The early risers were rewarded with a beautiful sight yesterday morning. During the latter part of the night, snow fell to the depth of an inch or two, and when daylight came the streets, roofs of houses, trees, and mountains were all covered with white. Seldom does Astoria see such a spectacle, and never does the snow last long. Yesterday's storm extended as far east as Kalama, and the river banks were covered with a heavy fall of snow.

Upon inquiry at the railroad headquarters yesterday it was learned that in spite of the hard weather good progress is being made by Clinton Bros. on the trestle work along the first ten miles of road above Tongue Point. A large number of men are at work on the depot grounds, and as soon as the city, in conformity with the action taken at the council meeting last night, makes the necessary street connections with the depot, trains will be run in and out of the new station and business will be handled in railroad-like manner.

There was quite a little commotion yesterday in the office of the School Clerk Ferguson. A large delegation was down from John Day's to take up the matter of the removal of the school house in that district. The question was finally settled by the adoption of the following understanding, or agreement: "It is ordered by the board that the school building on the John Day's be removed from its present site to a place on or near Robert Louden's place. It is provided that the moving of said school building shall be done at the expense of the residents of the district near John Day's. A suitable site is to be located to the school district, which shall be cleared and prove satisfactory to the board. It was also provided that the school, which is now in session, be continued to the end of the five-months' term, namely, May 21, 1897. After the 21st of May said building shall be moved to the site on Mr. Louden's place, and it is further understood that a term of two months' school shall be held thereafter in said school house."

Don't talk about a third party over the telephone, as the said individual may be some where on the line where every word is quite audible to him or her, and a nice little three-cornered fuss is the result.

At the meeting of the Rescue Club last night there was a large attendance of visitors, who were much interested in the exercises, which were given in memory of Neal Dow, the great temperance worker in Maine. The Rev. I. J. Trumbull opened the entertainment with devotional exercises, following which was a song by twelve little girls in white, under the direction of Mrs. Grakke. Mrs. Narcissa White Kinney, in a ten-minute talk, ably described Neal Dow's forty-five years' work in the temperance cause, and Mrs. Dellinger well rendered several songs. Miss Edith Conn presided at the piano during the evening. One of the features of the entertainment was the contribution made for the expenses of the club. Prof. Wright, Mrs. Kinney, Miss Lou Estes, Mrs. L. C. Kinney, Miss Paulsen, Mr. C. A. Hanson, Miss Lita Drain all added to the pleasure of the evening by song or address. The exercises closed after the reading of a poem by Mrs. Stuart, with the state song by the members of the W. C. T. U.

The W. R. C. T. given by Mrs. Cyrus and Mrs. Busey at the latter's residence Friday afternoon was a social success. About thirty ladies were in attendance, and three dollars and thirty-five cents was added to the Memorial day fund. The ladies of the corps are much encouraged by the large attendance Friday, and hope that it will be repeated at their next high tea.

The A. F. C. have the exclusive privilege of the information obtained by Messrs. Tom Trullinger and William Madison at the Carson fight. Monday evening these gentlemen will lecture at the club rooms, and tell all about the big battle. Auditors will have the privilege of asking questions in regard to any and all features of the event, at a nominal cost of \$1 per question. Information comes high, but when you can get it straight, it is worth its price.

A man may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tubs," but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the whites of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, safest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

OFF DUTY. It is essential to the well being of the physical economy that the kidneys and bladder should be eternally active, that they should never go "off duty." If they do, the kidneys fail to secrete from the blood the watery element and the impurities that should be thrown off by the bladder, and both organs suffer in organic health from their inaction, and incur dangerous maladies. Among these are Bright's disease of the kidneys, diabetes, retention of the urine, gravel, dropsy, &c. These are no trifles, but obdurate diseases, developing rapidly and terminating too often fatally. To prevent or check them, safest and most effectual means is Hostetter's Stomach Bitters, which gives a healthful impetus to, but never excites the renal organs, like the fiery, unmedicated stimulants of commerce. Malaria, dyspepsia, constipation, liver trouble, nervousness and debility are remedied by the genial medicine, useful in convalescence and old age. A wineglassful three times a day.
