

ATHLETIC NEWS

THE CYCLE TRACK TO TONGUE POINT

A Worthy Enterprise Which Will Benefit All Classes in Astoria.

The bicycle people have formed a permanent organization, its objects being to build and keep in order the roads, and have commenced building a track six feet wide from Tongue Point around Smith's Point. The committee have labored hard to raise the necessary funds and are meeting with success. The Football Club at its next meeting will vote \$25 to the fund, and it is to be hoped that the Irving Club will duplicate the A. F. C.'s liberal donation. The path when built will be a great benefit to the city of Astoria in general, as pedestrians of both sexes and all ages can find this much needed walk, and it will be a great convenience in the long winter months. It is something from which each and every one of us can derive a benefit. We have about 30 societies, all wealthy and having large memberships, and if they could be induced to subscribe \$25 per lodge, \$750 could be placed to the committee, which would build a grand promenade for miles. Every citizen should subscribe to the fund, and any one not being able to contribute but a modest sum should call at Frank Parker's office and take a chance on a bicycle donated by him or a thing for first prize and a nice lot in Alderbrook, generously given by Van Dusen Bros. for second prize. As the bicycle is only quite a run on in Astoria, and Mr. Douglas has come forward and is building 200 yards of the track from Tongue Point, and if a few more of our citizens will follow Mr. Douglas' example we will soon have good roads.

The officers are men of honor and ability and all are energetic. No better selection could be made for President, Vice, Secretary and Treasurer. Messrs. G. C. Pullin, F. L. Parker, W. A. Sherman and F. L. Dunbar in the order named, with Messrs. Robt. Thing and McGregor as committee.

The first spike was driven in the path on Friday, June 25, by F. L. Parker and H. D. Thing. Let the good work go on.

FOOTBALL.

The past week has been an unusually lively one in athletic, and around Astoria, and the public has been treated to some excellent games.

The match between Ilwaco and A. F. C. at football last Monday was replete with exciting events from start to finish, and was won by Ilwaco by one goal, after a very hard struggle. The young Astorians surprised the Ilwaco people by kicking 2 goals in the first half, but in the second they were as usual for Astorians, out of condition, and could not stand the pace.

Four footballists expect to win the cup that must set down. All the games they play prove to them are never in condition to go the journey when playing strong teams, and it really would seem that the boys can win the prize this season, if they train, and every one living in the city should give the team every assistance to condition themselves.

The Ilwaco players expected a very easy victory, judging by the long beach match, but they did not count on the local boys improving so rapidly. Marion, Curtis, Oiler and Win Crosby are playing a faultless game, and deserve lots of credit. In the last match especially.

The general public has no idea what splendid games are being played in the league matches. If they did, the walk to the grounds would not keep them away. The people on the beach turn out in great numbers, and the Ilwaco team brought over all the supporters the boats could carry.

The next football game takes place at Nahcotta between the A. F. C. and Nahcotta. Tomorrow the team leave on the Ilwaco and returns the same evening.

The boys from Oregon should win from Nahcotta, which will place them in a position that other clubs will respect. Mr. Dinnick will referee, and a good clean game should be the result.

The Nahcotta grounds are the best around and the Astorians will play their matches with South Bend on them, making it easier for both teams to go through their schedule.

The Ilwaco team so far (as head in the league) it is a strong team indeed, and will make a strong run for the cup. Wilson, Murray, Dinnick Astor and Seaborg are powerful.

The game on Monday was not as clean as should be seen, quite a lot of tripping and handling being allowed, but when the referee stands in the centre of the ground and does not follow the ball what else can one expect?

Abercrombie and Bartholomew are doing well as full backs and with plenty of practice will be hard to beat. John Young, center, is improving very rapidly, and when the forward line uses more dash with the ball in front of them under Prof. Kellogg's tuition, we cannot be defeated.

BOWLING.

The daily records for the week ending June 25 are as follows:

| | |
|-------------------------------|----|
| Monday—W. H. Wallace..... | 30 |
| Tuesday—H. W. W. Wallace..... | 32 |
| Tuesday—Mrs. Ingalls..... | 42 |
| Wednesday—C. H. Cooper..... | 50 |
| Wednesday—Mrs. Normille..... | 24 |
| Thursday—M. M. Picken..... | 31 |
| Friday—Herman White..... | 31 |
| Friday—Miss Davidson..... | 33 |

Up to 8 p. m., yesterday the highest score of the week was that of Prof. Kellogg, 73. This is the next highest mark made on the local alleys.

Bowling averages for week ending June 25, Cockey Hat Association, are as follows:

| No. Games | Average |
|-----------------------|---------|
| J. N. Griffin..... | 32 |
| F. M. Gunn..... | 27 |
| C. H. Higgins..... | 30 |
| L. E. Howes..... | 43 |
| Harry Wainwright..... | 31 |
| R. C. F. Ashbury..... | 31 |
| H. Bell..... | 27 |
| W. T. Beveridge..... | 30 |
| L. Burroughs..... | 30 |
| C. H. Cooper..... | 30 |
| J. D. McGowan..... | 30 |
| M. M. Picken..... | 34 |
| F. L. Parker..... | 32 |
| C. McDonald..... | 30 |
| J. Finlayson..... | 30 |
| Herman White..... | 37 |

The Oregon Road Club is thinking of bringing a ladies and gentlemen's team to Astoria

on July 4, to try conclusions with our players. It is to be hoped that they can arrange the trip as a double match will be exciting, and we can see how our bowlers stand in the league of alleys.

The standing in the league for the week ending June 24 is as follows, each team having played two games:

| Points | |
|----------------------------|---|
| A. F. C. (1st game)..... | 1 |
| Bone Beach (1st game)..... | 1 |
| Ilwaco (1st game)..... | 4 |
| Royal Pals (1st game)..... | 4 |
| Nahcotta (1st game)..... | 0 |
| South Bend (1st game)..... | 0 |
| Fort Canby (1st game)..... | 2 |

CRICKET.

The cricket match played by Portland was a very exciting contest and was one of the best games of the season, the Portland Association winning by 14 runs. The grounds were in splendid condition, and proved very fast for the Astorians, who have such a poor place to practice. Quite a number of spectators took the game in from the grand stand.

Our cricketers in Portland had a delightful visit. The Association players whom they played made the visit very pleasant. All enjoyable rides were taken on the Southern Pacific Railroad to the White House, where the cricketers were met by Miss Hest Macdonald, who did everything to make the first visit one to be remembered. The sandwiches and lemonade, generously distributed on the ground, were a rare treat. Mr. W. K. Robt. captained the Association team and proved himself a general worthy of larger fields. He played the game at a fast bat for his side, and made a shrewd defence against Wilson, who was bowling at terrific pace. Wallace with the ball proved very deadly to the Astorians, getting several of their steady players for small figures. Captain Astbury played a faultless innings for 25, some of his hitting being very clean indeed. In the second innings Ilwaco and Gibson hit out in good style and brought the score to a respectable total. Captain Astbury, on account of the illness of the bowler, decided to play the innings closed at 35, leaving Portland 23 to get to win, which was done at the expense of four wickets. It was unfortunate the game could not have been played out as having to close a game is very unsatisfactory both to the Astorians and the visiting team. The Astorians will have a chance to defend themselves on the 6th of July on the home grounds, when they will meet the Association team and C. W. Lawrence.

BOATING.

With there be a regatta this year? It would be a shame to let the regatta slip by without keeping the reputation made during the last three seasons of aquatic sports. No place on the coast is better adapted to boat racing than the mouth of the Columbia, and with the hundreds of boats always at hand, it would seem that a regatta is a simple matter to bring about. How wide it would be if we could have two or three days of aquatic sports while the two war ships are here on their return from Portland about the middle of July. The crews of the monitors, together with the boats from the light-house tenders would make some fine races. Could the committee of '96 get together and arrange for a couple of days' aquatic sports? It is certainly worth trying.

At the regatta held at San Francisco bay last week the great race—the senior bare—resulted in a dead heat between the South Ends of San Francisco and the Alameda on the first attempt, but the R. E.'s won in the "row off."

The thirteenth annual cruise of the Pioneer Yacht Club, San Francisco, composed of professional bouwers was held June 17.

The international foot race, one mile, purse \$250, between George A. Tinker of England and Patrick Carrell of Waltham at the Polo grounds, Boston 17th last, was an easy victory for the Englishman. Time, 4:25.

William K. Vanderbilt, with a party of friends, including his sister, Mrs. W. Seward Welch, her daughter, and Winfield Scott Hoyt, went to England in his steam yacht Valiant, to attend the Queen's Jubilee.

Thursday evening last a party composed of Mr. and Mrs. D. Campbell, C. V. Brown and Miss Nicholson enjoyed a boat on the river to Tongue Point and return via the O. R. & N. S. Co's dock. The placid waters and calm serenity of the evening were not conducive to sailing, but permitted the luxury of rowing to be indulged.

Last Sunday the Janus took a party on a cruise down the bay, stopping at Flavel and proceeding down to the jetty. Among the party were Miss Chatterton, of Portland, Mr. and Mrs. Carr, Robert Norris, A. Brock and W. Paine.

BASE BALL.

The Astoria baseball team has been practicing regularly this week on the grounds at the courthouse square. To be sure the playing has been restricted somewhat, for lack of spectators, but the Van Dusen grounds will be available, when the team is expected to attain the form of which they are capable. There have been two acquisitions to the club during the past week, namely, Melville, who was formerly stationed at the first base of the Van Dusen team, and Fletcher, who has just returned from California, will probably be played on the infield.

The Examiner tournament continues in a lively manner. It is too early yet to predict the winner, but several of the clubs are putting up first class ball.

The Alameda Alerts fell before the Santa Cruz team a week ago. Schmoor played good ball for Alameda, but the Cruzan's batting was too heavy to overcome.

Princeton won the championship of the Intercollegiate Baseball League on June 19, by defeating Yale for the second time. Score, 22-8.

Cleanliness of the head usually insures a good growth of hair. An occasional application of Hall's Hair Renewer will aid to keep the hair of a natural color.

THE WHEEL.

The California Associated Cycle Clubs will promote two great bicycle races before the close of the present season, in which it is expected all the prominent riders of the coast, both amateur and professional, will compete. Chairman R. M. Welch of the Racing Committee has the preliminary arrangements in charge, and feels sure of success. Both races, one for amateurs and one for professionals, will be handicap, and the distance one mile. In the amateur race T. H. R. Varney has offered a special trophy, to go to the club represented by the winner. Morgan & Wright, through their representative, E. C. Lennie, have provided a similar trophy for the professionals. In the latter race a five-dollar entry will be charged. This will form part of the purse, the largest ever offered here. The Association will contribute \$100 of the amount, which it is expected will total \$300. The amateur race will practically be for the State championship, as the best rider in each county will be invited to compete. The races will be held at the Velodrome in San Francisco. The officials are seeking suitable names for a circuit to separate them from the ordinary run of handicaps.

An effort will soon be made to lower the road trip record between New York and Philadelphia.

To renovate the enamel on your bicycle our authority says: "Wash it with a large soft brush and lukewarm water. Dry it thoroughly with a soft cloth and afterward polish it with a solution of bicarbonate of soda in spirits of turpentine. Never use a brush, hot water or soap."

Edward A. Edwards, of the Century Wheelmen of New York, broke the 24-hour record for 24 hours at Elizabeth by covering 307 miles in that time. The former record was 314 miles, made by E. Smith, of Baltimore, over the same road near that place last month.

One Zeigler is to the front again. Last week at Princeton the circuit meet was held, he was wiped out the defeat scored against him by Allan Jones the Tuesday previous at Woodland.

GENERAL.

Jim Jeffries, the 104-pound young giant, is to meet the Rubia of this one time in July. He is the first named to know as the San Francisco sports. He played at Long of Denver. Van Burka of Marysville and Baker of Chicago in double-quick time and as he built like a Hercules and willing to train, a great future is predicted for him. He is in the hands of a careful, competent man, Joe. Billy Delaney, Jim O'Leary's old trainer. Delaney is taking the utmost pains with his charge, and will not rush him to the front all at once.

But Hankus the San Francisco lightweight who defeated Phiberty in such surprising short time at Carson, during the March fights, is matched to meet George Dixon the colored celebrity at San Francisco, July 25, in a 20 round contest.

R. A. B. Young, a member of the Tacoma Athletic club, has broken the world's amateur wheel record for 75 and 100 yards, covering the first named distance in 1:45 seconds, and the latter in 2:45 seconds. The former record for 75 yards was 1:52, held by F. J. Mont of New York, and the 100 yard record was held by W. B. Burkhardt, who made the distance at New York in 2:50 seconds. At the same meet Barrager of the Tacoma team made 20 feet 1 inch in the broad jump, which establishes a new record for the P. N. A.

Miss Juliette Atkinson, the clever lawn tennis expert from Berkeley, is one more champion of America having won back from Miss Bessie Moore of New Jersey, her conqueror of last year, the laurels she held in 1896, the score being 6, 3, 4, 6, 3, 6, 3. The contest took place at Philadelphia.

Peter Maher, the pugilist, has secured a license to marry Miss Agnes Torrey of Philadelphia.

The Chicago Athletic Association will hold the next national swimming meet of the A. A. U. on July 31 in Lincoln Park lagoon, Chicago. There will be five championship races.

He Looked Part.

Molly—Gran'pa, my dolly's stuffed with sawdust. What is 'oo stuffed with?—Moonshine.

THE WARM WAVE.

Do not blame the weather man; Let's keep still and wait, It may be it was intended for Discouraging debate.

A KENTUCKY RACE.

Intense excitement showed itself in every face, and here and there white flags and fans told their own story, for two races had already been run that day. But nobody stopped to see that sort of thing, for the time grew short. The saddling bell rang; the crowd surged out and made a rush for the seats.

The great event, the Derby, was at hand. The horses and their retainers came in—beautiful, slender, nervous creatures, almost human in their eagerness for the contest. The sight of them thrilled the enormous crowd as one man. Then the favorite appeared, with his famous jockey soothing and restraining him, cautious of his strength, taking the applause of the people with indifference, caring for nothing on the wide earth but the race before him.

Slowly and with much difficulty the horses were gathered at the half-mile post, for it was a long one. Seven false starts; the eighth they were off. The red flag drops; the chat-ter of talk stops. The horses come around the turn and sweep up the stretch. The grand stand rises to its feet and stays there. They pass, the favorite well to the front and going easily, and a shout of welcome and restraining passion breaks the air. On they go, straight into every nerve; and the crowd holds its breath. It seems an hour before the quarter-mile post is reached. The half-mile post—what is it? For the fraction of a second they falter; the dust rises in a heavy cloud, and it is very nearly over; only an instant and they are gone. Down the home stretch they come, and again that mighty shout greets them, and pierces the very blue heavens. They pass, the favorite well to the front and going easily. The

THE PIANO OF THE FUTURE.

From the New York Journal.

No more hammers in pianos. The old-fashioned method of pounding music out of wires by the aid of a wonderfully complicated system of levers and keys which all the world thought to be the ultimate perfection for the production of that sort of tone has been abandoned as a hack notion.

By Richard Elmman of Berlin, for years a pupil of Prof. Von Helmholtz, has patented a system which does away with the levers entirely. He calls this new appliance the electro-phonio piano, a distinctive principle consisting in the fact that the vibrations of the chords are not produced by hammers, but by an electric current, and by means of microphones acting as interpreters of currents.

All the delicate and complex mechanism of the old piano is done away with. The little electric devices are arranged on the crosspiece extending over the strings. Upon this electric magnets are placed so as to be only a hair's breadth from the strings.

Pressing down the key sends the electric current into the corresponding electro-magnet. This attracts the metallic string below, but the micro-phonio interrupts the current and there-with the attraction. The string returns to its former place, and this continued attraction and interruption of the current is carried on, the number of vibrations being regulated by the pitch of the string.

The high sounds produced by this method have a decided harp tone, and the lower and middle registers suggest the timbre of the organ. In reality, the installation of this new system creates a new instrument, so different are the qualities of sound produced by the new method on the old.

INFANT KISSING BY THE PRESIDENT.

President McKinley established a precedent on his own trip which he may live to regret. Heretofore the privilege as well as the duty of kissing the infant of the enterprising voter has fallen exclusively to the aspiring candidate. It has been understood that when the candidate begins to draw his salary he is absolutely free from further candidacy exercises. The President's performance on his Nashville trip indicates that general Sherman is to have a distinguished rival.

It is true that the President has begun on babies, but it is only another step from babies to children of a larger growth, and those who have had experience in this pleasing pastime know how easy and natural is the transition. Not one ambitious infant on the Nashville trip escaped the President's kiss. The precedent is already established for several other junks this summer, and when the news of his recent performance goes out, a nation of children, large and small, will rise up and brave similar favors. The President is a patient, man and kindly, and it is not to be supposed that he will refuse these attentions to his admirers.

FRESH SUPPLY OF VITALITY.

To renew a waning stock may be gathered from a source accessible to all, and never sought in vain by any whose condition is such as to be wholly past repairing. Evidence direct, convincing and ample, indicates Hostetter's Stomach Bitters as a tonic of unexampled efficacy and perfect purity, and possessed of properties that constitute it an invaluable remedy for dyspepsia, constipation, liver complaint, urinary and uterine weakness, rheumatic complaints and malarial fever. Delicate females and infirm old persons are invigorated and soothed by it, and the physical prostration which usually follows a severe illness is in a great degree remedied, and convalescence accelerated through its use. It occupies a leading position among medicinal staples.

A DARK HORSE.

A small boy who lives out Woodland way—in spite of his tender years—a keen admirer of bicycle heroes. He was especially interested in the romantic story of Whelton Neely who won the road race last Monday.

"Papa," he said, the next evening, "is Mr. Neely a really, and true colored man?"

"Why, no," was the answer, "what put that idea into your head?"

"Cause the papers all said he was a dark horse."

It took some time to explain to him that a man could be a dark horse without regard to his personal color, but the small boy thinks he understands it now—Cleveland Leader.

TERRIBLE ACCIDENT.—It is a terrible accident to be burned or scalded; but the pain and agony and frightful disfigurements can be quickly overcome without leaving a scar by using DeWitt's Witch Hazel Salve, Charles Rogers.

AN IMPROVEMENT.

"I am trying a new brand of shaving soap," remarked the barber. "How does it seem to you?"

"It's rather better than the kind you've been using lately," said the customer, "seems to soften up the beard better, doesn't it?"

"Yes, and then it's a change. I was getting tired of the taste of sassafras."

The secret of a speedy cure in sickness lies in selecting the proper remedy and this is difficult to do unless one is sure what the ailment is. But one thing is sure, had the liver been actively at work sickness could not have come. It is then always safe to take Simmons' Liver Regulator which keeps the liver well regulated and all poison expelled from the system.

A PASSAGE AT ARMS.

Recently a newspaper man who wished to interview an officer at the barracks found that his man was in bed and soundly sleeping.

"Is there no way of getting at him?" he asked.

"No," replied a humorous sentinel, "he's a now a retired officer."

"Smart, ain't you?" said the newspaper man.

"No," replied the sentinel, "Smart's on the retired list, too. I'm Brown."

Some for ten, some for twenty and some for thirty years have suffered from piles and then have been quickly and permanently cured by using DeWitt's Witch Hazel Salve, the great remedy for piles and all forms of skin diseases. Charles Rogers.

AFTER THE OFFICES.

Over on Clark street, in front of a "political headquarters," stood an open carriage decorated with American flags and banners proclaiming that the "anti-party" was "anti-machine" and "anti-gang." I asked the young man who presided over the carriage and busy distributing hand-bills what his new party was and what it wanted.

"Why," he said promptly, "we're against

gang rule." We're opposed to the machine. You see, the old parties control all the offices and no one else has a show.

"Then you reformers are out for—"

"Offices," he said, "You bet! Take along a hand-bill, sir, and study it over."—Chicago Times Herald.

Ayer's Pills promote the natural motion of the bowels, without which there can be no regular, healthy operations. For the cure of biliousness, indigestion, sick headache, constipation jaundice, and liver complaint, these pills have no equal. Every dose effective.

WHY HE DECLINED.

"Does he refuse the nomination?"

"Yes. He says he does not care to go into politics."

"Why not?"

"He doesn't want his wife to find out all about his past."

"They are dandies," said Thos. Dowers, of the Crockett, Texas, Enterprise, while writing about DeWitt's Little Early Risers, the famous little pills for sick headache and disorders of the stomach and liver. Charles Rogers.

AT THE SUNDAY SCHOOL.

"Charles Mould, can you tell me what the Septuagint is?"

"If you please miss, it's a bicycle built for seven."

MIGHT HAVE BEEN SERIOUS.

He laughed most uproariously.

"What's the matter?" he asked.

"Here's a story of a lot of girl bicyclists tearing up their skirts to make landmarks for the wounded in an accident," he replied.

"I don't see anything humorous about that," she said.

"Think of the predicament if they had been bloomer girls," he answered.

Hundreds of thousands have been induced to try Chamberlain's Cough Remedy by reading what it has done for others, and having tested its merits for themselves are today its warmest friends. For sale by Estes-Corn Drug Co.

Mr. Whiffle (reading)—The Empress of Austria suffers from insomnia.

Mrs. Whiffle (meditatively)—"Well, no wonder. I'm sure if I was an empress I'd be so proud of it I couldn't sleep a wink."

AN INDICATION.

"It's one thing or the other," remarked Senator Sorghum with the air of one who is accustomed to lay down incontrovertible truths, "he is a man of extraordinary courage or else he is seeking notoriety."

"What makes you think so?"

"He ventured to go into the house of representatives with a new kind of whiskers."

Don't neglect a cough because the weather is pleasant; before the next storm rolls around it may develop into a serious difficulty beyond repair. One Minute Cough Cure is easy to take and will do what its name implies. Charles Rogers.

Going East? IF YOU ARE, DO NOT FORGET Three Important Points

FIRST—Go via the St. Paul because the lines to that point will afford you the very best service.

SECOND—See that the coupon beyond St. Paul reads via the Wisconsin Central because that line makes close connections with all the trans-continental lines entering the Union Depot there, and its service is first-class in every particular.

THIRD—For information, call on your neighbor and friend—the nearest ticket agent—and ask for a ticket reading via the Wisconsin Central lines, or address
