The "Astorian" hereby offers to donate ONE HUNDRED DOLLARS to St. Mary's Hospital, payable on demand to Father Dielman, whenever legal evidence is produced showing that any afternoon newspaper published in Astoria has printed within the last ninety days expiring before this offer a single "special" or other kind of "telegraphic press report," received over the wires entering either of the telegraph offices in Astoria, from any point outside of Oregon.

Astoria, Or., October 15, 1896.

And Portland, too, has caught the Koonse fever.

Carter H. Harrison says he will be mayor all by himself.

Democrats who are criticising the Dingley bill have not a word to say in defence of their own tariff law.

The big drop in wheat in the New York market came like a surprise party to many, but it was to have been expected.

If the farmers of Clatsop county are indisposed to take advantage of the exceptional opportunity to advertise their section presented in the governments sugar beet experiments, the Astoria chamber of commerce should take the matter up before it is too late.

McKinley prosperity is making itself apparent in many industries, but in none more prominently than in that of railroad construction. The Railway Age, a conservative journal, estimates that the railway construction of the United States in 1897 will be 17,500 miles, which, by the way, is more than twice as much as was accomplished during President Cleveland's entire term. If this estimate is realized, the railway construction of the United States in 1897 will exceed that of any period in the past decade.

The democrats, particularly of the free-silver, populistic stripe, are just now seeing great significance in the election of a demagogue as mayor in Chicago, on a free-silver platform. How little importance, from a partisan point of view, can be attached to the outcome of municipal elections in Eastern cities in these days can be understood from the fact that while gold-standard, republican Chicago elected a democratic ticket, free-silver, republican St. Louis on the same day elected a city government solidly republican in all its branches.

It was reported yesterday that fishermen from the upper river have made their appearance in Astoria and are using their best endeavors, as many of them did last year, to persuade the Astoria fishermen to go on a strike. The upper river and smaller streams are high and full of driftwood, making fishing there almost impossible. Last year the Astoria and Chinook men were the only ones on the river who struck, and while they were idle the up-river men reaped a rich harvest. There is reason to believe that the Astoria men are too smart this year to have the wool pulled over their eyes in this manner.

The silverites have been compelled to abandon another position. They denied the published assertion that Japan had abandoned the silver and gone to the gold standard, saying that the report was based upon the mere fact that a measure of this kind had been introduced in the Japanese parliament. The latest advices show, however, that the proposition establishing the gold standard has passed both branches of the parliament and has probably by this time received the signature of the emperor. Nothing which has occurred since the 6th of November has been so serious a blow to the 16 to 1 theorists as this action of Japan.

One remarkable feature of the tariff debate in congress was the utter absence of any attempt on the part of the democrats to defend their tariff law. They tried to befog the general situation by all sorts of false attacks upon the Dingley bill, but not a man among them raised his voice in defence of the law which they themselves put upon the statute books. Many of those in the present house were members of the congress which framed and enacted the Wilson law, and a number of them were members of the ways and mean committee at that time, but not one of them attempted any detailed defense of that measure.

The farmers of the United States are likely to have an increased market for their productions at any early date. The reciprocity features of the Dingley bill are expected to open a good many markets which are now closed to our agricultural products. In addition to this, it is expected to give to the United States such special advantages over other countries in certain markets as to give our farmers practically a monopoly of the trade in those part of the world. The average exportation of farm products during the past five years has been 621 millions per annum, of which amount 343 million, or nearly 57 per cent., has gone to Great Britain, all other parts of the world taking but 43 per cent. of our exports. This shows the possibilities open to the farmers in the matter of making for themselves as good a market in other parts of the world as they already have in Great Britain.

Even that sturdy free-silver democratic paper recently edited by William J. Bryan, the Omaha World-Herald, rejoices at the prospective improvement of the agricultural industries of its state under McKinley protection. Quoting in commendatory terms the recent utterances of the republican secretary of agriculture, it says: "Nebraska has taken her feed yards since October last more than five hundred thousand sheep to be finished for the mutton markets of the world. . . The state of Nebraska can safely be set down as the best district of the country in the United States for the mutton sheep industry in all its combined requirements. Nebraska is certain to become a popular, prosperous mutton-growing and mutton-feeding state." All this, be it remembered, the World-Herald promises under the new plans of the new republican administration, which is giving its earliest attenton to a protective tariff as the chief aid to the sheep industry of the country.

FOOD ILL DIGESTED.

Imperfectly nourishes the system, since it is only partially assimilated by the blood. Pale, hagard mortals, with dyspeptic stomachs, impoverished circulation and weak nerves, experience a marked and rapid improvement in their physical condition by availing themselves of that sure resource of the sick and debilitated, Hostetter's Stomach Bitters. This genial tonic and alterative lends an impetus to the processes of digestion which insures an adequate development of the materials of blood, fiber and muscular tissue. Moreover, it soothes and strengthens overwrought or weak nerves, counteracts a tendency to hypochondria or despondency, to which dyspeptic and bilious persons are peculiarly liable, and is an agreeable and wholesome appetizer and promoter of repose. The infirmities of age, and of delicate female constitutions, are greatly relieved by it; and it is a reliable preventive of, and remedy for, malarial fevers.

THE METHODS OF A GREAT TREATMENT FOR WEAKNESS OF MEN.

Which Cured Him After Everything Else Failed.

Painful diseases are bad enough, but when a man is slowly wasting away with nervous weakness, the mental forebodings are ten times worse than the most severe pain. There is no let up to the mental suffering day or night. Sleep is almost impossible, and under such a strain men are scarcely responsible for what they do. For years the writer rolled and tossed on the troubled sea of sexual weakness until it was a question whether he had not better take a dose of poison and thus end all his troubles. But providential inspiration came to his aid in the shape of a combination of medicines that not only completely restored the general health, but enlarged his weak, emaciated parts to natural size and vigor, and he now declares that any man who will take the trouble to send his name and address may have the method of this wonderful treatment free. Now when I say free I mean absolutely without cost, because I want every weakened man to get the benefit of my experience.

I am not a philanthroplst, nor do I pose as an enthusiast, but there are thousands of men suffering the mental tortures of weakened manhood who would be cured at once could they but get such a remedy as the one that cured me. Do not try to study out how I can afford to pay the few postage stamps necessary to mail the information, but send for it, and learn that there are a few things on earth that although they cost nothing to get they are worth a fortune to some men and mean a lifetime of happiness to most of us. Write to Thomas Slater, Box 388, Kalamazoo, Mich., and the information will be mailed in a plain, sealed envelope.

BEFORE AND AFTER

MANHOOD RESTORED "CUPIDENE"

This great Vegetable Vitalizer, the prescription of a famous French physician, will quickly cure you of all nervous or diseases of the generative organs, such as Lost Manhood, Insomnia, Pains in the Back, Seminal Emissions, Nervous Debility, Pimples, Unfitness to Marry, Exhausting Drains, Varicocele and Constipation. It stops all losses by day or night. Prevents quickness of discharge, which if not checked leads to Spermatorrhœa and all the horrors of Impotency. CUPIDENE cleanses the liver, the kidneys and the urinary organs of all impurities.

CUPIDENE strengthens and restores small weak organs.

The reason sufferers are not cured by Doctors is because ninety per cent are troubled with Prostatitis. CUPIDENE is the only known remedy to cure without an operation. 5000 testimonials. A written guarantee given and money returned if six boxes does not effect a permanent cure. $1.00 a box, six for $5.00, by mail. Send for FREE circular and testimonials.

INDIO

Absolutely Dry and Pure Tropical Climate

Pronounced by Physicians the most Favorable in America for sufferers from . . .

Lung Diseases and Rheumatism

Many Remarkable Cures

The objections urged against Indio in the past by the large numbers who otherwise would have been glad to take advantage of its beneficial climate, has been a lack of suitable accommodation. The Southern Pacific Company takes pleasure in announcing that several

Commodious and Comfortable Cottages

have just been erected at Indio station, that will be rented to applicants at reasonable rates. They are furnished with modern conveniences, supplied with pure artesian water and so situated as to give occupants all the advantages to be derived from a more or less protracted residence in this delightful climate.

(From the San Francisco Argonaut.)

"In the heart of the great desert of the Colorado—which the Southern Pacific traverses—there is an oasis called Indio, which, in our opinion, is the sanitarium of the earth. We believe, from personal investigation, that for certain individuals, there is no spot on this planet so favorable."

G. T. Stewart, M. D., writes: "The purity of the air, and the eternal sunshine, fill one with wonder and delight. . . . Nature has accomplished so much that there remains but little for man to do. As to its possibilities as a health resort—here is the most perfect sunshine, with a temperature always pleasant, a perfectly dry soil, for rain is an unknown factor; pure oxygen, dense atmosphere and pure water. What more can be desired? It is the place, above all others, for lung troubles, and a paradise for rheumatics. Considering the number of sufferers who have been cured, I have no hesitancy in recommending this genial oasis as the haven of the afflicted."
