after hard work with the steamer (accident for over a week, it was found impossible to remove the obstruction. Finally, the services of a diver were procured and the log was sawed off below the water.

The Potter did not arrive until 9 o'clock last night, but it is hoped that soon the new freight boat will so relieve the pressure of business on the river that the mails and express matter may be received in Astoria before 6 o'clock in the evening.

Contractor Goerig is finishing the work at the Scow Bay depot, and the trackage to the end of the Goerig trestle. There will be four tracks through the depot yard. In a few days cars can be switched into the brewery for loading.

A new river service has been inaugurated between Astoria and Rainier, Oregon, including all intermediate landings. The fine steamer "Pillar," Captain A. L. Braess, will make round trips daily, except Sunday, leaving Rainier at 4:20 a. m., reaching Astoria at 10:30, landing at the Fourteenth street wharf, and departing on her return at 1:30. Prompt time and the best service is guaranteed for both passengers and freight.

Two nights ago a fisherman who fain would imitate Rip Van Winkle, went on board his boat at Kinney's cannery at 9 o'clock in the evening, for a nap. He did not awaken until 6 o'clock the next evening. He did not know whether the earth had taken another turn or not, but soon realized that he had lost a day's fishing.

Northern Pacific railroad trains leave Portland daily at 11 o'clock a. m. for Tacoma, Spokane, and the East. Close connection made at Spokane for Roseland, Nelson, Sandow and British Columbia mining camps. For maps and information call on or address C. W. STONE, Astoria, Or.

Early yesterday morning, a fisherman by the name of Charles Olson, while on his boat at the foot of Tenth street, but instead of landing in the boat, plunged into the river. Charles McDaniel and Chas. Wise happened to be near at the time and went to the rescue of the unfortunate man. They succeeded in pulling him out of the water, and placed him on board of his boat, where he had an opportunity of taking a rest.

Captain Eben Parker had quite an exciting experience, the other day, while driving in from his Walluski ranch. A rowboat started down the river just ahead of him, having fifteen or twenty minutes advantage, but the captain determined to beat the boat into Williamsport. He started his horse at a good pace, and notwithstanding the fact that the boat had a straight shoot down the river, the wagon on road making many turns and detours, he arrived at Williamsport a long time in advance of the boat.

Every day new evidence is produced showing that, if never before, Oregon will have good fine crops and good times in 1907. Already one transcontinental railroad has this season hauled East from Oregon more than eight hundred carloads of live stock, including sheep, horses, hogs and cattle. Wool is not moving yet to any extent, although the crop is the largest in the history of the state. The laniks, however, have been able to carry the producers over, and most of them are waiting for their own price, though market prices today are better than they were last year.

PROPOSALS—PILE TREESTLE WORK. Sealed proposals will be received by the undersigned at its office in Astoria until noon July 2, 1907, for the furnishing of material and construction of the pile trestles on the line of the Astoria & Columbia River Railroad between Goble and Knappa.

Plans and specifications may be seen at its Astoria office. Bonds will be required of the successful bidder. The right to reject any and all bids is reserved.
