The Relief will tow the four-master

The steamer Elmore sailed yesterday rom Tillamook and Nehalem. The Yallaroi leaves up the river this

norning. She will load grain. A four-masted ship was reported in the offing yesterday afternoon

The British back Linden, wheat lade s expected down the river today.

The Columbine sailed yesterday norning for Destruction Island and Gray's Harbor.

The British ship Poltalloch arrived lown the river yesterday. She has 140,637 bushels of wheat, valued at \$116,-50, for the United Kingdom.

The Poltalloch, which arrived down

om Portland yesterday dragged her nchors in the swift current last evenog, but no damage was done. The steamship Columbia arrived lown from Portland early yesterday

norning and sailed for San Francisco She carried a large amount of freight. The recent heavy rainfall has caused he river to rise several feet and ves sels may now come down with a rea onable assurance of reaching Astoria

It's a good thing that it rains in the

The five-masted schooner Louis, Cap bourne, Australia, carrying 761,045 feet In This of lumber, valued at \$5,867.84; 116,400 laths, valued at \$232.80; 2200 pickets, valued at \$18.81; total value of cargo \$6,059,45.

The Yarana arrived at Falmouth on the 12th, 153 days from Astoria, with 3,600 tons of wheat. There is now only one vessel of the Oregon grain fleet of 1895-96 to be heard from. This is the Metropolis, which sailed at the close of June.-San Francisco Bulletin.

The San Jose salling up the harbor yesterday morning in the face of the strong east wind was a beautiful sight. Every stitch of canvass was spread and it was necessary to make many tacks across the channel before the pilot boat was brought to anchor off the city.

The American ship G. W. Wolff yeserday finished discharging all but 990 barrels of the cement for the government at the O. R. and N. wharf and will probably leave up the river today. The 900 barrels were so covered with Portland freight that they could not be un loaded and will have to be discharged at Portland.

As a rule American ship captains pend little time instructing apprenices, but when the ship Shenandoah left this port last time Capain Murphy took half a dozen boys as apprentices and had such success with them that he will take six more on his next voyage. which soon begins. Already four young men, August Wilson, son of a New Orleans pilot: Harry Stevenson, a New York car builder's son; Henry Lum, who came here in the Centennial, and Peter Hughes, whose parents live in Galway, Ireland, are aboard the ship and two more will go on her before she leaves. Of the six boys Captain Murphy took out before one is now first officer of the St. Paul, another is master of a lake schooner and all are holding good positions. Today the Shenandoah goes to Pert Costa to load grain and a party of guests of Mr. and Mrs. George W. McNear will go up on her, returning on the towboat.-Chron-

The British ship Grenada that arrived in port vesterday from Departure Hay with a cargo of coal, came too late by twelve hours to save her charter, contracted for when vessels were de maning and receiving 26 shillings and 3 pence per ton for wheat to England. Now she will have to take her chances in securing a load with the big fleet of disengaged vessels now anchored in the bay, and at a price that today was quoted 5 shillings lower than that stip ulated in the contract her delay had broken. The vessel was at Puget Sound when G. W. McNear chartered her to load wheat for Europe on condition that she should be in this port by November 1st. She had nearly a month in which to make the voyage from the Sound, but her agents figured on using her for that time to he advantage of her owners. She was towed to Departure Bay under contract to bring a cargo of coal to San Francisco, expecting that she would have no difficulty in making the voyage in time to save her charter. Instead, there was a long delay in loading her. Then, after she shook out her sails, she met with strong southeast gales that held her back and she did not make the port until her charter had expired. In the meantime many vessels had been making the port seeking cargoes, and in found invaluable-Bonds or Shares of Inthe scramble for loads prices kept going down.-Examiner.

CASTORIA.

In Medieval Days

When people wanted anything they knelt down and prayed for it. However, that was some time ago. Along about 1400 a fellow named Gutenberg, who had "come de Rhine over." was monkeying around a carpenter shop in Lentz. He whittled some little blocks and actually unde an alphabet. Then he stored made an alphabet. Then he rigged a sort of-well, a machine that would look something like our letter press of today. He arranged his blocks in order, put some link on t.em, also a piece of paper, and then screwed his press down. That was called printing. Old Gutenberg made a howling success of the made a howling success of the racket, and his head became so swollen that he really snubbed the swolen that he really shubbed the king one day. The king overlooked it, however, for he had an idea what kind of fellows printers would be. Well, finally they got the print-ing system down fat, and, as the centuries rolled by, began printing newspapers—first person, invariably singular number, any gender and head case.

Enlightened Day

There are many newspapers—as a matter of fact. But it is an utter matter of fact. But it is an utter impossibility to get a newspaper to admit it. The advertising patronage of a newspaper depends largely-ves, wholly-upon its circulation. A newspaper is a great deal like the human body; if its circulation is good, it prospers; otherwise, otherwise. Some papers publish

Want Columns

That is, a column, or a number of columns, devoted to small advertisementa. If a fellow wants anything trouble, a wife, a house—don't make any difference what it is—he can get it by means of a small ad included in the "want" column are "For Sale," "For Rent," "Lost," "Found," "Stolen" and "Miscellaneous." Now, just see what chumps some people are! Why, a man has been known to hunt over a city—this city—for days looking a city—this city—for days looking for a house in which to live. Had he come to The Astorian office and asked for a want ad he could have gotten his house without the least bit of trouble and for about 25 cents.

It Is Needless

To tell of The Astorian's circula tion. The paper has been established for a quarter of a century. Why, old Concomby read the first rumor of the building of a railroad to his braves from it. Circulation is The Astorian's long suit. Consequently, when a follow comes late. quently, when a fellow comes into The Astorian office, looks pleasant, throws down 25 cents on the coun-ter and says he wants a house, he

Why, Just Think!

The Astorian goes into every house in Astoria and a great majority of those in the surrounding sections of Oregon and Washington. Hence, it you insert an ad. in The Astorian, it is equivalent to engaging a man to go around to all those houses and telling the immates that you want something or have something for Why, talk about a snap!

Bit of Advice

When you want anything—no mat-ter what it is—when you have any-thing for sale; when you lose, find or steal anything, come around and tell your trouble to The Astorian. Rring 25 cents with you, and, above all things, look pleasant. Tell the clerk that you want a want ad. in the want column, give him your M cents and go away happy. As Her-man Wise would say, a want ad. will restore the blind, the bald and the bowlegged to manhood.

Lines 25 Cents. Try It.

Absolutely Dry and Pure Tropical Climate

Pronounced by Physicians the most Favorable in America for sufferers from . . .

> Lung Diseases and Rheumatism

Many Remarkable Cures

The objections urged against Indio in the past by the large numbers who otherwise would have been glad to take advantage of its beneficial climate, has been a tack of suitable accommodation. The Southern Pacific Company takes pleasure in announcing that several

Commodious and Comfortable Cottages

have just been erected at Indio station, that will be rented to applicants at reasonable rates. They are furnished with modera conveniences, supplied with pure artesian water and so situated as to give occupants all the advantages to be derived from a more or less protracted residence in this delightful climate.

(From the San Francisco Argonaut.) "In the heart of the great desert of the Colorado—which the Southern Pacific traverses—there is an oasis called Indio, which, in our opinion, is the sanitarium of the earth. We believe, from personal investigation, that for certain individuals, there is no spot on this planet so favorable."

G. T. Stewart, M. D., writes: G. T. Stewart, M. D., writes; "The purity of the air, and the eternal sunshine, fill one with wonder and delight.... Nature has accomplished so much that there remains but little for man to do. As to its possibilities as a health resort—here is the most perfect sunshine, with a temperature always pleasant, a perfectly dry soil, for rain is an unknown factor; pure oxygen, dense atmosphere and pure water. What more can be desired? It is the place, above all others, for lung troubles, and a paradise for rheumatica. Considering the number of sufferers who have been cured, I have no hesitancy in recommending this genial oasis as the haven of the afflicted."

INDIO

Is 612 miles from SAN FRANCISCO and 130 miles from LUS ANGELES
