AROUND TOWN.

Mrs. Chin Yuen, the wife of a Commercial street Chinese tailor, was arrested by Constable Wickman, Friday night, for assault on the 11-year-old Chinese girl named Oya Yuen. The latter has been spirited away. Neighbors heard the child's cries and caused the arrest of the woman. She appeared before Justice Abercrombie this morning and gave bonds for her appearance May 31, until which time the case has been postponed.

A good story is going the rounds on Donald Ross, the postal messenger. Don is ambitious, and when the line was working badly, Friday afternoon, he started for the scene of the trouble. He experienced no difficulty in climbing the pole, but his heart failed him when it came time to climb down. He remained on his perch for several hours, until Operator Dr. Keith came to his assistance. The latter climbed the pole, took Donald on his back, and reached terra firma in safety.

An enthusiastic meeting of those interested in association football was held at the parlors of the Astoria Football Club last evening, the attendance being quite large. The following officers were elected: P. F. Kendall, manager; A. Bartholomew, captain; C. T. Crosby, vice captain. A delegation will be sent to Washington state next week to represent Astoria at a meeting of the league. Matches will be arranged for the coming season. The local team will do its best to bring the handsome cup presented by Mr. George Bartley back to the city.

In the item published yesterday concerning the salmon of the Columbia River Fishermen's Protective Union, which Spencer, Clarke & Co., of Portland, have been pretending to offer for sale, it was stated that the article in the American Grocer was published on May 11. This was a typographical error, as the context plainly showed. The letter from the firm soliciting the right to sell the salmon was received by the cannery on May 8, and answered May 10. The date of the publication in the American Grocer was May 1, seven days before Spencer, Clarke & Co. opened their correspondence with the cannery.

Following is an extract from the records of the board of trustees of the town of Astoria, January 7, 1888: "On motion it was ordered that the money collected from John McEwan, a citizen 92 years of age, as a fine for shooting a goose on the wing at long range, in violation of town ordinance No. 36, be refunded, and an order was drawn for the amount (\$15). The board at that time consisted of the president, John Hadollet, who also kept the record; Messrs. Kippen, Van Dusen and Nickerson. Just why it was made a misdemeanor to shoot a goose on the wing "at long range" is not clear. Perhaps one of the city dads had a reputation for shooting and did not wish to lose it. At all events, it was kind of the trustees to refund the fine to a man 92 years of age. Were he younger, the city would probably be 15 better off. No provision was made for the relief of the goose.

A strange accident occurred to the steamer Iwaco while she was lying at her regular berth, early yesterday morning. Friday night, after the steamer's arrival from Iwaco, the large water tank, in which fresh water for steam purposes is carried, was emptied and cleaned. Yesterday morning one of the deck hands attached a length of hose to the water main for the purpose of refilling the tank. He failed, however, to replace the plug in the bottom of the tank, and the result was that the steamer was flooded. It was not noticed till the water had reached the deck, when the pumps were hurriedly set at work. The Iwaco is shallow-bottomed, and filled in a short time. Captain Parker states that there is no truth in the report that the steamer's hull is unsound, but that, quite to the contrary, she is in good condition. He says the story that the steamer sprung a leak is untrue.

NEW TRANSATLANTIC LINE.

The Effect of English and Canadian Subsidies.

Ottawa, May 22.—Sir Richard Cartwright announces that the contract entered into by the Dominion government with Parson, Tait & Co., of Newcastle, for a fast Atlantic line of steamships to run between Canada and Great Britain has been approved by the imperial authorities. The vessels are to be of the very finest pattern and must make an average speed of 20 knots. For this service the Dominion government is to pay an annual subsidy of \$500,000 and the imperial government \$250,000. It is expected that the service will be begun in 1893.

MARINE NEWS.

Table with columns: DATE, HIGH WATER, LOW WATER. Rows for Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday, Monday.

THE STAGE OF WATER.

Table with columns: STATION, HEIGHT OF WATER, CHANGE SINCE LAST REPORT, STATE OF WEATHER, TEMPERATURE. Rows for Portland, Or., The Dalles, Or., Umatilla, Or., Northport, Wash., Wenatchee, Wash., Lewiston, Idaho, Water, Idaho.

Much cooler weather prevailed yesterday morning over the Pacific Northwest. The temperature fell from 16 to 14 degrees over the Columbia basin, except over Southern Idaho. Another period of warm weather set in Saturday and will continue to Tuesday.

The rivers had all a less rise yesterday morning, except at Northport, where the effects of the warm weather of Wednesday were shown. The less rise is due to the cool weather of Tuesday last. The current cool period occurred 24 hours before it was expected; hence, the rise in the rivers will not be by Wednesday next as much as was expected.

The rivers west of Umatilla will rise slightly until Sunday, when the rise will be more rapid. The rivers above Umatilla will rise more rapidly to Sunday, when it will be less, though continuing to rise. The current cool period will have a maternal effect in checking the water. The approximate height for the next few days at Portland are: Today, 22.2; Monday, 24; Tuesday, 24.3; Wednesday, 25 feet.

The Columbine has left for her long Alaska voyage.

The steamer Alliance arrived in yesterday from San Francisco in ballast.

Mrs. Laura Ferrell's will was yesterday admitted to probate, and R. E. Jackson was appointed executor.

The Columbine sailed last evening for Alaska. She will stop at Tillamook rock, Destruction Island and Cape Flattery. She will place buoys in the north.

The new twin-screw steamer Kaiser Wilhelm der Grosse, sister ship of the Friedrich der Grosse, of the North German Lloyd line, was launched at Stettin, Germany, on May 4, in the presence of Emperor William. The Kaiser Wilhelm der Grosse is the largest steamer afloat. She is of 28,000 horse power, will carry 20,000 tons of cargo and 1500 passengers, is 648 feet long, and has four funnels. She has two engines, with quadruple cylinders, occupying separate compartments and working independently of each other. She will sail for New York on September 14th.

The British ship Pass of Balmaha, left Puget Sound February 4th last year grain-laden for U. K., and arrived at Plymouth, August 20, being 197 days on the passage and securing the long-passage record of the Puget Sound grain fleet of 1895-96. She left Liverpool November 7th for Victoria, B. C., with a cargo of naval supplies, is now out 189 days and will no doubt break another long passage record. From advices received it is learned that when a few days out from Liverpool the captain commenced to drink heavily and kept it up for several weeks. The mate had to assume charge, but in rounding William Islets the ship missed stays and the captain ordered the anchor to be let go. The ship drifted on the lower side, where she remained. No effort was made to save her. Her crew left her and the captain refused to go on board again. Some of the crew did not, getting at the liquor on board, all were soon gloriously intoxicated, and the cargo was breached for liquor to drink. An officer from H. M. S. Retribution was sent on board and the ship was hauled off, and in the latter part of January was towed into Port Stanley, F. I., by H. M. S. Basilisk. A court of inquiry found the captain guilty of wilful neglect of his duty as master through continued excessive use of stimulants. The first and second mates were also censured for acting in a half-hearted manner, and displaying a lamentable lack of firmness and courage. Captain Toovar's certificate was ordered to be suspended for six months and the mates for three months. Who is now in command of the Pass of Balmaha is not yet known here.

WOMEN'S RIGHTS ARE DENIED

Cambridge Refuses to Admit Women to Degree of B. A.

EXCITEMENT DURING VOTE

Telegraph Wires Blocked With Messages to Carry the News of the Decision Abroad.

New York, May 22.—A special to the Journal from London says:

The equal rights cause has received a temporary setback at Cambridge, when the senate of the university refused to admit the rights of women to the degree of B. A. Members of the Equal Rights Association may congratulate themselves, however, upon the fact that their adversaries were compelled to exert all their strength to achieve a decisive majority.

Never in the modern history of the University of Cambridge has such a scene been witnessed. Polling was going on slowly and the thousands of undergraduates who had assembled on King's parade amused themselves by pelting one another with fireworks, confetti, squibs, bombs, bags of flour and blue eggs. After the evening the cheering was almost deafening. Although rough play abounded everywhere, everyone preserved good temper. Some of the fireworks found their way in Senate House, which, with its pinnacles was filled with smoke. The belated voters were cheered or groaned at according to the side upon which they voted.

After the vice chancellor had declared the poll from the south entrance—non-placets, 113; placets, 662—the enthusiasm was indescribable. Upon its becoming known that the proposals had been lost, a rush to the telegraph office followed and the wires were quickly blocked.

A procession of nearly a thousand undergraduates proceeded to promenade the town, carrying one of the boards announcing the result of the polling.

The first resolution having been beaten, the remaining four were withdrawn. The question of conferring title of recognized degree on women had been the subject of controversy at Cambridge for the past twelve months or more, and local feeling had been running high this term, resident members of the Senate being divided into two camps with the majority against the concessions.

THE DEMONSTRATION SUCCEEDS.

But the Government of Argentina Did not Participate in It.

New York, May 22.—A Herald special from Caracas says:

The popular demonstration in commemoration of the downfall of Guzman Blanco was a marked success, thousands taking part in the parade.

A significant feature of the demonstration was the enthusiasm shown at every mention of the name of Rojas Pasquel. His popularity is certainly greater than it ever was here.

The government, contrary to general expectations, barred the entrance of the procession into the Bolivar plaza by infantry with fixed bayonets. President Crespo for a time during the progress of the parade stayed in the executive mansion, but later rode through the crowded streets accompanied by a strong body-guard.

The military were held under arms and a strong display of troops was made. This served greatly to irritate the people, but they committed no overt acts. Many timid people, fearing trouble, sought refuge in the police headquarters.

SILVER AT LOW EBB.

Where Would We Be if Bryan Had Been Elected?

New York, May 22.—The Journal this morning says:

Silver bullion has just sold at 60 cents per ounce, the lowest point it has ever touched, except for a short period in 1894, when it sold at 58 cents per ounce. The steady decline in silver's attracting considerable attention abroad. Paris has been fairly flooded with South American dollars, which have been sold on this side as low as two francs twenty-two centimes for the dollar. The price of silver in the Indian bazaars has fallen to 76 rupees, the lowest price on record. The exchange between London and Shanghai has also fallen to almost the lowest, and even at the low rate China does not absorb a large quantity of silver.

Dating from the declaration by Japan of its intention to abandon the use of silver as its standard coinage and go upon a gold basis, the price of the white metal has been steadily declining.

WEAKNESS OF MEN

Quickly, Thoroughly, Forever Cured.

By a new scientific method that cannot fail unless the case is beyond human aid. You feel improved the first day, feel a benefit every day, soon know yourself a king among men. In body, mind and character. Drains and losses ended. Every obstacle to happy married life removed. Nervous force, will, energy, when falling or lost, are restored by this treatment. All weak portions of the body enlarged and strengthened. Write for our book, with explanations and testimonials, sent sealed, free. Over 2,000 references.
