Remember that Friedman is Cutting Prices down to the Lowest Notch...

It will pay you to go to Friedman for your dry goods, clothing, hats, shoes, underwear, blankets, laces and ribbons, or anything they have in their store.

600 COMMERCIAL STREET

THE ENDAVORERS HAVE A PURPOSE

Their Gathering in Frisco a Revelation to the Pacific Coast.

ALL IS GREAT ENTHUSIASM

More Trains to Follow—Meantime the Delegates Will Take a Rest and Enjoy Their Visit—Program of the Day.

San Francisco, July 10.—This has been one of the most successful days of the Christian Endeavor convention, for its varied incidents have demonstrated to the delegates from near and far that the people of San Francisco are sincere in their welcome, and that this is not a Godless city. This fact was strikingly emphasized at the great open air meeting held on Van Ness avenue at noon. For many blocks the wide boulevard was thronged, and the impassioned addresses of men earnest in their faith were received with marked attention and approval. It was a matter of civic pride and not of creed, for nowhere was the applause more generous than at the great gathering under the shadow of the splendid Roman Catholic church of St. Ignace.

These assemblies under a cloudless sky, on one of the days of a California year, are even more enthusiastic than predicted, even by Secretary Haer, through whose suggestion they were held. The topic of the early morning prayer meetings was "Committee Work Service." All the churches were filled. The services were led by the following men, all prominent in the Christian Endeavor movement: F. K. Vincent, Secretary, Kan. W. J. Rice, New York; Long Island, H. E. Cantel, New York; Walter M. Jordan, Deer Lodge, Mont.; F. D. Stackhouse, Denver; D. S. Kelly, Emporia, Kansas; G. E. Burns, Philadelphia; William Staver, Indiana; J. V. Mulholland, Boise, Idaho. The subject of the daily hour for Bible study was "Philippines—A Message of Joy in the Spirit of Adversity." It was conducted in a fervent manner by the Rev. Dr. Herbert K. Willet, of Chicago. The principal address at the noon meeting was by the Rev. Robert Johnson, of London, Ontario.

THEY HAVE A PURPOSE

San Francisco, July 10.—All the Christian Endeavorers now assembled within the city's gates are here for a purpose, and that purpose is not one of recreation and pleasure. That all the assembled Endeavorers take a deep and positive interest in the proceedings of the convention is manifested by the attendance at the daily sessions at the big convention halls. With them all is enthusiasm. Never has San Francisco been called upon to entertain such a throng of people as has been gathered together for the 10th convention. There have been revival meetings and religious gatherings and all sorts of conventions, and there have been some pretty big political gatherings in San Francisco, but the Christian Endeavor convention is a revelation. Profiting by their experience at the previous sessions of the big convention, when they came too late to get within hailing distance of the Mechanics' pavilion and Woodward's pavilion, many Christian Endeavorers were up with the coming of daylight, determined to be among the fortunate ones in securing seats. All roads seemed to lead to the headquarters at Mechanics' pavilion. By 5 o'clock they came pouring in from the East, until the broad entrances to the big frame structure were congested with humanity. The weather was quite cool—just cool enough to bring back the color which had been temporarily driven from the cheeks of the thousands of pretty young women by the hardships of a transcontinental journey. Nine o'clock saw all the 500 seats filled, while several thousand persons fringed a fringe of humanity about the outer edges and packed the aisles until the police and fire departments cried enough and barred the doors to further arrivals. The song service was first on the program. The vast throng joined in the stirring Endeavor hymns with delightful effect and with a volume of sound that carried their voices to the crowds in the streets, many of whom joined in the songs of praise.

In spite of the fact that the committee had arranged the most attractive program for the meetings at Woodward's pavilion, in order to draw as many people as possible to that hall, the crowd seemed to gravitate towards the headquarters at Mechanics' pavilion, with the result that thousands are turned away at every session. The latter hall has been made so attractive with decorations and booths conducted by hundreds of handsome young women, something after the fashion of a charity bazaar, that all want to enjoy the privilege of seeing and hearing all that is to be seen and heard at this place.

Notwithstanding the size of the vast assemblage, the arrangements at the pavilions are all that the most exacting could wish, and all that has been done for the comfort of the visiting legions reflects credit upon those who have given their time and attention to the great work. The committees that have had a hand in the arrangements of the big international gatherings are now receiving the praise and commendation of 2,000 delighted visitors from every state in the Union and from nearly every alien land where the influence of Christian endeavor is felt.

The afternoon will be devoted chiefly to recreation by the delegates. Enthusiastic as they have been in the work of the convention, they cannot deny that a season of rest in the midst of their labors is necessary. Therefore they have elected to lay aside more serious things for a time and enjoy themselves as fully as possible. The chief feature apart from the meetings this morning will be the open air concert by the Golden Gate park band and it is expected that there will be more people in the park this afternoon than have been seen there for many a day.

No figures have been given out today as to the total registration, but it is understood that something over 22,000 have appended their names to the roll of attending delegates. Nineteen more trains yet to come is the latest announcement by Secretary Haer, and the last of these will probably not arrive before Monday. It is estimated that there are between 2,000 and 3,000 strangers in the city at present. Among the last detachments to arrive was the second of the New York delegation under the care of Rev. Dr. Pease, who not only attended to the traveling comforts, but acted as nurse and physician to more than a few cases. With a few exceptions the trip was free from discomforts or mishaps and pleasant experiences were witnessed throughout the long journey. While crossing the Sierras the roof of one of the sleepers caught fire from forest fires, and there was considerable excitement among the delegates until the fire was extinguished. In the early hours of this morning the last detachment from Pennsylvania arrived, 250 strong, and these, with other visitors from the Keystone state who preceded them, swell the total from Pennsylvania to nearly 1,000.

LONDON BUDGET OF WEEK'S NEWS

Mrs. Langtry Will Shortly Marry Prince Esterhazy de Golanthan.

PROF. THOMPSON CRITICIZED

His Reports on Sealing Written in Favor of New Firms Now Engaged in Pelagic Sealing—Interesting Details.

London, July 10.—It is stated from an excellent source that Mrs. Langtry will shortly marry Prince Esterhazy de Golanthan. The prince is about 40 years of age and has been married before, both of his wives being dead. He is a great sportsman and the purchaser of horses for the Austrian government. The prince is related to the Earl of Jersey and his connections to Mrs. Langtry are reported to be most ardent. Mr. J. H. Liebes, the expert on sealing of the American Commercial Company, has sent the Hon. John W. Foster, the United States sealing commissioner, a severe criticism of the report made to the British government by Prof. Thompson, Mr. Liebes says: "Prof. Thompson is doing everything in his power to assist in the destruction of the seal seals still remaining on the seal islands. Had he been the paid attorney for the Canadian sealers, he could do no more than he did in shading all the material facts. His entire report is written in favor of the new firms which are now so largely engaged in pelagic sealing. He quotes from American reports whenever it suits his purpose and calls them correct, but contradicts all former American statements which are favorable to his views."

RUSSIA AND GERMANY

Will Form an Alliance for Mutual Protection.

Berlin, July 10.—The main business of serious import, to be transacted during Emperor William's visit to the czar, will be the formation of a distinct understanding between Russia and Germany in regard to the frankly admitted anti-British policy in the Orient, especially in connection with Japan and China; and in the event of possible complications arising from the critical situation in India, Emperor William will pledge himself to systematically support their interests in that part of the world. Russia, on her part, is to promise the weight of her influence in favor of Germany in the event of the annexation of Samoa, and elsewhere, maturing. The newspapers are full of dismal forebodings in regard to the new United States tariff. The liberal newspapers, however, for instance, the National Zeitung, the Tagblatt, Boerzen Courier, and others, warn the government against entering forthwith into a tariff war with the United States, though they have no doubt the Dingley bill will become a law substantially as passed by the senate, and that German industries, notably woolens, will be gravely injured.

THE TARIFF BILL

Differences Being Settled Rapidly in Conference.

Washington, July 10.—The conferees on the tariff bill suspended their labors long enough today to attend the funeral of the late Senator Harris, but reassembled immediately after the conclusion of the obsequies, and will continue work tonight and all day tomorrow. The major portion of the time of the conference so far has been given to the senate amendments, over which there is comparatively little dispute. One of the difficult problems is the form of the reciprocity provision of the bill. The advice of the president has been sought, and it is understood he has expressed himself as favoring a policy allowing considerable latitude and based upon liberal principles. The conferees expressed confidence today in being able to call in the democratic members by Tuesday next. They stated that they were succeeding better than they hoped in settling the differences.

BURKE AND MAULIFFE

New York, July 10.—The Journal and Advertiser says: Daniel Ryan, a wealthy clothier of New Orleans and president and matchmaker of the new St. Bernard Club of New Orleans, has secured the signatures of Jack Burke and Jack Mauliffe to meet at 135 ponds for twenty rounds, or more for a purse of \$500, before that club, on August 5.

DEATHS IN KANSAS CITY

Kansas City, Mo., July 10.—Eight deaths were directly due to the extreme heat which has prevailed in Kansas City during the past week. Seven of these occurred yesterday, though the hottest day was Thursday. During the entire season previous to the past week there has been but three deaths from sunstroke. Today the weather is cool.

THE MINeworkers AND MINEOWNERS

President McKinley Called Upon to Name Arbitrators.

BOARD NOT ALL POWERFUL

But Can Succeed in Placing the Responsibility Where It Belongs—McKinley Will Act with Caution.

New York, July 10.—A special to the Journal and Advertiser from Washington says: Having ascertained from the leading constitutional lawyers that there is no ground upon which the federal government can directly take any part in an arbitration of the dispute between the mine-workers and mine-owners involved in the present gigantic struggle, the Journal and Advertiser has laid the whole question before President McKinley personally and asked him to name an unofficial body of arbitrators whose character and reputation for fairness and good sense would be sufficient to guarantee a just and acceptable decision. The president has expressed his willingness to take the matter under immediate consideration on condition that the mine-owners shall also agree to submit their case to the arbitrators and abide by the result. Of course, it is understood that this body can have no official character and will be unable to enforce its decision, but it can, perhaps, induce the mine-owners and mine-workers to end the appealing struggle on some reasonable basis and thus save the country from the horrors of a national struggle between labor and capital at a time when want and misery stalk through the country. A board of arbitrators can at least succeed in placing the responsibility for the continuance of this disastrous and perilous strife where it belongs. President McKinley cannot and will not undertake to select the arbitrators until he has had satisfactory assurances that both sides are willing to accept arbitration. Even then his action will depend upon the circumstances under which the case is laid before him. He realizes fully the terrible consequences which may follow if the struggle is allowed to go on. The Journal and Advertiser is not in a position to make public all the details of the matter, but it has gone far enough to open a way for a peaceful settlement. The public at large will presently be able to see clearly the nature of the great coal strike and its environments. President McKinley cannot go beyond the point already indicated until the mine-owners have expressed their willingness to accept his good offices and agree to the principles of arbitration.

WHEELMEN RACE IN PORTLAND

Portland, Or., July 10.—In the trial heat of postponed L. A. W. meet today Earl Sivans lowered the North Pacific record for a paced mile in competition with 45 seconds. The incident of the day was the pulling of the trunk of H. D. Buckner by Referee Goodman.

A SALUTARY EFFECT

Washington, July 10.—The appearance of the cruiser San Francisco in the harbor of Tangier has had a salutary effect upon the Moorish authorities in the matter of securing the observance of American rights. Rear Admiral Selfridges, who is on board the San Francisco, has cabled to the navy department that when the Mogocco authorities learned that an American war ship had been ordered to Tangier they had displayed considerable activity and had arrested one of the assailants of the American who had been knocked down and robbed.

NATIONAL COMMITTEE

New York, July 10.—The Herald says: William D. Bynum, chairman of the national democratic executive committee, has called the committee to meet in this city on July 21 at national headquarters. Mr. Bynum is well pleased with the action of the gold standard democrats of Iowa, Kentucky and Ohio, where they will have state tickets. The national executive committee will make plans for the coming campaign and settle some matters of detail. The gold standard men will nominate a ticket of their own, or endorse Seth Low, if Tammany does not repudiate the Chicago platform.

KISER DIDN'T DO IT

Philadelphia, July 10.—The second annual meet of the Pennsylvania wheelmen was held today on the new board track at Willow Grove. Earl Kiser attempted to break the world's record, but the best he could do was to lower the state record of 1:32, held by Parsons, of Australia, to 1:45. John S. Johnson, of Minneapolis, paced by a triplet, clipped 1/8 seconds off the state one-third mile record, covering the distance in 37 1/2.

GREEN AND WALCOTT

San Francisco, July 10.—George Green and Joe Walcott, welterweights, have signed articles for a 20-round contest before the National Athletic Club, August 28 in this city. The men will weigh in at 145 pounds.

HOT IN KANSAS

Topka, Kan., July 10.—The result of the past twelve days' extreme heat in this city, during which the temperature reached a maximum of 104 degrees, was 12 prostrations and no deaths, so far as reported.

FIERCE HEAT

Somewhat Moderated in Eastern States Yesterday.

Chicago, July 10.—The fierce heat under which the greater portion of the country has sweated since the first of July moderated in many localities today, and

FOR BIMETALLISM

Everything Looks Bright—United States and France for It.

New York, July 10.—A special to the World from London says: Everything looks very bright for international bimetalism," said Senator Wolcott to the World correspondent, when he was a visitor. "Notwithstanding the reports to the contrary in American newspapers."

"I have just returned from France, where I found that that republic will stand shoulder to shoulder with the United States in behalf of the two metals."

Senator Wolcott and his mission here had been rather glibly by the French press, but he takes the matter very seriously. "I have just returned from France," says the United States government might spend its money to better purpose than on a commission costing \$200,000 and hopeless of success.

The correspondent asked the senator if he had seen Bryan's remark that President McKinley had made a laughing stock of himself for the whole world by sending this commission abroad.

"Yes," answered Mr. Wolcott, "but Mr. Bryan is laughable in saying so. I am most encouraged by the feeling in France and elsewhere."

INDIAN COUNCIL

Secret Sessions and Great Fear of Troublesome Times.

Guthrie, O. T., July 10.—Over 1000 Cheyenne and Arapahoe Indians are holding a grand council and dance at Darlington, demanding that the recent anti-polygamy law be not enforced against them. Their sessions are in secret. They refuse to obey the orders of the agent, and there is fear of serious trouble. They say they cannot choose which wife they like best; they like them all and do not want to part with any, or with the annuities that each wife and child draws.

REALIZATION STAKES

New York, July 10.—A big high holiday crowd gathered at Sheepshead, the closing day of the spring meeting, and saw The Friar walk away with the rich Realization stakes, with the second choice, Rensselaer, second, and the favorite, Scottish Chieftain, far off the ruck, not being anywhere near the two leaders at the end. Time, 2:48 1/2. The realization stakes netted \$20,000 to the winner, \$3,500 to the second and \$1,500 to the third.

ROYAL BAKING POWDER

Absolutely Pure

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.
