The May festival at the M. E. church on Thursday evening was a complete success in every way, and in spite of a stormy night a large and appreciative audience assembled to enjoy the excellent program presented. Each number received hearty applause, but nothing on the program was more thoroughly appreciated than the congress of towers of the May queen exercises. Some forty little girls, under the efficient management of Mrs. A. M. Wheeler and Miss Nellie Busby fairly carried the flower songs and marches. "Jule Elmore" sang to the presiding genius, while Missie Lighter, as queen of May, was an ideal sovereign. Each girl, from the use of five summers to the oldest one on the program, carried her part without a hitch or break.

Disagreement as to the site cannot be overcome except by action on the part of those not immediately interested. Actual measurement of distances and gradients by the two courses proposed, and intelligent estimates of cost of constructing a good serviceable road by each, and the subsidies to be subscribed for each, should be known and presented. The kind of a bridge required, the width of draw, and requirements for preservation of Young's bay harbor, should be definitely determined. Without all these no intelligent action can be taken.

The intelligence or competency or impartiality of the county court is not to be questioned. The judge and both commissioners are well known as favoring improvements which the taxpayers demand and are willing to pay for. H. S. LYMAN.
