ALL RECORDS WERE ECLIPSED

Conference Report on Tariff Adopted by House in Twelve Hours.

REPUBLICANS KEPT SILENCE

Under the Bombardment by Democratic Speakers—Thirteen Speeches Were Made—Vote 189 to 115.

Washington, July 19.—The house adopted the conference report on the tariff at 12:15 this morning by a vote of 189 to 115.

Washington, July 19.—At noon today the report will go to the senate for action there. This anticipates all previous records. The result was accomplished after twelve hours of continuous debate. But two speeches were made by the republicans, one by Dingeldey in opening the debate, and one by Payne in closing it. The democrats were thus forced to put forth speaker after speaker, but their bombardment of the republican position was unceasing.

Washington, July 19.—In the debate on the tariff bill in the house today, Dingeldey said the bill, as reported by the conference committee, would produce next year \$225,000,000—\$22,300,000 more than the present law. Over \$40,000,000 had been lost in this year's revenues by the importations of wool and sugar and other things the duty on which was raised in the bill. For all that, he calculated that the bill this year would raise \$18,000,000. One of the greatest demonstrations of debate occurred when Latham paid a tribute to W. J. Bryan. The democrats cheered for several minutes and many of the spectators joined in the demonstration.

A COLLECTOR IN TROUBLE

O. M. Welburn Charged With Embezzlement. San Francisco, July 19.—The collector of internal revenue O. M. Welburn appeared before United States Commissioner Heacock today, for preliminary examination upon the charge of embezzlement. It was shown by W. H. Dilard, a colored messenger employed by Welburn's office, that at the instance of E. C. Aiken to a salary check for each month from September last until March of this year. These signatures were modeled on the genuine signatures furnished by Welburn. Chief Deputy Louis Loupe had subsequently acknowledged each signature under oath. Aiken swore that he only received \$2 per month for his services, although he was on the payroll for \$100 per annum, and he had not authorized anyone to use his signature. Owing to the illness of Loupe a continuance was granted until Tuesday next.

A LITTLE BOY'S SAD DEATH

Fire Destroys His Parents' Home While His Life Ebbs Away.

San Francisco, July 19.—As the life of their little son was ebbing away, the home of Mr. and Mrs. Louis Torre, in this city, was nearly burned down. While the mother watched by the deathbed of her boy, the father helped to fight the flames. When they were extinguished the lad was dead. A remarkable feature of the case is the fact that the boy's death was the result of injuries received Saturday while playing he was a fireman and while some young companions to extinguish an imaginary blaze in the very place where the flames afterwards broke out.

THE MONITOR MIAntonOMAH

To Be Put in the Naval Reserve and Ready for Service.

New York, July 19.—A special to the Herald from Washington says: With a view to have available for immediate service, if needed, as many ships of the navy as possible, Secretary Long is considering the advisability of placing the monitor Miantonomah into the reserve. The Miantonomah was laid up in ordinary at League Island in 1885, and since that time but little attention has been paid to the ship, except to make repairs from time to time. Secretary Long now intends to have the vessel put in thorough condition, so that she can be ordered into reserve with the Columbia and Minnesota. This means

FINAL CHANGES IN TARIFF BILL

Lead and Lead Ores Are Slightly Increased.

TO INTRODUCE ELECTRIC POWER

Prospective Change in Prominent New York Roads.

New York, July 19.—The Journal and Advertiser says: Projected changes in the motive power of the three elevated railway lines of Greater New York and the New York, New Haven and Hartford steam surface roads have been announced. In the case of the New Haven road the alterations have begun and the elevated roads await only the consummation of incidental plans to embark in changes of kindred type, which period, among other things, a revolution of the rapid transit system of New York.

CROCKER'S FUNERAL TODAY

General Hubbard Mentioned as His Successor. San Francisco, July 19.—The remains of Colonel Charles F. Crocker will be buried with Masonic honors tomorrow afternoon. It is expected that the inauguration of the Crocker estate will now devolve upon George Crocker. General Hubbard, of New York, is the man most prominently mentioned as the probable successor of Colonel Crocker, as first vice-president of the Southern Pacific Company.

BRITAIN DECLINES

London, July 19.—In the house of commons today Hon. George Curzon, under secretary of foreign affairs, replying to Michael Davitt, said the government was convinced that the seals in Bohemia were in no immediate danger at present. The British government declined, he added, the request of the United States for a conference to consider more adequate regulations to prevent the extermination of the seals, as such a conference would be premature until the experts now engaged in making an investigation should make their report.

THE UNION LABEL

Chicago, July 19.—Every man who marches in the big Labor Day parade must wear union-made shoes with the union label on the sole. A committee has been appointed to inspect every shoe in the line of march, and any man found guilty of wearing non-union shoes will be dealt with accordingly. The action on this effect was taken at the meeting of the Chicago Federation of Labor on suggestion of William Jones, of the Boot and Shoeworkers Union of America.

ENGLAND AND UNCLE SAM

London, July 19.—In the house of commons today, in the course of a debate on the foreign office vote, Sir Charles Dilke, radical, said: "The gravest foreign question at the present moment grows out of our relations with the United States, and if the matter is not dealt upon, it is because the government is conscious that in these difficult matters it cannot count upon the support of the entire house."

TO CLIMB MT. RAINIER

Tacoma, July 19.—The members of the Tacoma party from Portland and other coast points, as well as scientists from Washington, D. C., reached Tacoma early this evening and will start for Mount Rainier at 6 a. m. tomorrow. The exact number of persons who will start in the party cannot this evening be determined, but it is expected that not less than sixty people will make the ascent from the foot of the mountain.

BASEBALL SCORES

- Cleveland, July 19.—Cleveland 18, Baltimore 7.
St. Louis, July 19.—St. Louis 6, New York 11.
Louisville, July 19.—Louisville 6, Washington 2.
Cincinnati, July 19.—Cincinnati 2, Boston 9.
Chicago, July 19.—Chicago 7, Philadelphia 6.

NEBRASKA CHURCH WAR ENDED

Lincoln, Neb., July 19.—From the rostrum of the Roman Catholic churches of Lincoln it was announced yesterday that the differences existing for some time between Bishop Boscard and several of the priests had been settled to the satisfaction of both factions.

THE MARKETS

San Francisco, July 19.—Wheat—8 and 10.
Liverpool, July 19.—Wheat—Quiet.
New York, July 19.—Wheat—Quiet.
Portland, July 19.—Wheat—Valley, 60c; Walla Walla, 65c.

FAST TIME BY GENTRY

Detroit, July 19.—In pacing against time this afternoon at the Grrosse Point track, John R. Gentry made a mile in 2:04 1/2, and Robert J. in 2:06 1/2.

THE HALF HAS NOT BEEN TOLD

Millions Are Still in Alaska for the Hardy Miners.

FURTHER PROOF IS ADDED

Well Known Men Add Their Testimony—Governor McIntosh Says There Will Be a Railroad.

San Francisco, July 19.—The Alaskan gold fields and the stories brought here by recent arrivals from the Klondyke continue to be an absorbing topic of conversation throughout this city. In every quarter may be found prospective miners, merchants, traders, tradesmen and working men, outlining plans for profitable occupation in the region of country which is at this moment the center of the world's interest.

THE LAST ROSE OF SUMMER

Death of the Lady Who Inspired Moore's Famous Poem. New York, July 19.—Mrs. Amelia Kohler died today at Mount Vernon. Had it not been for Mrs. Kohler, Tom Moore might never have written "The Last Rose of Summer." The poem was her suggestion, and the first line was from her lips. She was early in the century a close friend of Moore's sister and kept a private school in Lexington. While walking in the garden of the school one day, Mrs. Kohler, so the story goes, plucked a rose, remarking: "This is the last rose of summer; why not write about it, Dr. Moore?"

The incident suggested the thoughts that were afterward so beautifully woven into verse, and the poem was dedicated by the poet to "Amelia," which was Mrs. Kohler's name.

Mrs. Kohler was 82 years old when she died, and for 25 years had lived with her daughter, Mrs. F. M. Saunders, at Mount Vernon. Her maiden name was Amelia Offerfeld, and her father was an officer under General Blicher. The family home was at Aix la Chapelle. Mrs. Kohler often spoke of having seen Napoleon in her childhood.

GOLD DISCOVERIES ON SILVER

Latter Metal Not Likely to Be Affected by the Alaskan Excitement. Washington, July 19.—Quite a number of statements were asked what will be the effect of the Alaskan discoveries on the silver question. Most of them were inclined to the belief that the possible production of the new gold country had been greatly exaggerated for the benefit of the transportation companies. Senator Allison, when asked about the situation, said:

"If the product of gold in Alaska is really enormous, it would of course tend to appreciate the value of gold and silver, but the output would have to be unprecedented to have much effect, for our output of gold is very large, you must remember."

Another authority said without hesitation there could be possibly no effect on the monetary situation unless the discoveries of gold were so stupendous as to take gold out of the list of precious metals.

JAPAN PREPARING FOR WAR

Endeavoring to Purchase Brazilian War Ships in Europe. New York, July 19.—The Herald's correspondent in Rio de Janeiro telegraphs that the United States and Japan have communicated with the government of Brazil with the idea of the possible purchase of the war ships now building for Brazil in England and Germany.

Owing to Brazil's financial plight at this time, it was recently decided to sell, before completion, if possible, all the war vessels being built for Brazil in England and Germany. These are principally small boats.

THE DUST MELTED

Seattle, Wash., July 19.—A special to the Post-Intelligencer from Helena, Montana, says: Eleven thousand, four hundred ounces of gold dust from the Klondyke diggings in Alaska arrived here from Seattle this morning. The treasure was delivered to the assay office to be melted and cast into bars. It will be cast into five bars of 2,000 ounces and placed on exhibition in the bank windows. Many people visited the assay office to witness the melting of the gold.

OKLAHOMA MAIL ROBBERY

Guthrie, O. T., July 19.—Two masked men robbed the Sac and Fox agency postoffice, 50 miles from here, Saturday night, securing a quantity of registered letters, stamps and a small sum of money. They were after 2:00 being paid by the Indians. The robbers escaped.

PLENTY OF FISH

The reports from the canneries and cannery tenders were all to the effect that the run of fish is keeping up well, and large quantities of fish were delivered and packed yesterday. One cannery received fifteen tons and others similar amounts. The season will probably show an average pack, and the merchants fair returns for their work. Commissioner McGuire had no occasion to make any complaint for the violation of the Sunday law, and will doubtless receive the support he desires in its observance until the law can be repealed.

THE HALF HAS NOT BEEN TOLD

Millions Are Still in Alaska for the Hardy Miners.

FURTHER PROOF IS ADDED
