

SENATOR TILLMAN AT ROCHESTER

HE ADVISES NEW YORK DEMOCRATS TO STAND BY BRYAN AND FREE SILVER.

McKinley's Bimetallism Commission Ridiculed and "Government by Injunction" Handled With His Fitchfork.

Rochester, N. Y., September 7.—Senator Tillman was the orator of the Labor day celebration of the Rochester trades unions. His subject was "Labor and Capital in their Relation to Politics."

Referring to the injunction granted against the striking miners, the senator very severely criticized the judges who granted the order and asserted that until an end was put to "government by injunction" there could be no liberty in this country.

The speaker ridiculed the bimetallic commission and deplored the spectacle of the United States going to European countries and begging for bimetalism. It would be just as sensible to ask for an international agreement in passing tariff laws, he said, as to ask for an international monetary agreement.

SECRETARY WILSON RETURNS Predicts there will be a Still Further Advance in Wheat.

Washington, September 7.—Secretary Wilson was at his desk in the agricultural department today for the first time in a month, having returned from his tour of the trans-Mississippi states. He went as far west as Montana and Utah, giving special attention to the agricultural interests of the states visited with particular reference to irrigation, horse raising and sugar beet growing.

"I found the farmers in especially good spirits wherever I went," he said to an Associated Press reporter. "There is no doubt that confidence is restored and that the country is justified in its anticipation of better times. People are busy in the West. Indeed, I do not believe there is an idle man west of the Mississippi river who wants work."

Mr. Wilson predicts a still further advance in the price of wheat, due to the fact that there is not only a short crop abroad, but also because of the fact that according to his observations the crop will not be so extensive in this country as has generally been anticipated.

"With the improvement of times the average American is going to have all the flour his family can consume, even though it may have to pay a little more for it. I believe that even without the shortage in foreign crops, conditions in the country would have forced wheat to a dollar a bushel."

"But," he added, "the improved condition of the farmer is due not alone to the enhanced price of wheat, but there has been a corresponding improvement in all crops."

CALIFORNIA SILVERITES Los Angeles, September 7.—Provisional state central committee of the silver republicans will meet in this city on Thursday for the purpose of establishing the party in permanent form, so that it may hereafter be prepared for active campaign work in California.

"KLONDIKE OR SINK" Schooner to be Fitted Out in Chicago for Yukon.

Chicago, September 7.—"Klondike or sink" is the motto of the members of an expedition which proposes to navigate from Chicago to the mouth of the Yukon river in the schooner George Sturges. She will sail from Chicago in about a month, manned and provisioned for a trip of six months' duration. At the end of that time, if all goes well, the craft will be among the icebergs in Behring sea and the doughty mariners will be getting ready to ascend the Yukon in the spring.

headed by Adolph Pretlach, captain of the little yacht Nina, which crossed the Atlantic. It will sail down the great lakes and the St. Lawrence river to the Atlantic and thence south, rounding Cape Horn and up the Pacific coast to the Yukon. She will be left there, while the crew starts for the gold fields, and when the crew comes to return she will serve as treasure ship to bring back the nuggets.

COHN DAMAGED.

Macon, Mo., September 7.—Excessive heat and dry weather for the past fifteen days will play havoc with the corn crop in this section. Creeks are running low and cattle will soon suffer for water if relief does not come from the clouds.

THE LETTER CARRIER.

San Francisco, September 7.—The National Convention of letter carriers, which opened so auspiciously last night, will hold two business sessions today. President Parsons will tonight deliver an address and Postal Inspector James W. Erwin will give a stereopticon lecture entitled "A trip through California."

Delegates will be taken tonight to the chutes and through Chinatown. The Ladies' Auxiliary is attending to the ladies who have come with the delegates. On their program for today is an afternoon visit to Golden Gate park, starting from the Baldwin hotel at 2.30, and a night trip through Chinatown, starting at 7.30.

MORE ABOUT COOPER.

San Francisco, September 7.—Chief of Police Lees has received further information regarding the Chicago record of "Sir Harry" Westwood Cooper. He secured from Mrs. Murphy, his landlady there, \$1.00, taking her check in exchange for worthless drafts on the Bank of New South Wales. Her attorneys, Dunn & Byron, learning of this, warned her that Cooper was a swindler, they having had some experience with him. Instead of heeding their warning she turned their letters of warning over to Cooper.

BOXING CONTESTS.

San Francisco, September 7.—The fight between George Lavigne and Joe Walcott has practically been arranged. Occidental Club made a bid of 75 per cent of the gate receipts, which was quickly accepted by both parties. Both men will weigh in at 126 pounds some time during the afternoon of the day set for the fight. Date has not been named, but will be about November 1.

Solly Smith and George Dixon have again signed articles, having settled their dispute about a referee and the division of the gate receipts. Both will meet October 14 at 120 pounds.

Steamer Alliance arrived in yesterday from San Francisco with freight for Astoria and Portland.

The tug Relief will go on the ways at the Smith's Point shipyard today or tomorrow, where she will undergo needed repairs.

From San Francisco, yesterday, the steamer State of California arrived with a fair passenger list and the usual amount of freight for Astoria and Portland.

Laura May, the counting schooner from San Francisco, discharged ballast yesterday at the Parker House dock. She will load lumber in Portland.

A number of deep sea vessels are due in the Columbia river, and it is anticipated that this will be one of the largest shipping seasons Oregon has ever known.

PERU GOING TO THE GOLD BASIS

A FINANCIAL SCHEME SIMILAR TO HOLLAND WILL BE ADOPTED.

Silver Coin Will Still Be Legal Tender, But Its Value Will Be Fixed By The Gold Standard.

New York, September 6.—A Herald dispatch from Lima says it is likely the Peruvian government will adopt a financial scheme similar to that of Holland; that is, silver coin will be a legal tender with unlimited circulation, but its value will be fixed on a gold standard basis.

From the single standard system, Holland, in 1816, adopted the double standard upon a ratio of 15.75 to 1, and again returned to silver in 1847, and again to the double standard in 1875. The unit is the florin, or the guilder of 100 cents, the full legal tender pieces being the ten and five florins of gold and the half florin rixdaler of silver.

The weight of a florin in gold will be 572 of a gramme, or 19.37 grains .999 fine. The silver florin is 345 fine and weighs ten grammes. Accordingly, the gold florin equals 62 cents and the silver florin 39 cents.

The coinage of silver is on government account only since December, 1887. Paper money is furnished by the government to the extent of 15,000,000 florins, said to be entirely covered but apparently not by coin.

COLD-BLOODED MURDER.

Colorado Springs, Col., September 7.—An unknown man's body was found in a one-room frame shack in this city last night, surrounded by indications of cold-blooded murder, followed by careful concealment of the crime. Decomposition had already set in, so that the body could not be recognized, and it was entirely nude and lying on the floor of the shanty a short distance from a cot. The house had been occupied by a man named Schmitt, who traded in old clothes. The only clue to the identity of the man is that he is the large framed to be Schmitt.

JOE SHANNON DEAD.

New York, September 7.—Joseph W. Shannon, formerly a well known actor, is dead, aged 61. In his prime he was a member of the James O'Neill and Rose Cogan companies.

St. Louis, September 7.—The heat has been intense throughout the different sections of the state during the past week or more, and this, combined with the scarcity of moisture, is drying up the corn and causing suffering among the cattle. Spectals from the following places have been received:

Centralla, Mo., September 7.—This section is now undergoing one of the severest droughts in its history. Late corn is greatly damaged, pastures are giving out and stock water is becoming very scarce.

A LARGE CARGO.

Portland, September 7.—British ship Craterine, the first of the season's grain boat, left down river today for Queens-town with 1,119.321 bushels of wheat.

Smith, Prineville, Oregon—Womb, kidney, stomach and head troubles to that extent that she was almost insane; permanently cured. Drs. Darrin can be consulted daily until September 15th at the Occident Hotel, Astoria, from 10 a. m. to 5 p. m.; evenings from 7 to 8. All chronic diseases, blood taints, loss of vital power and early indiscretions permanently cured, though no references are ever made in the press to such cases, owing to the delicacy of the patients. Examinations free to all, and circulars will be sent to any address. Charges for treatment according to patient's ability to pay. The poor treated free of charge from 5 to 10 except medicines. All private diseases confidentially treated and cures guaranteed. Patients at a distance can be cured by home treatment. Medicines and letters sent without the doctors' name appearing.

WHEN WE DEMORALIZE THE STOMACH

By excesses or imprudence in eating, we cannot hope to escape the consequences for any great length of time. The most robust digestion must succumb to abuses of that important function. But supposing that we have been foolish enough to enfeeble the stomach, is the damage irreparable? By no means. The dyspeptic has only to do two things to insure his ultimate recovery. First, he should adopt an easily digestible diet. Second, he should use with regularity and persistence, Hostetter's Stomach Bitters, the leading gastric invigorator of the age. The multifarious symptoms of dyspepsia, and the almost invariable attendant disorders, biliousness and constipation, will assuredly cease to persecute the sufferer if the above advice is attended to. Who that has suffered the torments that chronic indigestion inflicts will neglect to take advantage of a remedy which, if the most positive evidence of the medical profession and the public is to be received with due credence, is an absolute specific for the complaint.
