NO. 37.

Creditor's Sale Osgood Stock

While this sale lasts the greatest bargains ever offered may be had, and the sale will not last a great while longer, as prices have been put on the goods that are bound to make them sell quickly. It is not every day that you can get a \$15 Suit for \$5 to \$8, or a \$3 Hat for \$1.50, or a pair of \$2.25 Shoes for \$1.40, and while the opportunity lasts anyone needing anything in this line should take advantage of it, as A DOLLAR SAVED IS A DOLLAR MADE.

If you do not wish to buy, come in and see the prices, and then tell your friends how cheap goods are being sold.

Red Hot Ones

"YELLOW JACK" IS INCREASING

Eight New Cases and One Death in New Orleans.

HOTTEST DAY OF THE MONTH

Outlook Discouraging, but No Relaxation of Effort on Part of the Authorities.

New Orleans, September 17.—The fever situation in New Orleans today assumed a somewhat more serious aspect than at any time since Sunday when the Claude case was declared to be yellow fever. The board of health announced the appearance of eight new cases and of one death, that of Zena Brauns. At the office of the board of health today reports were considered somewhat surprising and disappointing.

Yesterday was about one of the hottest days of the month, and as yellow fever thrives in that kind of weather, there seems to have been a rapid development of the germs. The new cases today represent the extreme upper, extreme lower and central portion of the city. There has been no relaxation of the efforts of the authorities to control the disease. The situation was somewhat easier at Ocean Springs. Three cases, however, were reported.

The report of the board of health at Elkhart today says that there are nineteen cases of actual yellow fever under treatment, with diagnosis reserved as to twelve cases. There were seven new cases reported in the 24 hours ending yesterday. The doctors at Elkhart are tempted to no longer class cases as suspicious, but to come out boldly and say that they are yellow fever. The New Orleans board announced that many of the other cases of yellow fever that have been reported are rapidly progressing toward recovery.

LIGHTNING STROKES.

There are few people who would care to be struck by lightning, and Jennie Pierce, of Pina Point, Va., was one of these. She was struck a few days ago, however, and rendered unconscious for some time, but since she recovered her senses, she is very glad that it happened. The reason is that, after being totally deaf for ten years, she can now hear as well as any one, the change having been caused by the shock.

The application of electricity in another form by a skilled hand does not shock the most delicate system though equally effective in curing deafness and other diseases. Dr. Darrin now located in Astoria at the Occident hotel until October 1, is treating many cases daily and that they do not ask relief in vain is demonstrated beyond a doubt by the following cures. He treats all chronic acute and private diseases with the same success:

A MOST REMARKABLE CASE.

Deafness Cured in Ten Minutes by Electricity after All Other Methods Had Failed.

Editor Oregonian:—Since 13 years old (I am now 29) I have been troubled with deafness. Of late I could scarcely hear anything from one ear, and the other was partially deaf. The cause of the deafness was discharging ears. All known remedies to science failed to cure me, until Dr. Darrin treated me with electricity and other remedies. I was perfectly cured of deafness and ringing in my ears in ten minutes. Refer to me at Hallston, Or., where I am working on a farm for Mr. Noah Grege.

J. S. McALISTER.

State of Oregon, County of Multnomah, ss. I, J. S. McAlister, first being duly sworn, depose and say that the foregoing statement of the treatment and cure of deafness set out in the foregoing statement signed by me is true.

J. S. McALISTER.
Subscribed and sworn to before me this twenty-seventh day of May, 1896.
C. J. McDUGALL,
Notary Public for said County and State.

Alford, Texas.
Dr. Darrin—Dear Sir:—I write to inform you that my son David is cured. I received your medicine by letter the 13th of April and commenced treatment the 14th, and his ears quit running in a few days and he can hear just as good as any child. I shall never forget your kindness and benefit to my child. Please accept my gratitude.
A. L. NOKER.

Mr. Editor:—For years I have been gradually growing deaf, until about one year ago I became almost totally deaf in one ear and the other partially so. Dr. Darrin cured me June 21 in ten minutes by his new mode of cure by electricity.

WIDOW SUICIDES

New York, September 17.—Mrs. Olga Norr, the young and pretty widow of Wm. Norr, a popular newspaper writer, was found dead in her bed this morning. Clipped in her left arm, close to her breast, was a packet containing the ashes of her husband, whose body had been cremated at his death, a month ago. Unable to live without him, she had surrounded herself with those things which reminded her most of her husband, and clasping the urn to her breast, had turned on the gas and joyfully waited for the end.

SETTLEMENT OF A LARGE ESTATE

MRS. HOTCHKISS OF NEW YORK WILL RECEIVE MANY MILLIONS.

Affairs of New York and Westchester Water Company Wound Up in Court—New Bonds to Be Issued.

New York, September 17.—The World says: The suit of Moses Crow, representing the New York and Westchester Water Co., against Maria N. Hotchkiss and the late Joseph Richardson, involving millions of dollars, which was tried before Justice Lawrence, has been settled as far as Mrs. Hotchkiss is concerned, an understanding it is expected having also been arrived at with the Richardson estate. By the terms of the settlement Mrs. Hotchkiss will receive, in addition to her present holdings of \$4,000,000 of the stocks and bonds of the Westchester Water Company, the New York City Distributor Supply Company and the Upper New York Water Company, with further blocks of \$9,000,000 of the securities of the Westchester Company. An issue of bonds to the amount of \$1,000,000 will be made for the improvements and for the settlement of the company's indebtedness. Mr. Crow will become manager of the company.

Mrs. Hotchkiss, widow of the gun inventor, is over 70 years of age. Joseph Richardson, who died a few weeks ago, was 52. He left over \$9,000,000 to his widow and daughter, which they are negotiating for.

LAWYERS BROKEN.

Denver Mining Company Gets into Trouble.

Denver, September 17.—Attorney-General Carr called the attention of District Attorney Haynes to an alleged violation of the laws by the Senator Mining & Milling Co., and urges him, if investigation bears out the charges to institute criminal proceedings against the offenders.

The officers of the company are Theodore Stegner, president, and P. E. Burrows, secretary. The company in its prospectus and pamphlets publishes a sworn statement that its capital stock is \$5,000,000, but the records of the secretary of state show that it is but \$1,000,000. The law requires the filing of certificates and payment of a fee when the capital of any company is increased after incorporation, but the Senator people appear to have neglected this. For doing so they may be compelled either to forfeit their charter or pay the secretary of state an additional \$900 as a fee for raising the amount of the company's stock to \$5,000,000 to say nothing of criminal proceedings.

COUNTERFEITERS CAPTURED.

Valparaiso, Ind., September 17.—Major Carter, of Indianapolis, Thomas B. Forster and A. L. Callagher, assisted by Sheriff Green, made one of the most successful captures of counterfeiters in years in the arrest of Henry W. Brown, a photographer of this city, and Theodore Hanson, a farmer. The entire outfit for making money, together with one, two and five-dollar bills of their work, were secured. Brown is said to be an anarchist and was intimate with Parsons and others of the anarchists at the time of the Haymarket riot. Other arrests may follow.

SEAL HUNTERS.

Rare White Seal Found by Captain Neilson.

San Francisco, September 17.—The hunting seaborner Rattler has arrived from the Arctic, having secured 25 sea otter skins and 100 fur seals. Captain Neilson declares that others at 4000 were very scarce. He got one skin that is entirely white, the only one ever taken, according to the hunters. The conventional color of the sea otter is black.

STRIKE SITUATION GROWING CRITICAL

Men at Hazleton Still Out and Violent Outbreaks Have Occurred.

BIG MASS MEETING TONIGHT

Will Not Be Interfered With Unless Inflammatory Speeches Are Made—Agitators Will Be Watched.

Hazleton, Pa., September 17.—The strike situation tonight may be summarized thus: Over 10,000 men are still out, with no apparent prospect of settlement; sporadic outbreaks of violence are occurring near the outlying colonies, and the withdrawal of the troops is not only without consideration, but the guard lines of several camps are being constantly strengthened, and the wisdom of bringing cavalry is discussed.

An uneasy feeling prevails at headquarters in consequence of the little outbreaks of the past few days, and the indication they hold of underlying disturbance. The brigade commander admitted today that the action of raiding the women was giving him much unpopularity. He does not care to use force against them, and has instructed the soldiers, in case of necessity, to use only the flat of their sabres upon the Amazons. The story reaches the general that yesterday men were in the attacking crowds of yesterday and today, disguised as women.

The call for troops, which came from Cranberry at 2 o'clock this morning, was the act of the night watchman who mistook the soldiers for strikers. All dynamite that can be found in the region is being collected and stored to keep it from the hands of the miners, and 100 men from the Ninth Regiment were sent to guard the house. The watchman saw lights and moving figures, took his nerve and telephoned that an attack was threatened.

Last night a body of strikers at Latimer No. 2 quarrelled among themselves, and bloodshed was threatened, but Company E of the Thirtieth Regiment, which is camped at Latimer, restored quiet.

Deputy Coroner Bowman will be the highest over the bodies of the dead miners next Wednesday. Over one hundred witnesses will be examined.

General Gobin will not interfere with tomorrow night's big mass meeting unless highly colored speeches are made. The principal speakers are to be P. J. McGuire, vice-president of the American Federation of Labor, and George Chance, of the United Labor League. As a precautionary measure a guard of soldiers will be present. Organizer Fabey, and other leaders, have asked that the militia be withdrawn and General Gobin has advised them that the speediest way to accomplish this will be to stop holding mass meetings and thereby exciting the people.

The only changes in the strike situation today was the return to work of 200 employees of Cox's Beaver Meadow colliery. The miners say this is only temporary and that if the other Cox men at Drifton and elsewhere decided at their next Monday meeting to go out, the Beaver Meadow men will join them.

CREEDON'S BENEFIT.

Several Boxing Contests in St. Louis Fur-nish Amusement.

St. Louis, September 17.—While the benefit given last night at Armorey hall to Dan Creedon, the pugilist who returned recently from Europe, was not a success financially, the friends of pugilism in this city were much pleased with the result, for the police made no interference, as had formerly been the case. The program consisted of boxing and wrestling bouts, feats of heavy lifting, etc. In a boxing bout between Fitzsimmons and Connors, both of Springfield, Ill., the latter had his right wrist broken. Three rounds were boxed by Creedon and Joe Choyanski. Heretofore the police have interfered with all boxing matches held in St. Louis and the local sporting fraternity were afraid that they might do so last night. That the police did not have given them much encouragement and will make an opening for more such events in the future.

WARRANTS FOR THE FAIR.

Salem, September 17.—(Special to the Astorian.)—Secretary Kincaid has decided to draw warrants for state and district fairs. Treasurer Metchan says he will pay the warrants, which will amount to \$5,000.

DISMAL SWAMP BURNING.

Norfolk, Va., September 17.—The great Dismal swamp of Virginia and North Carolina, covering an area of perhaps 400 square miles, is on fire from one end to the other, the result of an unprecedented drought and excessively hot weather. No one inhabits the swamp but wild animals, therefore no attempt will be made to check the flames. The smoke is so dense that the crew and passengers on an incoming train were nearly stifled. Forest fires are also raging in adjoining counties, and unless rain come soon, crops will be burned up. The loss and suffering may result in some loss of life.

CHINA SUCCESSFUL.

London, September 17.—According to a special dispatch from Shanghai, the French missionary stationed at Balaing on the river Dchu, in the northeast part of the province of Szu Chuan, on the borders of Tibet, writes that the Chinese have suppressed the revolt of the Lamiasa, subjugated Tibet and have organized a government with Chinese administrators.

THE NEW STAR OF LIBERTY ARISES

SIR WILFRED LAURIER, PREMIER OF CANADA, SPEAKS AT A BANQUET.

Will Teach Emigrants to Sing 'God Save the Queen'—To Cultivate Friendship With the United States.

Montreal, September 17.—Sir Wilfred Laurier, premier of Canada, and the representative of Canada to the queen's jubilee, is being entertained by the board of trade. At a banquet, after treatment of the denunciation of the German treaty and stating that Canada had attained its status as a nation, he pointed out that the American republic had been the center of attraction for all Europe. Touching the prestige established by the war of independence and the first establishment to democracy he said a new star of liberty had risen in the West, and whatever the Americans could claim the Canadians could claim also. The day was not far distant when the tide of immigration to the states would be reversed and Canada would teach those welcome emigrants to sing "God Save the Queen." This would be a guarantee of peace. They would learn there was as much or more liberty under the monarchical institutions in Canada as under the American republic. Ninety per cent of our products went to Europe by American ports, but that state of affairs must be reversed. The St. Lawrence was the natural outlet of America for trade with Europe. He hoped to some day discuss this question before an American audience and to bring about more friendly relations between the two nations.

TO UNITE FORCES.

Colorado Pops and Democrats Will Join Hands Against the Republicans.

Denver, September 17.—It is expected that a conference will be held between the democratic and populist leaders with a view of uniting the silver forces of the state in opposition to the administration republicans. An informal conference was held last night to discuss the situation. The proposal to withdraw the democratic and populist candidates for judge of the supreme court from the race and allow them to select candidates of the administration who would unite the silver forces of the state in opposition to Judge Hayt, the candidate of the administration wing of the republican party, met with favor in the democratic camp, and will be submitted to the populist committee.

POSTAL FRAUDS.

Denver, September 17.—The postoffice inspectors' officers here believe they have unearthed a scheme to defraud the government. Postal cards supposed to be counterfeit, have been found in the Denver mails and arrests are likely to follow. It is claimed that the cards are sold in large quantities to merchants and investment houses, and immense profits are being realized. It is suspected that at least one of the operators is hoisted in this city.

WARRANTS FOR THE FAIR.

Salem, September 17.—(Special to the Astorian.)—Secretary Kincaid has decided to draw warrants for state and district fairs. Treasurer Metchan says he will pay the warrants, which will amount to \$5,000.

TROOPS WILL GO TO ST. MICHAELS

Captain Ray Reports Their Presence There a Necessity.

ALGER ISSUES THE ORDERS

Transportation Arranged for the Troops—Expedition to Klondike by Hudson Bay Company Route.

Washington, September 17.—The report from Captain Ray, the army officer who was sent to Alaska to investigate the condition of affairs there, formed the basis of the cabinet decision today to send a force of soldiers to St. Michaels at the earliest moment. Captain Ray's advice were of date August 27. He went to St. Michaels to take the river steamer for Circle City. His report showed that without doubt suffering must be experienced in the Klondike region this winter, owing to lack of food supplies. Further details on that point were promised at a later date. He regarded it as essential that some one acting under lawful authority be placed at St. Michaels to restrain the lawless element.

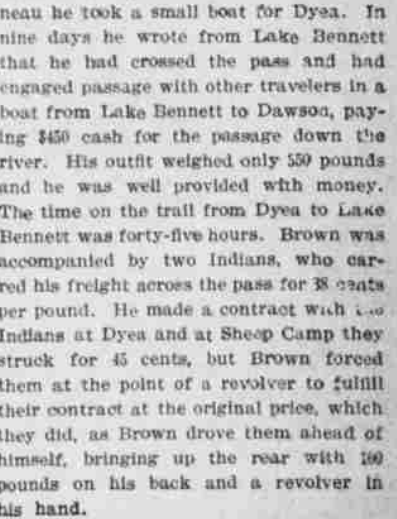

Secretary Alger this afternoon gave orders for the sending of troops. There will be only 25 infantry, and they will be sent from Fort D. A. Russell, where Captain Ray had made a selection of hardy men to accompany him when he was about to go north. These men will be under the lead of Lieut. Colonel Handall, now at Cheyenne, and there will be a surgeon and four members of the army hospital corps, because of the reports of prevailing sickness in Alaska.

Secretary Alger has managed to overcome the difficulty in the matter of transportation by means of telegraphic correspondence with President Waite, of the Alaska Transportation Company. That gentleman has informed the secretary that the company will start a boat from Seattle for St. Michaels within the next seven days. This boat will take up mainly food and clothing supplies, but the troops will be taken also if the war department desires it.

QUICKEST ON RECORD.

Port Townsend, September 17.—A letter received here this morning shows that David E. Brown, former mail carrier here, has broken the record in crossing Chilkoot pass. Brown left here for Juneau on the Queen August 29. From Juneau he took a small boat for Dyea. In nine days he wrote from Lake Bennett that he had crossed the pass and had engaged passage with other travelers in a boat from Lake Bennett to Dawson, paying \$450 cash for the passage down the river. His outfit weighed only 500 pounds and he was well provided with money. The time on the trail from Dyea to Lake Bennett was forty-five hours. Brown was accompanied by two Indians, who carried his freight across the pass for 30 cents per pound. He made a contract with Indians at Dyea and at Sheep Camp they struck for 45 cents, but Brown forced them at the point of a revolver to fulfill their contract at the original price, which they did, as Brown drove them ahead of himself, bringing up the rear with 100 pounds on his back and a revolver in his hand.
