The foreman, Andy Graug, and ex-Chief Jens Hansen were each presented with trumpets.

Tuesday the 11th is the day for the annual picnic of Grace church and Holy Innocents Sunday schools. The train leaves at 9 a. m. Be sure to bring your umbrellas and goloshes, and come prepared for a good day's fun. Games of almost every description and a prize for every event. Yesterday the new train service to Flavel and Seaside was inaugurated and many people took advantage of the frequent trains to visit the West Side. The motor train was well patronized, and those who rode in the newly painted coach pronounced it the thing for suburban service. Superintendent Lester is very proud of his new rolling stock and says that ere the summer is over Astorians will be surprised at the excellent service his road will be giving to the traveling public.

Manager Frank Locke, of the Hotel Flavel, was in the city yesterday afternoon laying in supplies. He says the hotel is fast filling up, and in another week there will be a good-sized orchestra under his hospitable roof. Today Parsons' orchestra will arrive from Portland and will remain at the Flavel for the summer. Manager Locke extends a cordial invitation to Astorians to visit the hotel evenings and enjoy the music. Tonight an informal hop will be given to which Astorians in particular are welcome. The new motor service is proving a great convenience to guests of the hotel as it enables them to go and come at almost any hour of the day.

W. B. Edwards had occasion to go to Warrenton at a very early hour, a morning or two since, and desiring to arrive at his destination long before the first train was due to leave Astoria, decided to walk across the Young's bay trestle. He arose, and started on his tramp at just 4 o'clock a. m., making a silent vow that he would break all walking records between this city and Warrenton. At the pace he struck going down the trestle, Tallant would not have been in it, and as it kept him busy watching the flies so that he would not go through and into the water, he did not notice that the big steel draw was open until

almost over the end of the trestle. He came to a standstill and whistled—long and loud—but it brought no response from the draw-keeper. Remembering the whistles of the river steamers when approaching a bridge, he gave them, thinking he might arouse the bridge man, but again no response. At last he gave it up and returned to the city, reaching the depot in time to catch the 8 o'clock train. Since then he has incurred a signal cost from Superintendent Lester, but it is not likely he will again take chances with the present keeper in charge of the draw.

In the county court yesterday the petition of G. C. Fulton et al. for an allowance of \$200 out of the public road fund for the construction of a public way from the Sossaminacva embury to John Day's river, was not allowed. It was ordered that Scott Banzeth, W. A. Sherman and D. Stuart Jr. be employed to expert the books of the county treasurer, and that they be allowed compensation at the rate of \$ per day. Later, Mr. Stuart notified the court that he would not act for less than \$2 per day, claiming that an expert's services were worth \$10 and he thought the county could at least afford to pay him half price. The court failed to see that way, and appointed Mr. Frank Parker in his stead.

C. A. Bottom came in from Nehalem yesterday bringing along a couple of interesting pet--a rook with red and a huge cut of about the same age. About three months ago Mr. Bottom's dog hunted out a wildcat in an old log near his place at Jewell. The cat, a female, after a sharp fight, escaped into the woods, leaving behind in the log three pretty little kittens. Mr. Bottom cared for the little fellows, taking them home and placing them in charge of the house cat, which, by the way, had a small family of her own. The kittens have grown up together probably never knew but they were of the same parents. The wild kitten he brought to the city was on exhibition at the National last evening and attracted no little attention. Mr. Bottom will sell the pair before returning home.

The recently issued catalogue of the Normal School at Monmouth announces a special course of two years in physical training for use in the public schools. The system adopted is the Ljung or Swedish system, and the work is given by a graduate of the Pose Gymnasium of the Normal. The well equipped gymnasium of the Normal School offers special facilities for this work. The catalogue gives in detail the three years' academic and professional course of the school, which is especially designed to train for teaching.
