The Glorious Fourth of July—the anniversary of the birth of the nation—is once again to be celebrated throughout the states of the Union, and in Astoria the patriotism of all good citizens will boil over in an effort to emphasize the day in a manner not to be forgotten by old or young.

One hundred and twenty one years ago today a handful of our ancestors, representing the little struggling colony from the mother country, disheartened and driven to extremities by the unjust taxation imposed by that mother government, made a bold stand for liberty and announced their intention of establishing an independent government for an independent people.

The kidneys exercise most important functions, which are so wearisome that they tax to the utmost the strength and endurance of these busy little organs.

APPRECIATION.

"How long does Chapman stay in jail?" inquired Flooding Pete. "I dunno," replied Meandering Mike, "but I judge by the bill of fare as the other accommodations, I should reckon that he'll show some as hang on till they've naturally open the doors an' put 'em out."

How many young men and young women are cut off just as the future seems brightest and fullest of promise? They are taken away by the disease which causes over one-sixth of all the deaths in the world—the disease which doctors call consumption.
