

The Steamer Grady Arrives Safely.

San Francisco, July 26.—The steamer Grady arrived here from Portland at 5 o'clock this morning. Speaking of his voyage, Captain Denny said: "We had splendid weather throughout

the entire voyage. On Cape Blanco, however, we encountered quite a heavy gale and were blown clear to Crescent City. The wind blew so strong that the waves were carried over the

wheel and ran into the boat from the stern. The only damage sustained that was really worth mentioning occurred when off Mendocino. The wind had died down, but still a nasty sea was running.

Suddenly a big green breaker dropped aboard on the port side. The weight of the water broke several stanchions and loosened a few planks. The damage will not exceed \$100."

Secretary Sherman Talks on the Tariff Bill Legislation.

PROSPERITY NOT A CYCLOPE

Will Take Time to Recover from Wilson Bill, but Business is Improving—Not Surprised that Germans Don't Like It.

New York, July 26.—The World says: Secretary of State John Sherman, who is enjoying a vacation at Amagansett bay, consented to an interview. The secretary was asked if he had heard that President McKinley had signed the tariff bill. "Yes, I read it in the papers," he said. "Of course I was looking for it."

Flower, Anthony Brady and other great financiers. The Chicago continent, which is not heavily interested, includes Norman B. Ream, Marshall Field, Edward Brewster, John W. Duane, L. Z. Leiter, Robt. T. Lincoln and others. New York took notice of the proposition, as is evidenced from the fact that twenty-four hours after underwriters subscriptions were invited the capital stock offered here of between \$12,000,000 and \$14,000,000 was largely over-subscribed by less than twenty financiers, and today at a premium of over 25 per cent. The capitalization of the new company, which is to be incorporated under the laws of New Jersey, is as follows:

HOPS IN DEMAND

The Condition of the Crop This Season Never Was Better. Seattle, July 26.—A special to the Post-Intelligencer from Chehalis says: Representatives of Eastern hop-buying firms have been in town for several days and have displayed a great deal of eagerness to make contracts for the 1917 crop. Pier Bros., representative, who has the most contracts for, stated yesterday that by Monday night he expected to have contracts with almost every grower in this immediate vicinity who had not already contracted. He stated that he had offered 8 1/2 cents, which is one-half cent more than was stipulated in last week's contracts. It is reported, however, that 10 cents has been offered by buyers and that it has been refused by several parties. A reliable grower stated yesterday that he had contracted for two and a half tons at 10 cents. Farmers who are able to pick their hops here will not make contracts. They think that hops will bring a very satisfactory price this fall.

charged at San Francisco at good rates. There were only ten dollars worth of reclamations on the entire cargo. The Coloma has been in the Oriental trade for almost a quarter of a century. She is the trimmest bark coming to this port, and is the pride of Oregon. Captain Noyes has just had her repainted, inside and out, and she now looks like new. She will make another voyage in the fall.

Estimates of the expense of such improvement and plans and specifications of such work or improvement, and of the locality to be improved have been deposited by the City Surveyor with the Auditor and Police Judge for public examination and may be inspected at the office of such officer. At the next regular meeting of the Common Council following the final publication of this notice which meeting will be held on Friday, August 6, 1917, at the hour of 7:30 p. m., at the city hall, any objections that may be made to such improvement will be considered by the council, and if at the time of said meeting a remonstrance against such improvement, signed by residents of the city owning more than one-half of the property in said district, shall be filed with the Auditor and Police Judge, such improvement shall not be ordered, if at all, except by a vote of two-thirds of all members of the council. By order of the Common Council. H. E. NELSON, Auditor and Police Judge. Astoria, Or., July 21, 1917.

THE GLUCOSE COMBINE

Chicago, July 26.—A special to the Times-Herald from New York says: The business which called the two Chicago corporation attorneys, Levi Mayer and John P. Wilson, to New York last week and led to numerous conferences of several of the large trust companies, it is now learned, was the legal shaping of a big company which has been organized and has purchased with one or two exceptions all the glucose manufacturing plants in the country. Some idea of the size of the deal may be gained from the fact that the new corporation will have a capital of \$10,000,000, and will control with slight extra exertion the whole glucose output of the United States, which amounts annually to 1,200,000,000 pounds. It involves, too, the consumption annually of about 21,000,000 bushels of corn.
