DANGER IN SODA.

Excessive Use.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended for a medicine and people who use it as such will some

We refer to the common use of sods to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover the soda only gives temporary relief and in the end the stomach trouble gets worse

The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases are on record where it ocumulated in the intestines, causing death by inflammation or peritonitis. Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent prepara tion sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20 grain lozenges, very pleasant to taste and contain the natural acids, peptones and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it DR. H. L. HENDERSON, has time to ferment, sour and poison the blood and nervous system.

Dr. Wuerth states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomuch, but by promptly digesting the food they create a healthy appetite, increase flesh, and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness, and will be found reliable in any stornach trouble except cancer of the sto-nach All druggists sell Stuart's Dyspepsia Tabfets at 50cts, per package,

A little book describing all forms of stomach weakness and their curv malled free by addressing the Stuart

You can't afford to risk your life he allowing a cold to develop into pneumor or consumption. Instant relief and certain cure are afforded by One Minute Cough Cure. Charles Rogers.
