GENERAL WEYLER TO BE RECALLED

Spain's Cabinet to Be Reformed in Direction of Reforms in Cuba.

CAMPOS MAY SUCCEED HIM

Queen Advised to Trust a Party That Offers Definite Solution for Cuba and Will Secure Good Relations With U. S.

New York, June 5.—A special to the Journal from Madrid says: The recall of Captain General Weyler from Cuba is almost certain, as the Ministry have decided to take this stand if Senor Sagasta assumes office. Senor Pidal, president of the cortes, today advised the queen recent to reform the conservative cabinet in the direction of honestly placing reforms in Cuba, relieving Weyler and sending Campos to the island. Campos has advised the queen not to form an intermediate cabinet, but to trust the government to the party which offers the best and most definite solution for Cuba and is most calculated to secure good relations with the United States, while being consistent with national dignity. In addition, according to Correspondencia de Espana, he advised the queen to recall Weyler.

HOT WORK ON THE TARIFF BILL

Bacon and Vest Cross Arms on the Wood Schedules.

GERMANY OBJECTS TO SUGAR

Says Discriminations Against Bountied Sugars Will Heavily Damage Exports of Austro-Hungary.

Washington, June 5.—When the senate laid aside the tariff bill tonight it had reached the sugar schedule, which has been the subject of so much interest and conflict. During the day, many paragraphs of the wood schedule had been agreed to, but that restoring lumber to the dutiable list at \$2 per 100 provided the greatest stumbling block encountered since the debate began. It led to an extended debate, during which a wide divergence of views was developed on the democratic side of the chamber. Bacon gave his support to the committee's view, saying it was essential to the lumber industry of the South. He also spoke in favor of the revenue tariff so adjusted as to give equal benefits to all industries. Bacon and Vest clashed several times on tariff doctrines. Vest expressing the regret that the democratic senator would aid in restoring to the dutiable list one of the three products—lumber, salt and wool—which the Wilson bill put on the free list. Clay also spoke at length on the tariff bill, criticizing the sugar schedule and other features of the bill.

PEACE WILL BE SOON CONCLUDED

Powers' Proposition Will Be Accepted by Turkey's Sultan.

A STORM OF DENUNCIATION

Against the Action of Parliamentary Commission on the Transvaal Raid—A Thorough Probing Demanded.

London, June 5.—Conflicting news is published about the progress of peace negotiations at Constantinople. On one side the sultan is said to have adopted a most unyielding attitude, and on the other hand he is declared to be showing a conciliatory disposition, and it is claimed that a settlement of the questions in dispute is only a matter of a few days. The Associated Press, however, learns that the ambassadors at Constantinople are hopeful that the negotiations will be concluded in about a week on the basis of Turkey's acceptance of the peace negotiations proposed by the powers. There is now little doubt that the sultan has decided to agree to the evacuation of Thessaly and the Turkish public is being prepared for this step. Numbers of Greek Thessalians are hiding in the mountains, being afraid to return to their homes, fearing massacre and preferring death by starvation, exposure and disease. The impeachment of the leading spirits of the Ethnikai Hetaria, or national league of Greece, is mooted at Athens, where it is said that Mayor Zelas intends to resign the leadership of that society. His excuse for the society's conduct is that it was understood that Great Britain would assist Greece in her struggle against Turkey. The parliamentary commission which has been inquiring into the Transvaal raid is assailed by a storm of indignation, owing to its decision not to press the production of the missing cable message between Dr. Luthford Harris and Cecil Rhodes and certain parties in England. Newspapers of all shades of opinion view this decision with the greatest distrust, and insist that the reputation of Great Britain is involved in a thorough probing of the matter.

In some provinces the government has been obliged to distribute wheat.
