All communications intended for publication should be directed to the editor. Business communications of all kinds and remittances must be addressed to The Astorian.

The Astorian guarantees to its subscribers the largest circulation of any newspaper published on the Columbia River.

Advertising rates can be had on application to the business manager.

The Weekly Astorian, the second oldest weekly in the state of Oregon, has next to the Portland Oregonian, the largest weekly circulation in the state.

Jno. F. Handley & Co., are our Portland agents, and copies of The Astorian can be had every morning at their stand, 124 Third street.

The "Astorian" hereby offers to donate ONE HUNDRED DOLLARS to St. Mary's Hospital, payable on demand to Father Dielman, whenever legal evidence is produced showing that any afternoon newspaper published in Astoria has printed within the last sixty days expiring before this offer a single "special" or other kind of "telegraphic press report," received over the wire entering either of the telegraph offices in Astoria, from any point outside of Oregon.

Astoria, Or., October 15, 1896.

Clatsop sends greetings and congratulations to Multnomah county.

Eighty-five thousand majority in the little state of New Jersey shows that the "enemy's country" thinks of Bryan.

It should be some solace to Candidate Bryan in his retirement that he has done what every Republican candidate since the war has tried and failed to do—he has broken the Solid South.

If ever there was an ineffable ass who figured prominently in American politics it is old man Jones. His bombastic, ridiculously preposterous and lying pronouncements have been the subject of derision all over the world.

Bryan may think his capture of the rotten borough of Nevada and the mining camps called Idaho a compensation for the loss of the great Southern commonwealths of Kentucky and Maryland, but Democrats like Cleveland and Tilden would not have thought so.

Had the state of Washington at large done its duty as did the counties bordering the Columbia river the future of the Sound country would have been much brighter. Had they stood out for sound money and good government some of the unfinished marble front business blocks of Seattle and Tacoma would have had a show to be completed and many of their empty store rooms would have obtained tenants.

Pacific county has done its duty in stemming the tide of Populism and anarchy which has overwhelmed the one-time proud state of Washington. If the other counties in the west half of the state had done as well in proportion to their population as Pacific, Washington would not be at the mercy of an incompetent and discreditable governor for the next term of that office, nor would the state suffer the loss of prestige and the withdrawal of capital which will certainly be the result of her folly last Tuesday.

The long wall of Chairman Jones, promulgated from Chicago last night is in keeping with the character of misrepresentations for which he has been noted throughout the campaign. The old and ridiculous charge of fraud and coercion is an easy ladder on which to escape from the fire of public indignation that has swept over the county almost from one ocean to the other. No doubt the Popocrats will cordially support McKinley and the government, as the Republicans would have done had Bryan been elected, but that the free silver cause which like a plague of small pox threatened at one time to infect the whole country, or that the declaration of the Chicago platform aimed at the very life of the government will ever come seriously before the people of this country millions of patriotic men cannot believe.

The report of the employment of 300 additional men by the Milwaukee Harvester Works on yesterday, with the rush on the railroad offices for mileage books by the army of commercial travelers who are about to begin their rounds all over the country, shows some of the effects already following the death of Bryanism. Oregon and Astoria will not be far behind the procession if the events which are expected to materialize within the next thirty days. There are well-grounded reasons for believing that between now and January 1st three hundred millions of money will be available for investment and for projected improvements in Astoria and its immediate vicinity. Let the good work go on. It is employment the people want, and with that they will take good care to maintain the parity of their money.

It is certainly a matter of congratulation that Oregon can be so safely counted for McKinley. Under the circumstances, surrounded as the state is and has been for years by the greatest hotbeds and strongholds of Populism and free silver, the Republican majority of nearly three thousand is really a large and unexpected one. In this grand result Astoria and Clatsop county are entitled to much credit. At the opening of the campaign this section was considered by the state central committee one of the most forbidding fields in the whole outlook. We had just passed through one of the most depressing periods in the history of the county. The great strike of the fisher-

men had been used by the malignant enemies of peace and good order as an argument against the Republican party and its platform. It was believed that the element among the fishermen who had always been relied upon to help make the majorities for the Republican ticket was cold and indifferent, if not openly hostile toward the party organization and its national candidates. The Republican nominees for the legislature—two excellent and experienced business men, of admitted probity and capability—had been turned down for candidates on the Populist ticket who were utterly untried by education, training, or natural ability to be of any possible influence or usefulness in the important function of framing and passing legislation for a growing and progressive state like Oregon. Owing to natural and geographical conditions, hardly any county in the state is more difficult and expensive to cover in a political campaign than Clatsop, and with the general unfavorableness of the situation, to say nothing of the well-grounded apprehension of factional division and disaffection in the ranks of the party, the prospect for accomplishing anything material for McKinley and the cause of sound money seemed well nigh hopeless. The county committee, however, immediately upon its organization, took hold of the situation with all the ardor that has characterized former efforts put forth in the most enthusiastic and successful campaigns. It was not long before there were development which attracted the attention and enlisted the earnest cooperation of not only all Republicans but nearly every sound money Democrat in the county. Instead of a cold, half-hearted, inefficient and indifferent campaign, there has never been a more successful, interesting and satisfactory canvass in the history of the county than the one which closed on Tuesday. The result is that Clatsop county, in the face of the adverse circumstances referred to has rolled up a majority for McKinley and sound money which is not only larger proportionately than any county except Multnomah, but actually exceeds one-fourth of the total majority given by all the counties in the state. This is certainly a flattering record for Astoria and Clatsop county, and one which will bear fruit in future investments of money and the immigration of a class of citizens needed to properly develop the future which undoubtedly awaits this section of the state.

good policy to cultivate intimate commercial as well as political relations with this republic. Recent events have impressed upon the South American countries the fact that in certain exigencies they can count upon the United States for support and protection against European assumptions or aggression and knowing this it would not be almost extraordinary if they did not desire closer relations.

Although a very busy man, Dr. R. V. Pierce, of Buffalo, N. Y., has found time in which to write a great book over a thousand pages, entitled, "The People's Common Sense Medical Adviser, in Plain English, or Medicine Simplified." Few books printed in the English language have reached so great a sale as has this popular work, over 680,000 copies having been sold at \$1.50 each. The profits on this enormous sale have repaid its author for the great amount of labor and money expended in its production, he has now decided to give away, absolutely free, 500,000 copies of this valuable book, the recipient only being required to mail the World's Dispensary Medical Association, of Buffalo, N. Y., of which company he is president, twenty-one (21) one-cent stamps, to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. It contains 1008 large pages, and over 300 illustrations, some of them in color. The Free Edition is precisely the same as that sold at \$1.50 except only that the books are bound in strong manilla paper covers instead of cloth. It is not often that our readers have an opportunity to obtain a valuable book on such generous terms, and we predict that few will miss availing themselves of the unusual and liberal offer to which we have called their attention.

A monument to the memory of Daguerre, the inventor of the daguerrotype, the precursor of the photograph, is soon to be unveiled in the little town of Bry-sur-Marne, France. The famous chemist spent the last twelve years of his life there, and the ruins of his house in the Rue de Villiers are pointed out to tourists. He constructed a tower there nearly sixty feet in height, having a room at the summit, in which he performed his experiments. At the ceremony of unveiling the monument, which the czar's visit has postponed, the municipality of Bry-sur-Marne will organize a series of fetes for the day and evening.

From a letter written by Rev. J. Gurdeman, Dismondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Nives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption, and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work, and highly satisfactory in its results." Trial bottles free at Chas. Rogers' Drug Store. Regular size, \$1.00 and \$1.50.

"It is reported," says the Savannah (Ga.) News, "that Postmaster-General Wilson will be offered the Chief Justiceship of the Court of Claims, recently made vacant by the death of Justice Richardson. Mr. Wilson is a lawyer of recognized ability, and would no doubt do honor to himself and the country on the bench of the Court of Claims. It is alleged to be an open secret in Washington that the president has had it in mind for some time to place Mr. Wilson in some important judicial position before the end of his term."

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the lazarid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, Dizziness yield to Electric Bitters. Size and \$1.00 per bottle at Chas. Rogers' Drug Store.
