THE WORLD'S WHEAT SITUATON.

A few day's ago the Times-Herald of Chicago, published an interesting article by one of its contributors, Mr. C. M. Harger, entitled "A Prophet Vindicated." It was an account of the now widely known Western wheat statistician, Mr. C. Wood Davis of Kansas, who for a number of years has maintained that the ratio between the increase of the wheat-growing area and the increase of the bread-eating population of the world was such that the time must come when the wheat supply would not be sufficient to feed those who depend upon wheat bread for their daily food. He claims the statistics prove that the bread-eating population of the world increases at the rate of fourteen per cent in ten years, the wheat-growing acreage increases in the same period at the rate of only seven per cent, and that this must ultimately lead to scarcity of wheat at high prices.

This Malthusian doctrine was first published six years ago, immediately prior to the beginning of the great wheat-crop years, and the subsequent course of wheat prices made the theories of Mr. Davis look baseless, if not ridiculous. At all events, his ideas were received with skepticism and he was treated, on the exchanges, as all prophets are treated in their own country, with derision. Mr. Partridge and the Chicago bears went on selling wheat short on the board of trade, notwithstanding Mr. Davis, very much to their own subsequent profit.

But the years of plenty ceased, and now we have come upon a year that shows that after all there is something in these statistics. In an article in the October Forum, entitled "The Impending Deficiency of Bread Stuffs," Mr. Davis returns to his subject and enforces his conclusions with an array of figures that are really startling.

We cannot here fully analyze this interesting paper, nor do much more than commend it to the consideration of our readers. Mr. Davis shows that the bread-eating population of the world is mainly of European lineage, inhabiting Asiatic Russia, the United States, Canada, Australia, Argentina, Brazil, Uruguay, Chile, South Africa and Europe. In 1871 this population numbered 371,000,000, and it now aggregates 510,000,000, the increase being 35.5 per cent in twenty-six years.

In the same period of time the area of wheat production has only increased from 258,700,000 to 278,400,000, or 7.6 per cent. This does not include corn, or maize, which is very little used as a grain food by people outside of the United States. It would undoubtedly be, however, if it came to starvation prices for other bread-stuffs though Mr. Davis does not seem to take this into consideration.

His conclusion in regard to the wheat situation, of the world is "that with acre yields no better than the average of 12.7 bushels of the last 26 harvests from contributory areas, the output would be 275,000,000 bushels—or the net product of 27,000,000 acres—less than present needs."

The views of Mr. Davis, coming as they do at this time, not on the eve of plentiful years, but when there is a decided scarcity, may meet with a different reception from what they did six years ago.

The government will probaby institute an inquiry, through the Nicaragua canal comission or otherwise, of the extent and effect of the recent grant by Nicaragua to the Atlas Steamship company, a British corporation of exclusive rights of navigation for the next thirty years of the San Juan river and Lake Nicaragua. These two waterways are said to form two of the links of what will ultimately be the Nicaragua canal. The state department recently received a report from Consul O'Hara in Nicaragua, giving brief details of the concession granted to the British company, and saying that it embraced various exclusive privileges in the Silicon lagoon, the San Juan river and Lake Nicaragua. Since then additional information has become available as to the plans of the Atlas company. The Silicon lagoon is said to be off the route of the canal, and it is argued that there is no reason why this should not pass into the exclusive control of the British company. The excavations beginning at Greytown and running thence west, unite with the San Juan river, which in turn leads to Lake Nicaragua, after which the artificial cut is continued to the Pacific. Under the circumstances it is said that exclusive privileges of navigation in these two waterways for the next thirty years would in effect limit the navigation of the Nicaragua canal. Whether the concession makes any exception is this regard is not known. An official familiar with Nicaragua canal affairs says that the concession would have to be construed as subsequent to that to the canal company, and the latter's rights in the San Juan river and Lake Nicaragua be believed would be fully recognized by Nicaragua. But the danger, he added, was that when the American company's concession expired, two years hence, then the British corporation would succeed, under the terms of the recent concession, to all exclusive rights of navigation in these two links of the canal. For this reason it is believed that the government or the canal company will take steps to learn definitely if this exclusive privilege extended to the privilege of navigating the lake and river when they become a part of the interoceanic canal. A Washington dispatch says that Secretary Long has decided to send the Newport, now at Boston, with the commission. The Newport is a composite gunboat, using either steam or sail, and is well equipped. She is copper-sheathed, as is not subject to fouling in Southern waters. The commission will sail about the 1st of November, and will remain in the south during the winter.

A BLESSING TO THE BABIES OF THE POOR — AN ENTERPRISE THAT SHOULD BE FOSTERED.

The prospect is very encouraging that the distribution of pasteurized milk, devoid of all microbic germs, among the children of the poor at a nominal price, will become general in the large cities of the United States. While this benevolence will be a blessing to the babies, our adult population enjoy an equally great one in the benefit conferred by Hostetter's Stomach Bitters upon persons afflicted with kidney and bladder complaint. Danger from Bright's disease and diabetes is surely averted by this admirable preventive, which is also a safeguard against malarial fever and rheumatism, and a thorough remedy for dyspepsia, constipation, liver complaint and nervousness. Diseases, insignificant at the outset, enlarge their proportions and capacity for destruction through neglect. Another point of importance in usnig this sterling remedy is, that it should be taken with regularity and persistence.

Dirty hands and rings form a most undesirable combination.

Sometimes the most careful women are the most careless. Many a woman bundles herself up to keep out sickness—when he is neglecting the very worst sickness that can come to a woman. She allows a slight disorder to become worse, to slowly sap her vitality. The little pain and the other sight indications of trouble seem to her unimportant. She goes on, with increasing suffering, until life itself becomes a drag. Nervousness, sinking spells," digestive disturbances, and fifty other complications may arise from the derangement of the organs distinctly feminine. Over thirty years ago the need for a reliable remedy for so-called "female complaints" was recognized by Dr. R. V. Pierce, then, as now, chief consulting physician to the World' Dispensary and Invalids' Hotel at Buffalo, N. Y. He prepared Dr. Pierce's Favorite Prescription, the most wonderfully effectie remedy that has ever been used for such maladies.

Send 21 cents in one-cent stamps and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," illustrated.

To be slangy, "any old thing," apparently, is deemed correct in millinery.

J. C. Berry, one of the best known citizens of Spencer Mo., testifies that he cured himself of the worst kind of piles by using a few boxes of DeWitt's Witch Hazel Salve. He had been troubled with piles for over thirty years and had used many different kinds of so-called cures; the work and he will verify this statebut DeWitt's was the only one that did ment if any one wishes to write to him. Small pill, safe pill, best pill. DeWitt's Little Early Risers cure biliousness, constipation, sick headache. Charles Rogers.

Gauze veils in magpie effects are very fashionable. Most of these are bordered with narrow lace.

Confusion as to the choice of a blood-purifier is unnecessary. There is but one best sarsaparilla, and that is Ayer's. This important fact was recognized at the World's fair, Chicago, 1893, being the only blood-purifier admitted to be placed on exhibition.

The popularity of the tiny empire fan has largely increased the sales of gold and silver chains.

You can't cure consumption but you can avoid it and cure every other form of throat or lung trouble by the use of One Minute Cough Cure. Charles Rogers.

"Ayala" is the particular brand of champagne that epicures and connoisseurs will serve on their tables this winter.

To remove the constipated habit, the only safe treatment is a course of Ayer's Pills, followed by a laxative diet. Most other cathartics do more harm than good, therefore leading physicians recommend Ayer's Pills, especially as a family physic.

Judging by the display of gaily colored hosiery in the shop windows the woman who wears plain black stockings will soon be a rarity.

Palms that have been put out to board for the summer are now returning to their places in the home, there to droop and pine beneath the attack of the insidious furnace heat.

The most knowing bird would fail to recognize its kind when fashioned by millinery mode.

Disfigurement for life by burns or scalds may be avoided by using DeWitt's Witch Hazel Salve, the great remedy for piles and for all kinds of sores and skin troubles. Charles Rogers.

The harsh sound of plain muslin lining after the frou-frou of silk is like a veritable knell of doom in the ears of some women.

Promature silvery locks can be restored to the natural color, as in youth, and the head kept clear of dandruff, by Hall's Vegetable Sicilian Hair Renewer.

The woman with a conscience finds it a very troublesome belonging at times. But in the long run it is a possession that pays.

You can't afford to risk your life by allowing a cold to develop into pneumonia or consumption. Instant relief and a certain cure are afforded by One Minute Cough Cure. Charles Rogers.

Dear! Dear! why doesn't some one try to convince certain well-meaning men that a white satin bow tie is not the correct neckwear that they appear to think it is.

A pain in the chest is nature's warning that pneumonia is threatened. Dampen a piece of flannel with Chamberlain's Pain Balm and bind over the seat of the pain- and another on the back between the shoulders, and prompt relief will follow. Sold by Estes-Conn Drug Co.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham, of Gaars Mills, La., has to say on the subject, viz.: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I ound a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera morbus, dysentery and diarrhoea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by Estes-Conn Drug Co.

It is a crusty old bachelor who is responsible for the remark that when a woman cannot think of any other way to spend her money she decides that her teeth needs attention.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say it was satisfactory in its results is putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. The 25 and 50 cent sizes for sale by the Estes-Conn Drug Co.

Admire a baby and the mother always looks pleased. Admire her dog and she glares at you. Maybe the reason for this is that she is quite sure you do not wish to steal the baby, but isn't so altogether certain regarding your intentions where the dog is concerned.

MARINE NOTES.

The Columbia is due from San Francisco today.

The Elder is expected to arrive from Alaska at any time now.

The Bowman B. Law left up river yesterday in tow of the Baker.

The Point Wilson buoy No. 6 has gone adrift. It will be replaced as soon as possible.

The schooner Mary E. Russ sailed from Knappton yesterday with a cargo of lumber for San Francisco.

The British bark Arracan, Captain Donald, Sunday sailed for Queenstown or Falmouth with a cargo of 131,173 bushels of wheat valued at $117,000.

The British ship Brenhilda, Captain Baxter, sailed yesterday for Queenstown or Falmouth for orders with a cargo of 71,914 bushels of wheat valued at $65,000.

The British ship Thomasina McClellan, Captain Sim, cleared yesterday for Queenstown, or Falmouth with a cargo of 97,287 bushels of wheat valued at $73,000. She will sail today.

The British bark Torfedale, Captain Buchanan, cleared yesterday for Queenstown or Falmouth for orders with a cargo of 123,286 bushels of wheat, valued at $118,000. She will sail today.

Saturday night the steamers Thompson and Lurline collided near Caples Landing, the Lurline being considerably damaged, necessitating her laying up for repairs. The Undine will take the Lurline run.

The O. R. & N. steamer State of California arrived down at 3 o'clock Sunday, and sailed for San Francisco shortly after with a large cargo of freight and the usual passenger list. She was such an early bird htat few Astorians had a glimpse of her.

There is no need of little children being tormented by scald head, eczema, and skin eruptions. DeWitt's Witch Hazel Salve gives instant relief and cures permanently. Charles Rogers.

New Secret Remedy Absolutely Unknown to the profession. Permanent Cures in 15 to 35 days. We refund money if we do not cure. You can be treated at home for the same price and the same guarantee; with those who prefer to come here we will contract to cure them or pay expenses of coming, railroad and hotel bills, and Charge, if we fail to cure. If you have taken mercury, iodide potash and still have aches and pains, Mucous Patches in mouth, Sore Throat, Pimples, Copper Colored Spots, Ulcers on any part of the body, Hair or Eyebrows falling out, it is this Secondary or Tertiary Syphilis that we guarantee to cure. We solicit the most obstinate cases and challenge the world for a case we cannot cure. This disease has always baffled the skill of the most eminent physicians. For many years we have made a specialty of treating this disease with our CYPHILENE and we have $500,000 capital behind our unconditional guarantee. Write us for 100-page book and absolute proofs.
