should call to their aid the columns of the Weekly Astorian. There are several reasons why the Weekly Astorian's circulation is so large. One is that its columns contain more reading matter than any other paper in Oregon excepting a Portland publication.

The News
of the
World

foreign, interstate and local, is published in its columns. It is absolutely reliable; hence its popularity. The Weekly Astorian contains 56 columns of reading matter every week. Just think! All the news of the world for \$2 a year. If you are not a subscriber to this great paper you should send in your name at once.

Second Oldest
Paper in
the State

As an advertising medium the Weekly Astorian is unsurpassed by any paper in the State outside of Portland. Thirty-three hundred copies are mailed each week to every home in the territory, both in Oregon and Washington, tributary to the City of Astoria.

MARINE NEWS.

The steamer State arrived in yesterday and left up river early in the morning.

The ship on the waterfront were yesterday decorated in honor of Washington's birthday.

The British ship Persian, Captain Carnegie, put to sea yesterday with a cargo of lumber from Knappa for Melbourne.

It is hoped by waterfront men, as well as Captain Jones, that the Dalairnie has been chartered to load lumber at Knappa. If this is the case, she will also have to have ports out in her.

The China steamer Mount Lebanon arrived in port last night and anchored in the stream to wait the health inspector's visit today. Great caution is being observed, as it is feared that she may have smallpox on board.

Why is it that it is always easier to do things the wrong way?

Memory is a little treacherous now and then, and causes one to forget some things worth remembering, unless one has an experience like that which came to Mr. D. E. East, Moffatt's Creek, Va., who says: "I had been suffering for years with a torpid liver and found no relief until I took Simmons Liver Regulator, when I was entirely relieved of my troubles. I never intend being without Simmons Liver Regulator."

It is becoming more and more the habit for rich men to act as their own administrators while in health.

A TWISTER.

A twister in twisting
May twist him a twist,
For in twisting a twist
Three twists make a twist;
But if one of the twists
Untwists from the twist
The twist untwisting
Untwists the twist.
That is, when it's twisted with any other twine than MARSHALL'S.

Most so-called "salmon twines" are colored with acids. The acids rot the fibre and render the material useless. In the office of Elmore, Sanborn & Co. is an ob-all fishermen. It is the whole of the material used in the manufacture of Marshall's twine—from start to finish. Go there and examine the color right through. You will see then why Marshall's is called the best in the world.

Parties desiring the best of job printing at the lowest prices should call at the Astoria job office before going elsewhere.

Push your business—make her go,
Don't sit down and wait for trade.

The Spot Where
Custer Fell.

is within plain view of the Burlington Route's track.
The monument that marks his last resting place is little, if any, more than a mile distant. You get a good view of it in the train whirling eastward over the solidist, the smoothest, the best track ever built west of Chicago.

A pretty booklet, giving a brief account of the battle in which Custer lost his life will be mailed to anyone who will ask for it. Write for a copy. Write also for information about rates and trains via the Burlington Route to Omaha, Kansas City, St. Louis, Chicago and all the other southern and southeastern cities.
