VOL. XLVII.

ASTORIA, OREGON, THURSDAY MORNING, SEPTEMBER 30, 1897.

NO. 47.

Creditor's Sale Osgood Stock

While this sale lasts the greatest bargains ever offered may be had, and the sale will not last a great while longer, as prices have been put on the goods that are bound to make them sell quickly. It is not every day that you can get a \$15 Suit for from \$5 to \$8, or a \$3 Hat for \$1.50, or a pair of \$2.25 Shoes for \$1.40, and while the opportunity lasts anyone needing anything in this line should take advantage of it, as A DOLLAR SAVED IS A DOLLAR MADE.

If you do not wish to buy, come in and see the prices, and then tell your friends how cheap goods are being sold.

HITCH IN THE NEGOTIATIONS

Will Not Break Up the Proposed Seal Conference.

JAPAN AND RUSSIA INVITED

Not a Yankee Trick but the Bridge Left Open for Lord Salisbury's Retreat.

New York, Sept. 29.—A dispatch to the Tribune from London says:

The English press, in discussing the hitch which has arisen in the negotiations for the seal conference, assumes that the idea of inviting Russia and Japan was an afterthought on the part of the Washington government. The state department is charged with attempting to enlarge the inquiry by drawing Russia and Japan into it, when Lord Salisbury has specifically agreed to the conference restricted to an exchange of views among American and Canadian experts. These assumptions are without foundation.

When Mr. Foster returned from St. Petersburg last summer, Russia had agreed to a conference. Before Lord Salisbury wrote his dispatch on July 29 there had been conferences at the foreign office and the desire of the state department that Russia and Japan should participate was plainly indicated. The Russian ambassador in London had an interview with Lord Salisbury on the subject. Mr. Foster had had a conference with Mr. Chamberlain and Sir Wilfrid Laurier, in which the proposed meeting was fully discussed. The Japanese minister also interested himself in the question. For a month preceding July, no secret was made of the fact that the United States had invited Russia and Japan to take part in the conference, and was anxious to have Great Britain and Canada co-operate.

The assumption of certain of the English journals that the proposal to include Russia and Japan was an afterthought for the sake of entrapping Great Britain and Canada into a conference in which they should be outwitted is baseless as the fantastic idea that American diplomacy has devised a fresh expedient for giving the lion's tail another twist.

The truth is that the master of the foreign office understood perfectly the broad scope of the conference to which England had been invited, along with Russia and Japan, but accepted the proposal in a guarded way, so that he could object to the presence of the representatives of those two powers if he chose to do so.

Ambassador Hay was, however, equal to the emergency, for in a perfectly courteous letter of acknowledgement, dated July 29, he reminded Lord Salisbury that as had been intimated all along, the Russian and Japanese representatives would attend the conference.

When Lord Salisbury decided in September to object to the presence of these representatives, it was because pressure had been brought to bear upon him from Canada, and not because there had been any afterthought at a Yankee trick at Washington, as ill informed critics here hastily assume. Lord Salisbury left the bridge open for his retreat, but it is not a forgone conclusion that he will cross it and break up the conference. On the contrary, it is probable that an international meeting will be arranged. It is understood in diplomatic circles that the latest communications from Secretary Sherman on the subject have been felicitously phrased and have produced an excellent effect at the foreign office. What was needed was the act, and it has not been lacking. England and Canada will be purely consultative. It will apply scientific information, which will be useful in determining the general question of measures required to protect the fur seal herd. It will have no binding force upon any nation represented in the delegations.

GOOD EXAMPLES

How Women Would Soon Reform the Whole World.

If women would always set a good example it would soon reform the world, so the men are continually following after the women. If a woman would talk out of the two corners of her mouth at the same time there would be a good deal said on both sides. Dr. Darrin wants just such advocates. No one tongue or corner of the mouth can tell of the wonderful cures he is performing daily at his office. The following cases substantiate his wonderful skill.

For years Mrs. M. J. Barr of Gray's river, has been a constant sufferer, will pain in her head and neck, accompanied with dizziness and constant fear of falling. Under Dr. Darrin's electric and medical treatment she feels like a new woman.

Captain M. D. Staples, of Astoria, is still confident of a permanent cure of his son, who has been cured of catarrh and loss of appetite. Hundreds of cases might be mentioned but space will not permit.

Dr. Darrin remains at the Occident Hotel, Astoria, until November 1, where he treats all curable chronic and private diseases.

FREE SPEECH IS THEIR PRIVILEGE

AMERICAN CATHOLICS CAN SPEAK WHAT LANGUAGE THEY WILL.

Sermon of Arch-Bishop Ireland at the Installation of Bishop St. Cloud.

St. Cloud, Minn., Sept. 29.—In the course of a sermon at the installation of Bishop Trobe, the new bishop of St. Cloud, Arch-bishop Ireland today, after outlining attention to the many nationalities in the diocese of St. Cloud, said:

"It has sometimes been said that there is among Catholics in America a diversity of opinion as to the use within the Catholic church of foreign languages. There is no difference of opinion. Americans and Catholics when before this altar of truth believe and assert that men are free to speak what language they will; to retain what memories they will; to provide that always America and the language of America and American institutions obtain their best loyalty. Catholics in America may kneel before their God and pray in the language that best expresses their emotions.

"The Holy Roman Catholic church within recent times has promulgated in this regard that law of liberty by sending a message from the Eternal City that Catholics in America may speak and practice their religious duties in the language they may choose."

"The decree of Rome, proclaims that immigrants and their children are at liberty if they will to join parishes wherever the English language is spoken, by implication the decree allows to them the liberty to speak and practice their religious duties in other languages if they prefer those languages."

A REMARKABLE CASE.

Bullet Passes Through a Boy's Body and He Lives.

San Francisco, Sept. 29.—As remarkable a case as has ever been brought to the attention of science is that of Emil F. Corot, a 17 year old boy living with his mother at 125 Morris ave. Corot was accidentally shot last Friday, the bullet from a 35-calibre revolver going directly through the body with no more serious result than if it had made only an ordinary flesh wound. The shooting occurred at Bradley, Monterey county, and was accidental. The ball entered two inches above the umbilical chord, passed between the greater curvature of the stomach and the transverse colon, and came out one and three-quarters inches to the left of the spinal column, between the first and second lumbar vertebrae. None of the intestines were injured. There was no hemorrhage at all and no fever, and no operation was needed. The wounded youth will soon be as well as ever.

CHEERING NEWS FROM HAWAII

Japanese Immigration Question to Be Settled Without Arbitration.

MOONEY, NOT THE PRINCIPLE

Nikado Willing to Discuss the Question—All is Quiet in the Islands.

New York, Sept. 29.—A Herald special from Washington says:

An official announcement of the departure of the Japanese cruiser Naniwa for Yokohama, with the statement that the immigration question between Japan and Hawaii is likely to be shortly settled without arbitration, has thrown a peaceful aspect around American questions in the Pacific. This cheering news has been communicated to the state department by Minister Sewall at Honolulu, whose mail report has just reached the department.

The most important statement by Mr. Sewall is that the Hawaiian-Japanese authorities have estimated that \$100,000 in gold will settle the claims of the latter against the Dole government for the rejection of immigrants who came to the islands last spring. Heretofore Japan has sheltered herself behind the statement that Hawaii must admit first the "principle of monetary liability," and when this admission has been made she would be willing to discuss the amount that should be paid to salve the wound her dignity has suffered.

The fact that the mikado is now willing to discuss the amount that she claims is due her instead of the principle means in the opinion of the state department officials that if necessary the Dole government can rid themselves of a troublesome question before congress convenes so that Hawaii may present herself for admission to the union free from foreign questions, which might be a stumbling block in her way to coalition with the United States. Of course it is optional with Hawaii to pay this amount, and as President Dole has never admitted they were liable to pay a monetary indemnity as a result of the exclusion of the Japanese immigrants, and they may feel, if they pay \$100,000 in gold to Japan, such action may make them liable to further payments should other immigrants in the future be rejected.

This would be an especially serious matter in case union with the United States were not accomplished. It was suggested by a state department official that Hawaii might, however, follow the course pursued by the United States in case outrages upon foreign citizens in this country. It is usual for the government to pay an indemnity to the families of the victims, with the understanding however, that such action has no reference to the question of liability. State department officials would be glad to see the question finally disposed of before the senate takes the annexation treaty under consideration.

The departure of the Naniwa was announced by Minister Sewall and Rear Admiral Miller. The admiral has satisfied himself that the cruiser has really gone to Japan, and in this case the Philadelphia will come home on the arrival of the gunboat Wheeling with her orders to return "when the Naniwa has left."

The Baltimore will be placed in commission October 1, and be ready to receive her officers and men the moment Philadelphia arrives.

Another feature of Minister Sewall's report which was pleasing to the officials was the statement that all was quiet in the islands. He refers to the Japanese portion of the community, stating that they were evidently peaceably disposed; at least there is no present evidence of an intention on their part to precipitate an uprising. Minister Sewall also announced that the annexation treaty had been ratified by the Hawaiian senate without a dissenting voice.

The gunboat Yorktown has arrived in Yokohama on her way to Honolulu, where she is due in less than two weeks. The gunboat Wheeling has carried about 40 men to the Hawaiian islands in addition to her own crew. The man will be transferred to the Yorktown, which has a short crew.

On the departure of the Philadelphia, Rear Admiral Miller will transfer his flag to the Dennington. Besides this vessel, the naval force in Hawaiian waters will consist of the Wheeling and the Yorktown.

THE HOMER OUT OF IT.
San Francisco, September 29.—The French consul in this city has notified Postmaster Montague that all French mails received here in transit to Tahiti should be sent by the barkentine Tropic Bird on October 1, and should not be held until October 16, as the steamer Homer, scheduled to sail on the latter date would not depart.

Matthew Turner, local agent for Kennedy & Fritch of Tahiti, states that although there had been a contract made between the French governor of Tahiti and his firm to which the latter concern agreed to carry the French mails every 28 days from this city to Papeete for a subsidy of \$5,000, he will not recharter the steamer Homer, as the trial trip which was made last August had proven unsuccessful.

INCENDIARY FIRE AT SEASIDE

MR. COLBURN'S COTTAGE BURNED TO THE GROUND.

Thought That Must Have Been Set on Fire as Was Not Occupied—A Total Loss.

Seaside, Sept. 29.—(Special to the Astorian.)—The G. W. Colburn cottage, known as the Ocean View cottage, located on the country road opposite the old railroad bridge, was totally destroyed by fire last night. No cause of the fire can be found. The cottage was occupied by J. B. Glover, of Portland, during the summer season, and has been vacant for two weeks.

The house was nicely furnished and considered one of the best cottages on the beach.

Some insurance was carried by Mr. Colburn, but how much is not known. The loss will be close to \$2,000.

DON'T GO TO GAUTEMALA.
People Openly Robbed by the Police and Life in Danger.

San Francisco, Sept. 29.—Edward J. Hunt and Julius Beriz, of this city, who recently returned from Guatemala, warn Americans against going there on account of the inadequate protection afforded life and property. Mr. Hunt says: "Arrests are made on the most flimsy pretexts and imprisonment after the pressure of a trial. Conduct which is overlooked in the case of a native-born Guatemalan, is considered reason for arrest in the case of Americans, and our government gives its citizens no protection. The American consul is engaged in business and is afraid to act for fear of offending the government."

The police, who have not been paid for months, are openly accused of robbing strangers. President Barrios says Mr. Beriz, has the controlling interest in every new enterprise, and it is asserted that no one can secure a concession or do business without giving him a share. A man from El Paso who claims to have discovered a valuable gold mine says he found the whole property recorded in the name of Barrios, and to avoid being cast into jail for protesting, he left the country.

WARNING TO INDIANS.
Denver, September 29.—Game and Forestry Commissioner James Swan left last night for Price, Utah, where he will meet the state game commissioner of Utah, John Sharp. They will proceed to Fort Duchesne in that state and have a conference with the agent concerning the actions of the Indians as regards the game laws. The Indians will be warned that if they prey upon game in Colorado they will be prosecuted the same as white men.

THE CRISIS IN SPANISH AFFAIRS

Cabinet Has Resigned and Sagasta Telegraphed For.

AUTONOMY FOR THE CUBANS

Minister Woodford in Conference With the Leaders—Liberal Cabinet to Be Formed.

Madrid, Sept. 29.—The Spanish cabinet has resigned.

The queen has accepted the cabinet's resignation, but has asked General Azcarra to continue in office until a solution of the crisis is found. Her majesty will summon the leaders of the various parties and the presidents of the chambers tomorrow to consult as to the situation. Senor Sagasta has been telegraphed for, and it is believed the liberal leader will be asked to form a cabinet. United States Minister Woodford, the Duke of Tetuan and the president of the senate, Marquis Pazo de la Marra, held a long conference today and General Woodford presented to General Azcarra the members of the United States legation.

Madrid, Sept. 29.—Midnight.—It is said that Senor Sagasta is in favor of superseding Captain General Weyler and of granting autonomy to Cuba immediately.

ANOTHER KLONDIKE.

Nogales, Ariz., Sept. 29.—Captain T. C. Cox, an old and experienced mining man from Tuolumne county, Cal., has just returned from the Yagui country in Mexico, and brings the first authentic information about the gold region there. He describes the country as being rolling, about 35 by 60 miles, and says the gold is found in the foothills at the edge. It is reached by road from Ortiz station on the Sonora railway, 25 miles south of Nogales, and 50 miles north of Guaymas. Captain Cox says the ground is very rich in placer. The gold is coarse and heavy and is well washed. Captain Cox reports that in the vicinity are many quartz ledges from six to ten feet of free milling ore.

BASEBALL SCORES.

New York, Sept. 29.—New York 7, Philadelphia 1.
Baltimore, Sept. 29.—Baltimore 6, Washington 1.

Brooklyn, Sept. 29.—The Boston and Brooklyn began a series of three games at Eastern Park this afternoon, upon which much depends for both teams. Winning all games will give the Boston championship, no matter what Baltimore does. A majority of games for Brooklyn means a cinch on the place still left in the first division—the sixth.

After the third inning Lewis had the home team at his mercy. The support given the youngster bordered on phenomenal.

Boston, 12; Brooklyn, 4.
Charming for wear with a gown of some transparent textile is a hat of green tulle, shirred full on a brim which supports a mass of green foliage. Turts of tea roses are fixed at intervals to the top of the crown, and at the left side waves a fluffy black Paradise algrette. The back is turned up and against the brim is placed a large bow of black velvet ribbon.

Royal makes the food pure, wholesome and delicious.
