The Anniversary to Be Celebrated-A Riot Not Feared.

New York, May 19 .- A special to the Herald from Caracas, Venezuela, says The citizens of Caracas have decided o mark the anniversary of the overthrow of Guzman Blanco, May 20, by a demonstration. There is to be a parade, the various election societies having promised to take part in it, notably those comprising the adherents of Rojas Paula, who is now apparently the

popular Idol. The full program of the demonstration has been issued and a large force of additional policemen has been appointed to serve on the day of the parade. The men in charge of the affair have also sent a message to the governor to exercise his authority in preerving order. The reason for this exraordinary precaution lies in the fact that the promoters of the demonstration fear a riot when the day arrives. The government organs have violently ienounced the whole affair, thus arousing the anger in the minds of the prople. It is predicted that there will be erious trouble,
