The Don't put subcroses on the dinner table was the opening of the public schools. This was an event of no little importance ney complaint, constipation and billousto the juvenile mind. It has been looked ness, quiets the nerves, and invigorates forward to for weeks, and there was the whole physical organism, abundant evidence in the streets that preparations had been made for the return of school days. Girls appeared in dresses, spick and span, with their hair rhosa Remedy always affords prompt rebroad, well-laundried collars, and neat sults of clothes, while all had bright, expectant faces. It is safe to say that a very large part of the public school children gladly returned to their tasks yes terday, and they did so because instruethese latter days. Interesting books, well supplied with good illustrations have been provided, and the exercised so diversified that the young folks have ceased to hate school; in fact, in most cases, so remarkable have been the changes in modern methods of teaching the young idea how to shoot, that children now actually consider it a great cross to be deprived of the privilege of attending school.

Next to the South American republics and the republic of Mexico the most Early Risers, the pills that cleanse that promising field for the future development of the trade for American producers is the Orient. Much has been written about the growing inclination of the Jachinery, but little attention has been the national beverage. It is the opinion of Consul Read that if our American manufacturers will make the proper efforts it will result in millions of dollars of trade. China in the next few years will be a buyer of all classes of machinery, especially railway materials. America manufacturers the best machinery and the best steel rails in the world, and her manufacturesr can meet all competitors in quality and price. Thousands of tons of structural iron and steel will used in China during the next ten years. The question is, will Americans allow the English manufacturers to supply this entire demand? With the right kind of representatives in China Amertean manufacturers can secure a large share of these orders. For the twelve months ending June 30, 1896, we bought goods of China to the amount of 322,023, 004, while China purchased of us only \$6,921,933. For the year ending June 39 1897, we did better, our exports being \$11,924,433 and our imports \$30,403,862. The balance of trade should be in our favor. If American manufacturers awake to their opportunities in the far east our trade with both Japan and China will show a large balance in favor of this

A day would keep your rooms warm in winter. But that small stove will burn only twenty-five. Hence, discomfort

and misery. A certain amount of fat, burned daily, would keep your body warm and healthy. But your digestion is bad, and you don't get it from ordinary fatfood. Hence you are chilly, you catch cold easily, you have coughs and shivers; while pneumonia, bronchitis, or consumption finds you with no resistive power.

Do this. Burn better fuel. Use SCOTT'S EMULSION of Cod-liver Oil. Appetite and digestive power will revive; and soon a warm coating of good flesh will protect the vital organs against the cold and the body against disease.
