The objections urged against Indio to the past by the large numbers who otherwise would have been glad to take advantage of its beneficial climate, has been a lack of suitable accommodation. The Southern Pacific Company take

occupants all the advantages to be de-rived from a more or less protracted residence in this delightful climate.

(From the San Francisco Argonaut.)
"In the heart of the great desert of the Colorado-which the Southern Pacifi traverses-there is an oasis called Indio which, in our opinion, is the sanitarium of the earth. We believe, from personal investigation, that for certain individuals. there is no spot on this planet so favor able."
G. T. Stewart, M. D., writes:

purity of the air, and the eternal sun-shine, fill one with wonder and delight. ... Nature has accomplished so much that there remains but little for man to do. As to its possibilities as a health resort—here is the most perfect sunshine, with a temperature always can be desired? It is the place, above all others, for lung troubles, and a para number of sufferers who have been cured. I have no hesitancy in recommending this genial oasis as the haven of the afflicted."
