THE NEWS OF CUBA

There is no lack of news from and about Cuba which may without rashness be reckoned credible. The patriots are busy. General Gomez has left Cubitas and the eastern two provinces befrind him, and is making his way, cautiously but steadily, across Santa Clara toward the Spanish capital. He In still, it is true, some 250 miles from Havana. But he is also about 100 miles from Cubitas, which fact provokes the inquiry why the Spaniards make no attempt to sieze the latter place. They are supposed to have a garrison at

Puerto Principe, only a day's march distant, and another at the port of Nuevitas. Why do they not send an army up to the hills, selze Cubitas, and proclaim to the world that the rebel THE METHODS OF A GREAT capital is in their hands? Seeing that they have four or five times as many soldiers as the Cubans, it seems not to their martial credit that they should \$2.00 devote more attention to defending nt by mail, per month....... .50 their own capital than to attacking that Served by carrier, per week ,10 of the enemy. Are we to understand that the Spanish troops at Puerto Principe dare not make war only on women as they are now doing? A rare plan it would be, indeed, to create a diversion for the relief of Havana, and to seek to draw Gomez back to the east, by renewing the atrocities of Valmaseda's "Black Brigade."

Havana, indeed, seems sorely in need of relief. The city is over-crowded with refuges from other parts of the island, and with Spanish soldiers. Food is scarce, and growing scarcer, and half the people have little or no money with which to buy it at any price. Smallpox to ravage the city until the rainy seapractically besieged, and suffering act-ual plague and famine. It might better I am not a philanthropist, nor de I The "Astorian" hereby offers to donate affairs a little if Weyler should send against Cubitas? have just been erected at Indio station, that will be rented to applicants at rea-sonable rates. They are furnished with modern conveniences, supplied with pure artesian water and so situated as to give occupants all the advantages to be derived from a more or less protracted residence in this delightful climate.

(From the San Francisco Argonaut.) "In the heart of the great desert of the Colorado-which the Southern Pacific traverses—there is an oasis called Indio, which, in our opinion, is the sanitarium of the earth. We believe, from personal investigation, that for certain individuals, there is no spot on this planet so favor

G. T. Stewart, M. D., writes: purity of the air, and the eternal sun-shine, fill one with wonder and delight The curious fact is reported from the . . . Nature has accomplished so much that there remains but little for pleasant, a perfectly dry soil, for rain is an unknown factor; pure oxygen, dense atmosphere and pure water. What more atmosphere and pure water. can be desired? It is the place, above all others, for lung troubles, and a paradise for rheumatics. Considering the number of sufferers who have been cured. I have no hesitancy in recommending this genial oasts as the haven of the afflicted."

And this is what he wrote.

"The editor of the Post

took a spin over the Bur-

lington road last week, leaving Billings Monday at 11:30 a. m. and arriv ing in Chicago at 8:20 or Wednesday morning That is the kind of time the Burlington makes. It is a lightning express time over a track the best in the world, and with an equipment unsurpassed by any rally ay on the continent. The reclining chairs are superd and the scenery all through Wyoming. Nebraska, Iowa, and Illinois, is beautiful. The Burlington system is perfect. No other word fittingly describes it."-Livingstone Post, Oct. 7
