the reports afloat that later election returns showed the success of the free silver candidate. This report, which had been telegraphed into the country, brought a good many selling orders.

At the close December was selling at 74c cents.

Liverpool, November 5.—Hops—at London, 13 5/8.

Liverpool, November 5.—Wheat—spot quiet; demand, poor; No. 2 red spring, 6s 5/8; No. 1 California, 7s 5/8.

Futures opened steady, with April 15d lower and other months 14d lower; November, 6s 7d; December 6s 7 1/2d; January, February, and March, 6s 7 1/2d; April 6s 7d.

Portland, November 5.—Wheat—Walla Walla, 75c 7/8; Valley, 71c 7/8.

EMPLOYEES DISMISSED. Washington, November 5.—The treasury officials decline to make public their reasons for the dismissal yesterday of Judge Fleming, of Kentucky, chief of the law and record division of the supervising architect's office; Thos. F. Brantley, of South Carolina, chief of the army and navy pension division in the office of the auditor of the Interior department; and T. L. Doyle, assistant chief of the warrant division.

All of them took an active part in the campaign, in advocating the election of Bryan, but there is reason for the belief that this fact alone was not responsible for their leaving the service.

OREGON'S MAJORITY. Portland, Nov. 5.—Practically complete returns have been received from all the counties in Oregon except Curry, Crook and Harney. McKinley has 45,241; Bryan, 42,511; McKinley's majority, 2423. In the June election the three missing counties cast a total vote of 2435 and gave a Republican plurality of 218.

DUKE OF ORLEANS MARRIED. (Copyrighted, '96, by Associated Press.) Vienna, November 5.—At 11 o'clock this morning in the Chapel of Hofburg, Louis Philippe Robert, Duke of Orleans, and pretender to the throne of France, was married to Arch-duchess Dorothea.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE
