Our fraudulent bimetalists—those that call silver monometallism by a false name—say very often that France has more silver than we have. We have in the United States, silver, \$22,323,576; France has \$62,300,000 or we have more than France, \$40,376,528. That is what our criminality toward silver consists of in results compared with the only other great bimetallic country.

In 1882 a quarter of a million Germans immigrated to this country, and in '96 only 21,882. This year there is a further decline. The reason probably is that Germany is becoming a rich country. Some say this is caused by beet sugar, others by superior mechanical work. It is a fact, however, that the rapid growth of riches in Germany is coincident with the adoption and establishment of the gold standard.

The professional calamity howler is kept busy these days explaining that the high price for wheat is not due to the election of McKinley or the maintenance of the gold standard, but is entirely owing to the short crops in Europe. We have not heard of any shortage in the European crop of cattle or hogs or wool or hay or corn, and yet the price of all these products is nearly double what it was one year ago.

By October next Japan will have a gold currency. A circular issued by the Specie Bank at Yokohama announces that from that date gold will be paid for Bank of Japan notes. At the present time the most at Osaka is busy minting new gold coins, the twenty-yen coin being struck first. It is expected to mint 10,000,000 yen worth of subsidiary coins, including fifty-yen coins, within the year. The usual summer vacation of officials at the mint has been dispensed with in order to expedite the issuance of the new coins. It is learned that the Japanese government has decided to totally abolish the export duty from the commencement of the thirty-first financial year—that is, from April 1 next—and this in spite of the fact that the budget for the year shows a deficit of revenue. This decision has been taken with the view of encouraging the export trade.

The Astorian has been indirectly charged with unfair discrimination in the credit given to certain members of the committee which so successfully conducted the affairs of the late regatta. An appreciation of the real facts ought to quiet any further criticism of that sort. It was due solely to a conversation had with Mr. Peter Grant by an Astorian representative that the revival of that project was effected, after it had been explicitly and officially declared abandoned by the old committee having in charge—a decision that was acquiesced in by nearly everybody interested or concerned therein. It is also a fact that Mr. Herman Wise, as chairman of the finance committee, has left in his hands, after paying all current expenses and providing for every bill contracted, a surplus of \$100—an issue widely without precedent in previous Astoria events of that kind.

EVIDENCES OF GOOD TIMES.

Last Saturday's returns of bank clearings showed an increase for the week of 25 per cent in the total for the entire country. This tells the story of increased activity in business in unmistakable terms. This activity is not alone agricultural. Every branch of trade, retail and wholesale, is improving, and the industrial world is growing in activity day by day. We are fast approaching a general level, in all avenues of commerce and production, which marks "good times," even in the United States.

There is one point in the vast increase of bank clearings which must not be overlooked. It is, that a dollar's worth of business now means more than it means when applied to any previous year. There has been a steady cheapening in values of products in the United States since the panic of 1893, and conse-

quently a dollar's worth of trade activity means, in 1897, a larger volume of business than was measured by a dollar in any previous year of that period. So, when the fact confronts us that the total bank clearings of the country for the first week were 77 per cent larger than in the same week in 1892, it means that it only did it take that much more money to transact the country's business last week, but that the amount of commodities which changed hands was very much greater, because of the cheaper price now.

The money market still continues easy, in spite of the largely increased use due to the business activity. The reason of this is that, during the four years of depression, the country has gotten down to the bedrock. Credits have been liquidated, and farmers, merchants and manufacturers have gotten to as near a cash basis as possible. The economy forced upon them by the stress of hard times has compelled them to do this, and the result is the money is plentiful and has been ample, even for the trade revival.

As the business and industrial revival progresses, the vast sums which have so long lain idle in the bank vaults will be required by the extension of credit, and the money market will become dearer. Already it looks as though the Bank of England may be compelled to raise its rate of discount to check the heavy export of gold to the United States to pay for the vast importations of breadstuffs. In the event of an advance in the bank rate, the rest of the world will quickly follow, and higher interest rates for business loans be the rule.

This tide is running free for a most prosperous era. Launch out boldly, remembering that it is the tide which leads us to fortune.

RICHER THAN THE KLONDIKE.

Dr. Ernest O. Crews, accompanied by W. M. Scott, a mining expert, and Chas. J. Hall, of the Belding-Hall Manufacturing Company, New York, recently left Chicago, according to the Times-Herald, for Alaska. They go to the gold fields for the Arctic Mining and Development Company, which has offices at 806 Atwood building. Dr. Crews claims to know of a district containing more wealth than the Klondike and which is on American soil. The party will establish claims on the site Dr. Crews discovered in 1895.

"There is not a trading post nearer than 50 miles to the place where we are going," said Dr. Crews, "but we intend to establish one. I shall call the spot Netherland, after a pretty spot in England where I was born. And I am certain the population of Netherland will be greater than Dawson City or Circle City by next fall. I know how great in wealth the Klondike district is because I have been there, and I am positive the Netherland district has far greater wealth, and it is easier to get at. I am going now because I know the route, and how to get there. Others will not follow until spring."

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. It is really astonishing how much abuse it will stand. Sometimes, however, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Nine-tenths of all common sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, salivaceous, distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in their action. There is nothing injurious about them. Sold by all druggists.

Depression of Spirits

so common in summer-time, accompanied by loss of energy, lack of thought-power, means a deficient supply of nourishment. The vital force is lost. It isn't a question of muscle and sinew, but of resistance and endurance. At any age, but especially in youth, it involves the risk of lung disease. Loss of flesh and a cough are threatening signs.

Scott's Emulsion

of Cod-liver Oil, with the hypophosphites, meets these cases perfectly. It tones up, fattens and strengthens. In Scott's Emulsion the taste of the oil is fully disguised, making it almost as palatable as milk.

After.... Taking

a course of Ayer's Pills the system is set in good working order and a man begins to feel that life is worth living. He who has become the gradual prey of constipation, does not realize the friction under which he labors, until the burden is lifted from him. Then his mountains sink into mole-hills, his moroseness gives place to jollity, he is a happy man again. If life does not seem worth living to you, you may take a very different view of it after taking

Ayer's Cathartic Pills.

A REMARKABLE CURE OF CHRONIC DIARRHEA.

In 1882, when I served my country as a private in Company A, 16th Pennsylvania Volunteers, I contracted chronic diarrhea. It has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy, and after that I bought and took a 50-cent bottle; and now I can say that I am entirely cured. I cannot be thankful enough to you for this great Remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully, HENRY STEINBERGER, Allentown, Pa. Sold by Estes-Conn Drug Co.

If the clock in the kitchen stops the cook is sure to set it fully a half-hour fast, provided it happen to be her evening out.

A TRIED REMEDY FOR BILIOUSNESS.

Those who suffer from disorder or inaction of the liver will never get the upper hand of the unruly organ so long as they use such irrational remedies as blue pill, calomel and podophyllin. But from the tried and popular medicine, Hostetter's Stomach Bitters, they may expect relief with a certainty of obtaining it. The influence of the Bitters upon the great biliary gland is direct, powerful and speedily felt. The relief afforded is not spasmodic, but complete and permanent. The sallowness of the skin, furrowed appearance of the tongue, indigestion, costiveness, headache, nausea, pains through the right side and shoulder, in fact every accompaniment of the obdurate complaint are entirely and promptly removed by a course of this inestimable medicine, in behalf of which testimony is constantly emanating from every quarter, and from all classes of society.

Why is it that, strive as she may, the collar of the most advanced new woman does not get a genuinely masculine set?

It is always gratifying to receive testimonials for Chamberlain's Colic, Cholera, and Diarrhea Remedy, and when the endorsement is from a physician it is especially so. "There is no more satisfactory or effective remedy than Chamberlain's Colic, Cholera and Diarrhea Remedy," writes Dr. R. E. Robey, physician and pharmacist of Olney, Mo.; and he has used the remedy in his own family and sold it in his drug store for years. He should certainly know. For sale by Estes-Conn Drug Co.

Not all mothers-in-law are angels, but the majority of them are ever so much dearer and sweeter than they are painted.

"Let me give you a pointer," said M. F. Gregg, a popular conductor on the Missouri Pacific railroad. "Do you know that Chamberlain's Colic, Cholera and Diarrhea Remedy cures you when you have the stomach ache? Well, it does." And after giving this friendly bit of advice, the jolly conductor passed on down the aisle. It is a fact that thousands of railroad and traveling men never take a trip without a bottle of this Remedy, which is the best cure for bowel disorders in the world. 25 and 50 cent bottles for sale by Estes-Conn Drug Co.

THE OBJECTION NOT GOOD.

There are people who have objections to advertising matter in the columns of a newspaper. The ground of objection is that they do not want to read advertisements. Now this objection is not good, for oftentimes these advertisements convey valuable information. For instance, how else would the traveling public learn of the excellent dining car service of the Wisconsin Central lines between St. Paul and Chicago, or the general comfort of traveling over this popular line.
