GENERAL WEYLER TO BE RECALLED

Spanish Cabinet Decides to Issue Orders Immediately.

GEN. ARENAS IS GOVERNOR

Will Take 20,000 Re-inforcements With Him to Cuba—The Queen Regent Will Sign the Decree.

REBELS WALK OUT

Town of Quetzaltenango Abandoned and Peace Desired.

THE FOLLY OF THE VOTERS DO NOT AGREE AS TO WHO HAS THE ADVANTAGE—GEORGE SUPPORTED BY OUTSIDERS.

New York, October 8.—A dispatch to the Herald from Guatemala says: The news of the evacuation of Quetzaltenango by the rebels and its reconquest by the government forces is fully confirmed. The consular corps there has sent the following message to President Barrios:

"The city of Quetzaltenango has been abandoned by the rebels, and we have notified General Garcia Leon. The city has been for some time without proper authorities and all desiring the re-establishment of order and peace respectfully beg you to give the necessary orders to that effect. Confiding in your well known rectitude, Mr. President, we trust the occupation of Quetzaltenango will bring peace, for which Quetzaltenango prays and is grateful. The United States cruiser Alert has arrived at San Jose, where she is now anchored."

RICH TREASURE

Victoria, October 8.—The warship Imperator, which recently sailed for Guatemala, carried as a guest of Rear Admiral Parrier, Ernest Harris, a real estate man of this city. It is asserted that he went south to secure part of the treasure which Charles Harford says he has located on Coccos Island. Harford came here from Coccos Island a couple of months ago on the schooner Aurora, on which a party of sealers had gone to the island to search for treasure. The sealers could not find it, but Harford claimed to have located \$300,000 in gold, silver and jewels. Harford is said to have interested Harris and the officers of the Imperator in his story, and it is even thought that he himself sailed as a bluejacket on the vessel.

RAILROAD COLLISION

Springville, Utah, October 8.—At Castle Gate last night a rear end collision on the Rio Grande Western cost David Oglesby his life and seriously injured Ed Morgan. Both lived at Goshen, a few miles below this city. The men were occupying the caboose of a sheep train when the engine of another sheep train following crashed into it with the result stated.

BIG ESTATE SETTLED

Colorado Springs, October 8.—The news has reached this city that the famous Bartlett estate of West Virginia, valued at \$3,000,000, and which has been in litigation for a number of years, has been settled, and as a result James Beshears the veteran prospector of Cripple Creek, has fallen heir to nearly \$200,000 as his share of the property.

AFFLICTED 27 YEARS

Mr. William A. Hall of Astoria Tells How He Was Cured by Dr. Darrin.

To whom it may concern: Twenty-seven years ago I had the misfortune to have scarlet fever and from the effects had discharging ears, and from that time to 1889, I was troubled with a bothersome discharge from both ears. In the year 1889 I consulted Dr. Darrin and was perfectly and permanently cured, so I have never had a return of the affliction. Seeing Dr. Darrin in Astoria, I think it justice to write this card—as well as to refer to at 422 Duane street, Astoria. WM. A. HALL.

Mr. Hall is well known in this city

and his word can be relied upon and the lasting cure he received should give courage to others to try Dr. Darrin's new treatment by electricity. The doctor will remain in Astoria until November 1, at the Occident hotel, and will during the remainder of his stay, treat all cases at the rate of \$5 per week or in that proportion of time as cases may require. The poor treated free from 9 to 10 a. m. daily except medicines. Regular office hours from 10 a. m. to 5 p. m. and 7 to 8 in the evenings. He treats all chronic diseases, blood taints, loss of vital power and early indigestions permanently cured, though no references are ever made in the press concerning such cases, owing to the delicacy of the patients. Examination free to all and circulars will be sent free to any address. All private diseases confidentially treated and cures guaranteed. Patients at a distance can be cured by home treatment. Medicines and letters sent without the doctor's name appearing.

SENATOR JONES WILL BE NEUTRAL

DOES NOT TAKE SIDES ON THE GREATER NEW YORK CONTEST.

New York, October 8.—A dispatch to the World from Washington says: Senator Jones, chairman of the democratic national committee, says he will take no part in the municipal contest in Greater New York. Senator Jones disclaims any responsibility for the action of Secretary Walsh in endorsing the candidacy of Henry George, merely remarking that as an individual, Walsh had a perfect right to take whatever action he considered proper.

When asked as to what course he would pursue regarding the situation in New York, Senator Jones said: "I do not think it within my duty to assume any authority in this matter for the national committee. As chairman of the national committee I do not propose to be drawn into it, for I have no authority to speak for the committee, and it would be impossible for me to act as an individual and divorce my personality from my position as chairman. There is no occasion for me to induce or disapprove the nomination of either Judge Van Wyck or Henry George."

In regard to the letter said to have been written by Senator Jones to Senator Murphy, in which he is reported as advising against a reaffirmation of the Chicago platform by the New York state committee, the chairman said the communication sounded very much like what either he had written or said to someone in New York, but he said if it was written, it was not his intention of having it used as it was in the New York meeting. Chairman Jones said he took the general ground that "the Chicago platform was binding upon every democrat" and that nothing any state or municipal convention might do could add or take away from that platform; it could neither be strengthened nor weakened.

"I believe," said the senator, "as firmly in bimetalism and the Chicago platform as I did the day that the platform was adopted, and the battle of 1892 is to be fought on the same lines."

THE JOURNAL'S POLL

New York, October 8.—The Journal's poll of votes of Greater New York's preferences for mayor includes 123,700 ballots. Henry George, Jefferson democrat, has 61,121; Van Wyck, Tammany, 36,750; Seth Low, citizens union, 25,206; Tracy, republican, 19,172.

The Journal's poll includes 100,494 ballots, as follows: Van Wyck, 33,009; Low, 24,526; George, 21,119; Tracy, 16,280; Gleason, independent, 1,662.

GEORGE THE MAN

New York, October 8.—Of the twenty democratic national committeemen who have expressed themselves on the municipal campaign, thirteen held that Henry George is the regular democratic candidate for mayor, and some favor Tammany. Thomas Macrum of Indian Territory telegraphed the Journal:

"The Henry George municipal ticket for Greater New York should be supported by democrats."

What Mr. Grant, of Oklahoma, says: "The democrats of Oklahoma stand by the Chicago platform and would support for office no man who did not endorse it."

Alex Troup, of Connecticut, says: "There can be but one answer to your query—Henry George on the Chicago platform. Alleged democratic organizations which ignore the national platform are unworthy of confidence."

THE INDIAN MINTS WILL NOT OPEN

Britain's Answer to the United States on Bimetalism Forthcoming.

MIGHT HAVE BEEN DIFFERENT

Had India Been as Favorable as the Bank of England—Sealing Matter Will Not Be Reopened.

BANK OF ENGLAND IS UNRUFFLED

CALMLY VIEWS THE TREMENDOUS STRAIN ON ITS GOLD RESOURCES.

Imports of Gold From Paris Comparatively Small, Contrary to the Prophecies Which Were Made.

New York, October 8.—A dispatch to the Tribune from London says: The British government's answer to the proposal of the United States and France for bimetalism by international agreement will probably be ready within a fortnight. Possibly it will be delivered earlier, as there is evidence that the ministry is disturbed by the prolongation of the controversy over the monetary question in the press and wish to put an end to it. Two months ago they were strongly disposed to make such concessions to the United States and France as would have enabled those powers to convulse a monetary conference. Sir Michael Hicks-Beach obtained from the governor of the Bank of England a qualified assent to the conversion into silver of one-fifth of the reserve for the redemption of note issues. The Indian government was also consulted respecting the expediency of opening the mints to the free coinage of silver. If the answer to that proposition had been as favorable as the reply of the governor of the Bank of England on the minor points of a larger use of silver in the reserves, Senator Wolcott's mission would have been completely successful in opening the way for a new session of the conference. That answer has not yet been officially revealed, but it was received in London and is believed in diplomatic circles to be unfavorable to reopening the Indian mints.

Not one word of this has yet appeared in print, and no official confirmation of it can be obtained, but it is currently reported among the best informed financiers that the Indian government has advised against reopening the mints.

If this is true, and there are strong reasons for believing that it is, the ministers will not have the courage to act against the advice of the Indian government, but will summon the French and American ambassadors and the bimetallic envoys without delay and return a courteous but firm answer to proposals for an international agreement for the maintenance of the par value of gold and silver.

Canada and Great Britain have refused definitely to take part in a sealing conference if representatives of Russia and Japan are allowed to participate in it. This matter was settled yesterday and cannot be reopened. When the diplomatic correspondence is published it will be evident that the state department has done everything in its power to enable Canada and Great Britain to attend a conference which was declared to be purely consultative and which would have had no binding force upon any maritime power taking part in it. Canada has interposed her veto, and Great Britain on this question has no will of her own, and has sanctioned it. Lord Salisbury having revised the original invitation of last July at the instance of Canada, now follows the lead of Ottawa in declining to meet Russia, Japan and the United States in a friendly conference for determining whether anything can be done for the protection of the fur seals.

No reasonable objection could be offered to the presence of the Russian and Japanese representatives, but Canada has adopted a differential tariff in favor of the British traders and her capricious refusal to control the diplomacy of the foreign office on American questions.

The American ambassador is still sent to London in deference to old-time usage. He might more properly be accredited to Ottawa, where the English diplomatic policy on American questions really has its origin. Doubtless the state department can have no objection except to persevere in a conference to which Russia and Japan are invited.

It can subsequently hold, if it likes, a second or supplementary conference with Great Britain and Canada and open the way for a revision of the existing regulations next year. The holding of a second conference is a question which will depend upon the scientific information produced before the first conference. If it be true, as the best experts in the fur trade in London admit, that 80 per cent of the calves now coming into this market show gunshot holes, and that the bulk of them are the furs of female seals, the speedy extinction of the herd cannot be long deferred. If it be true that there are now only 100,000 seals breeding on the

seal, islands or other grounds where there were once several millions of them, the herd has already lost its commercial value, and nothing short of absolute prohibition of pelagic fisheries for a decade or longer will restore it. A second conference certainly will be superfluous if Canada be unwilling to allow the suspension of pelagic sealing.

FIRES IN COLORADO

Forest fires are raging in the timber southwest of this city. Immense volumes of smoke darken the sky. Unless there is a storm the amount of destruction will be enormous.

BAZIL, A BORROWER

New York, October 8.—A Herald dispatch from Rio Janeiro says a Hamburg syndicate has offered a loan of 1,000,000 pounds to Brazil.

BANK OF ENGLAND IS UNRUFFLED

CALMLY VIEWS THE TREMENDOUS STRAIN ON ITS GOLD RESOURCES.

Imports of Gold From Paris Comparatively Small, Contrary to the Prophecies Which Were Made.

New York, October 8.—The announcement made today of the gold engaged for import looks up a total of \$2,250,000, and of this amount all but \$1,500,000 comes from London.

Today's engagement of \$1,500,000 in Paris is the first to come from there on a total movement which now foots up \$1,130,000. This is entirely at variance with all prophecies made by the financial authorities, who have foretold that London could easily be able to shift the demand for gold from the United States upon Paris.

London viewed with great equanimity the increasing demand upon its gold reserves. The Bank of England has gone on expanding its loans in the face of the tremendous drain upon its gold, and no change was made on Thursday in its rate of discount. The open market discount rate in London has remained steady up to today, when it has declined slightly, and the same thing was true in Paris in response to the gold shipments.

ANOTHER ROMANCE

Thought She Saw Her Husband's Dead Body.

Lyons, Ia., October 8.—Several years ago, at Port Byron, Ill., James Baird was united in marriage to Miss Dorrance. Later they moved to Chicago and some time ago removed to this city. On August 12, leaving no trace, Baird disappeared. Some time afterwards there appeared in the Chicago papers an account of the finding of the body of a man in a heap of rubbish in the rear of 34 Myrtle street, Chicago. The description which tallied with that of the missing man met the eye of the wife, who went to Chicago, arriving there September 3, to find that the body had been buried in the Potter's field. The body was located, disinterred, and it was found that while decomposition rendered the features unrecognizable, the size of the body and the general appearance of the hair, beard and mustache resembled that of the missing man. As a last test, the wife said that her husband, who was a soldier of the late war, bore upon his shoulder a long, deep scar from a wound received in service. The clothing was removed and there upon the shoulder was a scar of the kind described. Owing to the condition of the remains, it was impossible to remove them, and they were reinterred in the Potter's field, while the wife returned to her home here. Now her grief is turned to rejoicing, for the husband mourned as dead returned home last night, alive and well. He offers no explanation of his absence and silence beyond the statement that he had been in Montana working at bridge building.

OHIO SENSATION

Pomeroy, O., October 8.—Charles Hysall and Bert Wines, two members of a gang that had been terrorizing the inhabitants of Meigs and surrounding counties, were arrested near here under sensational circumstances. Hysall was standing beside Miss Gertrude Manley at the home of Squire Long, awaiting the words that would have made them man and wife when the officers suddenly appeared and made prisoners of the trio before any resistance could be offered. Wines who was a guest at the intended wedding, started to run, but was captured after leading the officers a spirited chase. Rewards aggregating \$2,000 have been offered for the capture and conviction of these men and feeling is high against them.

GODDARD AND SHARKEY

San Francisco, October 8.—The Knickerbocker Athletic Club has received a telegram stating that Joe Goddard, who has just arrived in Boston, has almost certainly fought Tom Sharkey in November, in this city. The club expects to pull off the fight in Mechanics' pavilion about November 15.

THE EFFECTS OF THE DROUGHT

Distribution of General Merchandise Has Been Checked.

FAILURES SMALLEST KNOWN

Speculators Making Capital Out of Disturbances—Business is Increasing—The Wheat Yield.

BUSINESS INCREASING

New York, October 8.—Bradstreet's tomorrow will say: The distribution of general merchandise in the central west and northwest is further checked owing to the prolonged drought in Kentucky, Illinois and Kansas, portions of Minnesota, Nebraska and Dakota.

Telegraphic advices to Bradstreet's report serious damage in Kansas and parts of Nebraska and Iowa, where early planted wheat is up and budding, but that planted later is not likely to sprout. Fall plowing is now impossible, six weeks without rain having dried up the pastures and compelled the farmers to feed stock. Manufacturing industries throughout the west, particularly iron and steel, continue active.

The week's exchanges are 81 per cent larger than in 1892. Crop reporters who have widely differed now agree in putting the yield of wheat about 200,000,000 to 250,000,000 bushels, which is nearly 20,000,000 bushels more than that which is required for home use, keeping stocks as they were July 1, the lowest for several years.

The failures for the week were 212, against 295 last year, and 29 in Canada against 46 last year.

SUICIDE OF YOUNG GIRL

Chicago, October 8.—Lying in a clump of tall weeds with a revolver by her side and a bullet hole in the left temple, the body of a young woman supposed to be Jennie Oates, twenty years old, was found late last night by Officer Schmitt at a point midway between 8th and 9th streets on 9th street. In one of the pockets of the dress was found a note which leads the police to believe the woman committed suicide, as the result of a lover's quarrel. The note was addressed to J. Fell, 67th Bishop street, and in it the writer stated that she was tired of living and in fact tired of everything. The note was signed "Jennie Oates," and bore the address of 886 Francisco street. She had lived at this place two weeks, but nothing more is known of her.

THE SALVATIONISTS

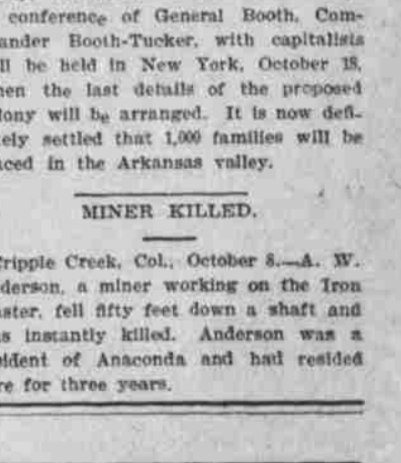

Denver, October 8.—Thomas Holland, national secretary of the Salvation Army, will return to New York today. A conference of General Booth, Commander Booth-Tucker, with capitalists will be held in New York, October 18, when the last details of the proposed colony will be arranged. It is now definitely settled that 1,000 families will be placed in the Arkansas valley.

MINER KILLED

Cripple Creek, Col., October 8.—A. W. Anderson, a miner working on the Iron Master, fell fifty feet down a shaft and was instantly killed. Anderson was a resident of Anaconda and had resided here for three years.
