MORE GOOD NEWS.

The treasury department was informed while the pay was in the bank. After the check had been cashed and the money sent, which corresponds to that of the adult seal, it was killed and skinned. There is no question that it is perfectly feasible to brand the seals and that the brand will remain permanently, as it does on a horse or cow. One man can brand female seal pups at the rate of one thousand a day. The brand will grow with the growth of the animal. The water hairs will hide it to some extent, but the part of the skin on which it appears is permanently branded for the furrier's purpose.

The adult seal can also be branded without injury, but they are not so easily handled. As to the notion that handling the animals will frighten them and drive them to some other island, there is no foundation for it. They mind it no more than sheep being sheared.

News of the August 25—Samuel Case, an old pioneer of Yaquina bay, and a well known hotel man, died at his residence this evening of cancer of the stomach.

Doctor Darrin, the eminent specialist in Astoria.

There is a physician in Astoria, not simply a medical practitioner, but a physician of very high order of merit, a scientist, one whose years of close study, close observation, close practical experience, has enabled him to draw not only testimonials, but personal endorsements from the leading men of the country—congressmen, judges, etc.—and whose success in the medical field is today without a parallel. This refers to Dr. Darrin, late from Portland, who has offices at the Occident hotel.

Dr. Darrin has an enviable rank in his profession as a wonderfully successful physician. He is essentially original in his methods of practice, and those who have been under his treatment are surprised at the newness and novelty of his system of practice by electricity. His honest and straightforward advice before taking a case has won for him the confidence of his patients as well as the general public. The doctor is a gentleman of genial, social nature, and his private practice is marked by the formation of a personal friendship with those with whom he comes in professional contact. He is without doubt one of the most thoroughly qualified physicians now before the public, as his wonderful cures can testify. Read his cures:

Geo. Smith, Astoria, deafness, cured.
John Savanson, Farmington, Or., deafness, cured.
J. H. Wilson, Mt. Or., skin disease, cured.

A. Post, Eagle Pass, Or., heart and liver trouble, restored.
Isaac Thompson, La Center, Wash., deafness, cured in five minutes.
Bill Jones, Puyallup, Or., cured of polypus of the nose.

Mrs. A. E. Pate, Albany, Or., ovarial and womb trouble, cured.
Wm. M. Post, Troutdale, Or., almost total deafness, cured.
J. T. George, Glendale, Wash., chronic rheumatism, 5 years, cured.
Mrs. Mary A. Johnson, McMinnville, Or., deafness many years, cured.
C. F. Mayhew, 14 Market street, Portland, rheumatism, in its worst form, cured.

Henry Van Helms, Sandy, Or., cancer of the nose and catarrh, cured.
J. S. Jennings, Sellwood, Or., eczema or skin disease, 15 years, cured.
Mrs. T. B. Hatfield's boy, 24 Eleventh street, discharging ear and deafness, cured.
Jno. M. Simmons, Oukville, Wash., catarrh, bronchitis and nervous debility, restored.

Many others might be mentioned did not want of space forbid.

Dr. Darrin makes a liberal offer of treating the worthy poor free of charge daily except medicines between the hours of 9 and 10 a. m., in accordance with his time-honored custom.

Dr. Darrin makes a specialty of all the diseases of the eye, ear, nose, throat, catarrh, deafness, bronchitis, la grippe, consumption, heart, liver and kidney diseases.

He permanently cures all diseases of the genital-urinary organs in either sex, such as syphilis, blood taint, scrofula, gland, gonorrhoea, stricture, seminal weakness, spermatorrhoea, loss of mucus, and loss of desire of sexual power in man or woman.

All peculiar female troubles, displacements, etc., all confidentially treated, as well as all acute, chronic, private and nervous diseases, of whatever nature, if curable. Consultation free.

Office hours are 10 a. m. to 5 p. m. daily; evening, 7 to 9. Charges low and reasonable, according to circumstances and ability to pay.

THE TERRORS OF SKAGUAY TRAIL

Reports by the Willamette Say Only the Half Has Been Told.

MEN POISONED AT SITKA

Doctored Whisky Did the Work—Vigilance Committee at Skaguay—Only One-tenth Will Get Over Pass.

Seattle, August 25.—The steamer Willamette returned today from Skaguay and Dyea. A number of the Willamette's sailors deserted at Skaguay. The Willamette brings conflicting stories as to the condition of the Skaguay trail.

The city of Skaguay is described as a place of 5,000 people. For miles up the trail there are tents all along on both sides, but the greater share of the people have never been any distance at all up the trail. Rain and mud and discontent and confusion prevail everywhere. The men have a severe respect for the vigilance committee, but refuse to obey any authority when it comes to working on the trail. Buildings are going up rapidly and stores and saloons are opened every day. On the outside of one of the dance houses is a tree upon which several significant notices are posted, and from the limb of which dangles a new one-inch rope with a noose. This was put there by the vigilance committee and it is more effective than a hundred volumes of statutes against crime.

Three of the notices read: "Free dance tonight." "Packers wanted on the trail; apply to Mack & Co." "Saddle horses wanted; no cheap hat racks."

There are many restaurants at Skaguay but the fare is poor. While awaiting the Willamette was in progress an exciting incident occurred. At Skaguay about thirty men from ashore were employed to help unload. They took the places of the men who had quit and they heard that the fare aboard the Willamette was fresh beef. About that time the steward ordered a charge of oil on the boat to pack and burn. This was a change for the crew but it was decidedly distasteful to the new men, who had been living on those succulent dishes for several weeks. One bold fellow, after dinner, mounted the hurricane deck of the steamer, and drawing a four-barreled revolver in the air, announced that the next meal would contain a liberal supply of fresh meat or there would be a young graveyard started. No one seemed to take the announcement seriously, and at the next meal the bold fellow scrambled into the mess of pork and beans as meekly as the others.

According to some accounts the terrors of Skaguay trail seem to have been only half related. Thomas Stanton, who came on the boat, says: "The Skaguay trail is the worst place you ever saw. There is one place that seven-thorns don't seem to know about. They pile a pack on a horse and when the horse gets to this bad place the pack hits against the rocks and of course makes the horse step out to keep his balance. Down goes his feet and over goes the horse. I saw one mule turn three complete somersaults, and the owner never went after his pack or anything."

Purser H. W. Skimmer of the Willamette, says that only one-tenth of the miners at Skaguay and Dyea will get over the passes.

Arthur Needham of Shelton, Wash., made an examination of the trails.

"I went over with forty pounds," he said, "and in my judgment if a man has horses there is absolutely no reason why he should not get over before winter sets in. A man should use the White pass if he has horses; if not, he should take the Chilkoot."

Stamps are worth five cents each in Skaguay, and going up. Wages at packing are from 7 to 15 per day. Potatoes are scarce and bring \$2.50 to \$3 a sack. The Willamette brought down about 29 letters.

Sylvester Scoville of the New York World correspondent, had to pay \$100 for having his 30-pound outfit taken over the pass and down the river. Scoville expected to make the lakes in five days, and the Klondike in fifteen more.

W. R. Nelson, says that Collector Ivoy was making it warm for liquor sellers at Skaguay and Sitka. A raid was made the day the Willamette left and \$5,000 worth of liquor was seized.

Two Chitamen who went to Skaguay from Dyea in a small boat were promptly run out of the town.

MORE GOOD NEWS.

Victoria, August 25.—More good news has come from the Klondike by the steamer City of Topeka, which arrived tonight, leaving Juneau just after the arrival there of Joe Birch, James McKay and Archie Sheip, who made the

STILL AFRAID OF BRYANISM

So Says Governor of Bank of England Regarding American Securities.

GOLD EXPORTS IMPROBABLE

The Large Payments Coming Due for Wheat Will Be Mostly from the Continent and Not from England.

New York, August 25.—A World dispatch from London says: "I do not anticipate any private shipments of gold from England to the United States this autumn," said Hugh Smith, governor of the Bank of England. "There may be some from the continent—from France chiefly—but as far as England is concerned, I see no reason at present to believe we shall be sending away any considerable quantity of gold. We have a very fair harvest here," he continued. "Not enough, of course, for our wants, but more abundant than the average. Besides that, it is probable that the buying back of American securities by the United States will tend to equalize matters, redressing whatever balance there may be."

"I can't see any tangible reason for believing exceptional shipments are going. American exchange remains very firm for one thing, and the American bankers I have seen on the matter do not consider anything likely to happen to cause such shipments from England. There has been recently a substantial improvement in the market for American securities, due almost entirely to American buying."

"Has not the English investor renewed confidence in American securities?" "No, I should say not; there has been no change in that direction here. The difficulties of the Baltimore & Ohio has greatly tended to check any inclination there might have been. That was conceded among the soundest of American securities, and the trouble in connection with it has its effect."

"Then I may take it that the banking feeling here is that American securities are still uncertain, unreliable investments?" "Yes, there is a feeling that American finance is still in an unsettled condition. There has been no such restoration of confidence as would be calculated to make any difference in the impression that has prevailed for some time, and as to your original question, my view is that there is no ground at present for expecting any substantial movement of gold to America from England."

"But will there not be large payments coming due for wheat at its enhanced value?" "Yes, but mainly from the continent, but not from England, where the harvest has been almost a bountiful one, and to a large extent is saved already."

Francis Harlan, manager of the Boring firm, took a similar view.

BIG MINING DEAL.

Red Bluff, Cal., August 25.—The largest mining deal ever made in Tehama county has been concluded. P. B. Keatner and Henry Thompson, of Red Bluff, have bonded their copper and gold mines to a company of San Francisco capitalists, represented by M. C. Cooney. By the terms of the agreement the owners are to receive \$75,000 for their property, and the work of development is to be commenced within 30 days.

BIG RAILROAD DEAL.

Chicago, August 25.—One of the most important railroad deals of the year has been closed. By it the Union Stockyards & Transit Company comes into possession of the Chicago, Hammond & Western railroad, formerly owned by the G. H. Hammond Company, of Hammond, Ind. The consideration is estimated to be \$1,000,000.

MURDERESS ARRESTED.

Sacramento, August 25.—J. P. Jones, a colored man of Los Angeles, today swore to a formal complaint charging a woman named Doll Gomez with the murder of his brother, E. C. Jones, in this city on August 15. The woman is now locked up in the city prison.

The police say that the Gomez woman has been the cause of the death of three men—Frank Hossler, in Stockton; E. C. Jones, in Sacramento; and another person, name not known, at Cottage Grove, Oregon. It is claimed she was driven out of an Oregon town for living with a Chinaman. She is a white woman about 25 years of age.

KILLED BY A BED.

Chicago, August 25.—Al Hankins, a widely known sporting man, was killed today by the collapse of a folding bed. He had just entered his apartment and seated himself on the edge of the bed when it unexpectedly closed and his neck was broken.

BIG NUGGET FOUND.

Shasta, Cal., August 25.—A miner named Jim McCarter found a nugget today on Soda creek, four miles from Tavers, which weighed 120. The diggings where the nugget was found have been worked for 20 years.
