WEEKLY. Sent by mail, per year \$2.00 in advance. Postage free to subscribers.

All communications intended for publication should be directed to the editor. Business communications of all kinds and remittances must be addressed to The Astorian.

The Astorian guarantees to its subscribers the largest circulation of any newspaper published on the Columbia river.

The Astorian hereby offers to donate ONE HUNDRED DOLLARS to St. Mary's Hospital, payable on demand to Father Diekmann, whenever legal evidence is produced showing that any afternoon newspaper published in Astoria has printed within the last sixty days anything before this offer a single "special" or other kind of "telegraphic press report" received over the wires entering either of the telegraph offices in Astoria, from any point outside of Oregon.

In the agricultural department at Washington there is said to hang a map upon which a scientist connected with the department has marked certain localities in this country favorable to the cultivation of the sugar beet.

The arguments of the papers of Honolulu that the objections to the annexation to the United States of the Sandwich Islands are principally based on the assertions made that the competition of Hawaiian sugar would run our own cane and beet sugars out of the market.

THE STRUGGLE FOR LIBERTY.

The island of Crete, toward which the eyes of the world are now turned with an expectancy not unshared with anxiety, has since its conquest by the Turks in 1669, presented a political aspect not unlike that of the island in which Americans feel so intense an interest.

The total population of the island now numbers about 200,000, about 70,000 of whom are Turks. If Homer may be credited, Crete once had ninety cities, but there are now only three principal towns—Candia, Retimo and Canea.

Notwithstanding the alo which the so-called powers of Europe are making over the action of Greece in succoring the Christians of Crete, who are their own kindred and speak their own language, it is not probable that any of them would, under similar circumstances, act differently.

For years, now, the so-called powers of Europe have been quiescent—not fighting, though potentially able to do so.

THE METHODS OF A GREAT TREATMENT FOR WEAKNESS OF MEN.

Which Cured Him After Everything Else Failed. Painful diseases are bad enough, but when a man is slowly wasting away with nervous weakness, the mental forebodings are ten times worse than the most severe pain.

TO CURE A COLD IN ONE DAY. Take laxative Bismio Quinine Tablets. All druggists refund the money if it fails to cure.

A torpid liver means a bad complexion, bad breath, indigestion and frequent headaches. To avoid such complaints take Dr. Williams' Little Early Risers, the famous little pills.

The annual report of the Sheffield chamber of commerce states that 50 per cent of the razors used in the Australian colonies are supplied by the United States.

There are a great many of the unfortunate ones in this world, greater in number than those who are blessed with good digestion. To some people the greatest misfortune is not to be able to eat everything set before them.

An eastern paper points with pride to its "unapproachable woman's page." This evidently does not refer to the "new" woman; she generally is too approachable.

A San Francisco man has been sent to jail because he shot at his mother-in-law and hit his wife. Next time he will probably be wise enough to shoot at his wife.

From everywhere come words of praise for Chamberlain's Cough Remedy. "Allow me to congratulate you on the merits of your Remedy. It cured me of chronic bronchitis when the doctor could do nothing for me."

William J. Bryan has recently been visiting at Lake Surprise, Texas. This seems to be about the only one that he hasn't experienced during the last few months.

Minutes seem like hours when a life is at stake. Croup gives no time to send for a doctor, delay may mean death. One Minute Cough Cure gives instant relief and insures recovery.

A curious shaped plant growing in Arizona and other desert regions of the great Southwest is called "Our Lord's Candlestick."

Constipation in its worst forms, dyspepsia, sick headache, biliousness, and derangement of the liver are readily cured by DeWitt's Little Early Risers.

Every head of red clover consists of about 20 flower tubes, each of which contains an infinitesimal quantity of honey.

LOST—A dear little child who made home happy by its smiles. And to think, it might have been saved had the parents only kept in the house One Minute Cough Cure.

The kernel of the snake nut, a Brazilian oddity, looks exactly like a coiled serpent.
