The Alice Cook's officers say that if the earth affords a more lonely or desolate spot than St. Michaels, it has not been their misfortune to land in it in all their careers as seafaring men.

Dr. Fulton reports Claud E. Hanthorn improving very rapidly. The burns received during the fire on board his launch while very severe, will not keep him confined to the house more than a few days.

B. F. Allen has purchased from Joseph Suprenant the building on Commercial street formerly occupied by William Pohl as an undertaking establishment. Mr. Allen will thoroughly repair and renovate the building before leasing it.

John J. Kenney, who was arrested Wednesday night on a complaint of William Martini for assault and was released on $25 bail, failed to appear before Justice Abercrombie yesterday for trial. The case was postponed indefinitely.

Recorder "Jack" Williams does not look the same since his recent trip to Portland. He has a strange air about him—a sort of married-man appearance. He denies that he has ever even entertained a thought of double-blessedness, and says that if he has changed any it is the new style cody that does it.

Engineer Tea states that the tunnel now being run under the block on which is located the home of C. W. Fulton will prove of vast benefit to the property in the vicinity. It will prove a thorough drain and will do away with a great deal of sliding that has occurred regularly every winter in that neighborhood.

The Relief will go on the Smith's Point ways in a day or two for a thorough overhauling. Heretofore this sort of work has been done at San Francisco, and it speaks well for Astoria that the work can now be done here. All praise is due to Mr. Fox, however, for it was his pluck and spirit that gave to Astoria suitable ways for docking such vessels as the Manzanita and Relief.

Astorians will be pleased to know that the Nashville Students, who will sing in the M. E. church on September 28th and 29th, are the original jubilee singers who have almost a world-wide reputation. If there is such a thing as perfection in music they will produce it in their sweet plantation melodies and old-fashioned camp meeting songs.

City Attorney C. J. Curtis returned yesterday from Seattle, where he has been arranging for transportation to the Klondike. On account of the strict regulations of the Canadian mounted police, Mr. Curtis is undecided about venturing over the line, and it is just possible that he will go only up to Chilkoot and keep the rest of the Astoria delegation company during the winter.

Yesterday the new lightship, commanded by Captain W. E. Gregory, of the Manzanita, was taken outside and anchored off the mouth of the river in about the same position as that of the old vessel. The latter vessel was towed inside by the Columbine and taken to the buoy depot, where she will remain until wanted by the contractor for repairs. Columbia lightship No. 50 has stood quite a long seige outside and deserves a rest.

Col. H. B. Borthwick, proprietor of the Goble Lumber Mills, was in the city yesterday looking after his interests here. Mr. Borthwick is noted as being one of the greatest rustlers after business on the coast, and it is said that he can eat, sleep and correctly figure out a bill of lumber at one and the same time. Be that as it may, Mr. Borthwick never loses a chance to place his goods on the market, and although his mill is slightly outside the corporate limits of the city, Astoria claims it as a home institution. His lumber finds a ready market in Astoria ,and Astoria merchants reap the benefits of the trade from his mill and logging camps.

Many carloads of iron have been transferred east of the John Day river within the past two days, so that now enough material is on hand to keep the tracklayers busy for some time to come. The new drawbridge will be placed in position at once, so that there will be no delay in the work east of the river. From present indications the railroad will be completed long before the people of Astoria hope for or expect, though it is not known whether or not Mr. Hammond will make any effort to handle any of the 1897 wheat crop over the new line. It is said that as soon as the road iscompleted the car shops will be moved down from Corvallis and rebuilt at a point between Warrenton and Flavel.

Another expedition is being arranged for the Alaska gold fields, and if everything goes well, a well-provisioned and well-manned schooner will sail from Astoria about the first of next month. Astoria and San Francisco people will make up the party, and their present destination will be Cook's Inlet. Already an agent of the party has started negotiations for a schooner now at Portland, and in all probability the vessel will be purchased and immediately overhauled. There is a great deal of talk just now about the islands west and north of Juneau, and it is the opinion of many that if they were carefully prospected gold would be found in abundance. It is just possible these gentlement will take a look over the islands while in that vicinity.

"She starts, she moves, she seems to feel a thrill of life along her keel." It was so with the good old steamship Manzanita last night, for after adjusting the carriage under her and giving the ways and extra daub of grease, she slipped off into the water like a thing of life. The Escort was on hand with a nawser ready to lend any aid necessary, but when all was in readiness and the blocks were knocked away it was found unnecessary to give her even the slightest pull. In fact, the tug had to keep a smart lookout to keep from being run down. The Manzanita was launched at low tide, and at high water this morning will be towed out and brought around to the iron works for her machinery.

change was called to his attention and he believed then and believes now that it is all right and that there was no trick or misunderstanding in the matter.

Other replies contain various references to the manner in which the bill passed, some complaining that it was "rushed through," others that it was "smuggled in," and denying all knowledge of the clause in question.

THE EUGENE'S PASSENGERS.

Judgment Obtained for Their Passage Money Against the Steamer.

Victoria, B. C., September 9.—The passengers and crew who went north on the steamer Eugent and returned on the Bristol have obtained judgment against the Portland & Alaska Trading & Transportation Company for the amount of their wages and the amounts the passengers paid for fares. Davidge & Co. have been restrained from paying any moneys held by them to the Portland company. There seems to be no redress for the Bristol's passengers, they being unable to find out just who the charterers are. Victoria merchants, however, are interesting themselves and will endeavor to extricate the passengers from their unfortunate position. Some men are talking of chartering a steamer to take them to St. Michaels, others going in by the stickeen route and some by the Skaguay trail.

DREADED YELLOW JACK.

New Orleans Atremble for Fear the Fever Will Spred.

New Orleans, September 9.—Up to 3 o'clock tonight there has been no change in the fever situation. Two or three serious cases have been reported to the board of health, a material falling off from yesterday, when there were 37.

These were investigated with the usual results. This evening Dr. Oliphant and his corps realize that they have but one battle tonight—that of preventing any more importations from coast towns—Biloxi and Ocean Springs.

News from Mississipp sound was satisfactory today and disappointing—satisfactory in that Dr. Guiteras and the other government experts had declared that yellow fever existed at Ocean Springs and Biloxi, confirming the argument of Dr. Oliphant and his associates, and disappointing because the fears of the public have been realized.

Late this evening the three cases reported as existing at Biloxi were confirmed as yellow fever by Drs. Murray and Grant, after a careful investigation. They are thoroughly isolated and it is confidently predicted that the spread of the contagion will be prevented.

OHIO DEMOCRATS MEET.

Attendance Much Smaller than a Year Ago.

Columbus, O., September 9.—Attendance at the state convention of national democrats was limited to probably 50 delegates. Leaders of the party express themselves as well satisfied, however, and attribute the small attendance to the fact that business men generally are less apprehensive on the money question than a year ago. The fololwing state tickets was nominated:

Governor, Julius Dexter, Cincinnati; lieutenant governor, Emerrill, Sandusky; judge supreme court, Judge John H. Clark, Youngstown; attorney general, Daniel Wilson, Cincinnati; state treasurer, Samuel Stevens, Columbus; state commissioner of schools, Prof. W. H. Johnson, Danville; member of state board of public works, Henry D. Coffinoery, Cleveland.

A BATTLE FEARED.

Leaders Among the Pueblo Indians will Be Arrested.

Santa Fe, N. M., September 9.—Major Nordstrom, United States agent in charge of the Pueblo Indians, returned this morning from Zuni Pueblo, where he has been examining into a peculiar case. Under the influence of Chief Niope, and backed by the religious organization in the village known as "the priests of the bow," the most barbarous outrages have been committed by these Indians from time on time. Their last offense occurred when they suspended by the wrists a female member of the tribe aged 78 years and extorted from her a confession to the effect that she had bewitched the nostrums of the medicine man and prevented them from curing an Indian of a painless.

Major Nordstrom says the only motive for assaulting the woman was to strengthen the hold of the medicine men and their colleagues, the priests of the bow, upon their superstitious followers. The woman's life was saved by kindly nursing and it is the intention of the agent to arrest and punish the ringleaders in the assault. To this end and in compliance with Major Nordstrom's recommendations, the interior department has called upon the war department to concentrate four troops of United States cavalry at Zuni on the 15th inst., with a view to aiding the civil authorities in the arrest of Chief Niope and five of his associates. It is thought that a battle will follow the invasion of the village by the troops on Wednesday next.

The Zunis number some 1500, and can muster about 250 warriors, who are well armed with Winchesters.

Their village is a veritable fortress, built especially for protection against the Apaches and Navajos.

SAILORS BECOMING SCARCE.

San Francisco, September 9.—It is almost impossible to secure deep water sailors at this port. Five grain laden ships have been lying at anchor in the stream for several days waiting for crews to enable them to depart. Scarcity of seamen is due to the increased demand caused by the rapid shipment of wheat, and to the fact that many sailors have joined in the rush to Klondike.

LOW EXCURSION RATES TO THE OREGON STATE FAIR.

The Southern Pacific will make a one fare rate from all points on their lines in Oregon to the Oregon state fair which opens September 30 and closes October 8. A big harvest and a big fair. A clean, vigorous, delightful and comprehensive exposition of everything pertaining to the farm and the farmer. Good races and amusements of all kinds. Special attractions every day.

With the present crop prospects and the extremely low railroad rate to one fare for the round trip, the people of Oregon can afford to patronize the State fair that benefits all classes.

It tells of the richest and most extensive gold fields the world has ever known—How they were discovered—Fields yet unexplored—Ten years' work already in sight—Where is the mother lode? —The fortunes already made—The millions to be taken out next year—How to get there—R. R. fare and other exxpenses from all points—Medical hints—Climate—Official maps—Government reports—All land and water routes—Projected railroads—Mining laws—Customs. Reports from agents just started show wonderful success. Sales run as high as 20 books an hour. Big commissions and valuable premiums are allowed. Credit is given and freight paid. It is an opportunity to gain a competence in a short time. The book is not sold through book stores or newspapers. Complete canvassing outfit will be mailed for 20 cents, stamps. By virtue of an execution and order of sale issued out of the Circuit Court of the State of Oregon for the County of Clatsop, on the 15th day of July, A. D. 1897, upon a judgment and decree rendered therein on the third day of July, 1897, in favor of C. E. Bayles and C. G. Palmberg, plaintiffs, and against the Flavel Hotel Company, and in favor of defendants, Hand Manufacturing Co., J. P. Rasmussen, A. S. Gillispie, Oregon Pine Lumber Company, G. B. Rate, and O. F.
