Portland, December 5.—For Washington and Oregon, threatening weather and rain.

TO READERS.—The "Daily Astorian" contains twice as much reading matter as any other paper published in Astoria. It is the only paper that presents its readers with a daily telegraphic report.  
TO ADVERTISERS.—The "Daily Astorian" has more than twice as many readers as any other paper published in Astoria. It is therefore more than twice as valuable as an advertising medium.

State of Oregon, County of Clatsop, ss: We, the undersigned, local managers respectively of the Western Union and Postal Telegraph companies, hereby certify that the "Daily Astorian" is the only paper published in Astoria which now receives, or at any time during our control of said office has received, a telegraphic press report.

Mr. Charles Kuntz, Tillamook, visited his Astoria friends yesterday. He reported that he had brought 400 sacks of oats to the city, which he sold at good figures to Ford & Stokes, and that Tillamook county is all right. Clatsop gives in patronizing her neighbors.

Several times yesterday rainbows were visible in the northern and western skies, and in the afternoon one or two brilliant displays were made in the East. The weather was very much like April, and was quite a relief from the kind that Observer Grover has recently served up.

Twelve Christmas presents that your friends would appreciate in every dozen carbon photos made by Snodgrass. This gallery is now turning out a grade of work that heretofore has been attainable only in the larger cities, and then at double the price asked here. Call and be convinced.

All members of the Every Monday Club are requested to be present at the next meeting, Monday, December 7, at the home of Mrs. Herman P. Prall, as business of importance (concerning the annual sale of fancy articles to be held on the 11th inst) will come before the meeting. By order of the secretary.

Captain Gregory, of the Manzanita, returned from the light ship yesterday afternoon, bringing with him Charles Olson, one of the keepers who is on a vacation. Joe Harmon, who is sick with the measles, and was immovably taken to the hospital on arrival here, and Mr. Jones, who has resigned his position on the ship.

The annual memorial service of the Elks, according to the beautiful and touching custom of the order, will be held in Odd Fellows' Hall at 8 o'clock this evening. The public is cordially invited to attend these services, and judging from the character of past efforts of the local lodge, there could be no better way to spend a Sabbath evening.

At its regular meeting last Thursday, Astor Assembly, No. 22, United Artists, elected the following officers for the coming year: M. A. R. Cyrus; superintendent, Mrs. H. Ekstrom; inspector, Mrs. A. A. Rucker; secretary, Dr. J. S. Bishop; treasurer, Mrs. C. J. Curtis; ex. con., H. P. Hansen; Mast. of Cer., Jas. F. Donnelly; Med. Exam., Dr. J. S. Bishop.

In Alderbrook yesterday afternoon some of the fishermen found a new way of hauling wood up from the beach. The logs and spars that had floated in from the river were cut into proper lengths for stove wood, and a pair of shafts fastened to them by spikes driven into the logs at each end, by means of which the logs were easily rolled to the houses above. The process was

very much like that of handling a wheelbarrow, and one pair of shafts hauled up many a log.

A telegram was received last evening from Captain Burns that in the effort at high tide yesterday to haul the Glenmorag off the beach, considerable progress was made, but just at the critical moment one of the anchor chains broke, undoing all of the work accomplished. With the true Glasgow spirit the captain turned to and made his arrangements for renewing the work today. One of the highest tides of the season will take place today, and Captain Burns is confident the Glenmorag will float, barring any further accident.

Dr. Kjaerlie, who has lately removed to this city, is a graduate of the famous Copenhagen University. After remaining several years in the hospitals of that city, making female diseases his special study, he visited Berlin and Paris several times and finally came to this country. Since last year the doctor has been located in Salt Lake City, but the high altitude did not agree with his health, and he has decided to make Astoria his future home. He can be consulted at his office, 298 Bond street.

A large audience assembled at Reacue hall last evening. There was spirited chorus singing, led by the Rev. Mr. Hollinger, with Miss Bussey at the piano; a touching song by Miss Winnie Alrich; an excellent reading by Mr. Clyde Bayler; a well executed song by Miss Lulu Foster; and a humorous selection rendered to perfection by Mr. Frank Bewley, who easily moves an audience to laughter or tears at will. The only regret of his hearers is that he appears before the public so seldom. The program committee for next week is Miss Gertrude Stockton, Miss Lone Hawes, and Master Will Simpson.

Mr. Samuel Maxwell, formerly employed at Morgan's Panch and after Bayler's logging camp, and was afterwards coxswain on the schooner Lloyd, which at one time was used as an opposition pilot schooner, has just been heard from by his friends. Mr. Maxwell stayed with the schooner, and went with her on her recent trip to Alaska. Mr. Thomas Linville yesterday received a letter from Maxwell, stating that after the schooner had made her second trip he left her and struck out for the mines. Among the specimens sent back to Mr. Linville was a bottle of free gold taken from the placer diggings which run up to the value of about ten dollars. The dust is coarse and Mr. Maxwell says he has plenty of it, and that in fact he is the possessor of a bonanza. Mr. Maxwell's friends will be glad to hear of his success. He refused \$50,000 for the mine recently, and since he has worked it has taken out \$20,000 in gold.

Mr. A. Brix, the candidate in the Third ward, owns his own home there, has lived in the ward for two years or more, has an independent income and can certainly be considered a resident of Astoria, reports to the contrary notwithstanding. Mr. Brix has been a successful business man, and has the confidence of his friends and neighbors. In the Second ward Thad Trullinger is making a strong race for councilman, and really has no opposition. He is a young man of well known business ability, a staunch Republican, and his reputation for integrity is most enviable. In the council he will look after the interests of this constituents as well as he would those of his own. Ross Clinton, in the First ward, has hundreds of friends, and his long and well known impartial management of the affairs of the telephone company need no comment. Mr. Clinton can certainly be relied upon to work for the best interests of the city and the people of the First ward.

HOW IT WAS DONE.

San Francisco, December 5.—A story is now current in sporting circles that Fitzsimmons has done pretty well with his fight venture, even if he receives no part of the purse. Most of the money wagered on the fight was placed on the question of Sharkey's ability to stay six rounds. It is now said that Fitzsimmons placed several thousand dollars on Sharkey's ability to hold out six rounds and then took care that he did not knock out his opponent too soon.

At 12 o'clock last night the British four-masted bark Blairlogie, 1425 tons, Captain Mackie, was towed in by the Relief.

South and also in Chicago, where I had the pleasure of meeting Mr. Mark Hansen and his able assistant during the campaign. Mr. Davies, who will probably hold the position of private secretary to Major McKinley in the White House, Mrs. Davies, who is a most charming lady, a Virginian and sold gold Democrat, told me that this was the first time that she and her husband had been thoroughly united, though they had three children, and were proud of the fact. This might be considered unpopular amongst the general and elite of some places in the woolly West, but perhaps the social status in the East is not up to the Western standard.

OFFICERS ELECTED.
