

INDIAN PROBLEM TO BE SETTLED

THE VEHEMENT QUESTION IN FAIR WAY OF ADJUSTMENT.

Speech of Chief Inspacher Full of Advice to the Five Nations for Self-Government.

Muskogee, J. T., Oct. 26.—The initial step toward what may be the final termination of the vexed Indian problem in Indian Territory has just been taken by Chief Inspacher in a special message to the Creek council. The plan advocated is supposed to be the result of the recent conference of leaders of the Cherokee, Creek and Seminole tribes, and Chief Mays of the Cherokee is known to favor the plan. In his message Chief Inspacher says:

"Our efforts to treat with the United States government have proven unsuccessful, and we can now have no hope of continuing our government much longer as we now do, by the terms of any new treaty. The time has come, in my opinion, when the citizens of the five nations should get together and agree upon the establishment of a treaty by which we may perpetuate the principles of self-government. Should we be attacked in Oklahoma as a territory or state, this right of self-government will be taken from us by the superior number of its voting population. None of us want such a connection with Oklahoma, yet strong efforts are being made by politicians for single states, including the five nations.

"That this can be averted by the timely and united effort of the five nations. They are yet the sovereigns of their soil and politically free, with the right to shape for themselves a government that will best suit them for the protection of their lives and property."

In conclusion the chief recommends the holding of a convention of the leading men of the five civilized tribes, to the end that the United States government be presented with definite proposals looking to the establishment of a government by the Indians, and for the Indians of the five civilized tribes."

NICARAQUAN TROUBLES

Citizens Locked Up in Prison for Their Hanson.

Leon Nicaragua, October 2.—(Special correspondence of the Associated Press.)

Several hundred prominent citizens of the best classes are now in prison by order of President Zelaya or his officers. Each of the prisoners has been heavily fined or a demand has been made upon them to pay a large loan to the government. More than ten of these citizens are now in the penitentiary. The charges against them are not being in sympathy with Zelaya's government or having refused to pay or inability to pay the amount of loans demanded. A large percentage of the principal stores in the country owned by the native Nicaraguans have been closed by President Zelaya's government under various pretexts, such as inability or refusal on the part of the owners to pay their share of the large sum demanded. Foreign countries are affected by this arbitrary action on the part of the government, for a very large portion of the merchandise was purchased in the United States or in Europe on credit and is still unpaid for.

Foreigners in Nicaragua are speculating as to what has become of the enormous sums collected as enforced loans during the past three years and they are also making inquiries as to what has become of the large sums collected by the monopolies of tobacco and liquor and the more than double import duties. Members of the government express the opinion that large sums of money have been sent to European banks in order that certain officials, when the upheaval occurs may be able, if they escape from the country, to live in luxury.

Advices from the south report a shrinkage in the peanut crop. With this horrible fact staring us in the face, let us be thankful that the season of grand opera, rather than the circus is approaching.

BATTLE WITH UTE INDIANS

GAME WARDEN WILCOX ATTEMPTED TO ARREST INDIANS.

They Fired Upon Him—Another Conflict Inevitable—Indians Violating Colorado Game Laws.

Rocky, Colo., Oct. 26.—Reports from Snake River are to the effect that Game Warden Wilcox attempted to arrest some Indians near Lily Park for violating the Colorado game laws, and was fired upon by the Utes. The officers returned the fire, killing five Utes. Game Warden Wilcox, with several posse of deputies and ranchmen, are after the Indians, and a further conflict seems inevitable. The statement here is intimate and parties are organizing to go to Wilcox's aid, fearing a general uprising of the Indians.

The trouble commenced last week, when the White River, Uncompagne, and Uintah Utes began pouring over the line from Utah on their annual fall hunt. The White River Utes are exceptionally ugly and have apparently been anxious to pick trouble with parties of whites with whom they have some in contact. The Utes were in the Mosler massacre and have never been anything but ugly and waiting for an opportunity to do mischief. There are several hundred of them now in the state. Game Warden Wilcox, with a small party, started out toward the Indian camp and approached the camp unobserved. The game warden was resisted and finally fired upon by the Indians. Then an encounter followed, in which a number of Indians were killed and wounded. It was reported that Warden Wilcox's party also suffered severely.

Brigadier-General Otis, of the department of the Colorado, has said if the circumstances warrant, troops will be sent to the scene of the trouble at once. That they were well prepared and ready to proceed at a moment's notice.

PITCHED BATTLE

Between Arizona Officers and Mexican Railroad Hands.

Yuma, Ariz., Oct. 26.—A pitched battle at Mammoth Tank, 45 miles west of Yuma, between Yuma county officers and 200 Mexican railroad laborers, resulted in the death of five or six Mexicans, wounding several more and dangerously wounding of Deputy Sheriff Wilder of Yuma. Sheriff Greenleaf of Yuma county was called upon to arrest the ringleaders of a gang of striking Mexican railroad laborers. With his deputies, George Wilder and James Jones, he advanced on the strikers, where the latter attacked them with rocks and revolvers. With the first volley from the Mexicans' revolvers, Wilder fell. Jones then stepped forward for the section foreman, who had accompanied the officers. Jones in the meantime had secured a shotgun which he discharged at the advancing strikers. Three men fell, and were picked up by their comrades, who continued to advance. Another shot brought more to the ground and a stampede followed. Sheriff Greenleaf, who had in the meantime conveyed the deputy to a waiting train, called upon his men to board the train, which immediately pulled into Yuma. A posse of 25 men is being formed in Yuma and will soon leave for the scene of the trouble. More and sensational developments may be expected.

TREASURY PHAUNDS

Washington, October 26.—Over \$90,000 of alleged fraudulent warrants on the United States treasury on account of the Creek Indian had been discovered by the government authorities. The alleged fraud was perpetrated in connection with the payment of the Creek Indian nation debt and only the barest details have reached here. Many new warrants, it is said, have been issued and paid in place of old ones on which full payment had been already made. It is said an old chief of the Creeks and an official in the employ of that tribe are among those involved in the affair.

HANNA APPLAUDS IN CLEVELAND

MAKES GOOD DEFENSE AGAINST SLANDEROUS REPORTS.

Did Not Try to Steal the Union Pacific Railroad—Grover Cleveland Made the Deal.

Cleveland, O., Oct. 26.—Senator Hanna has put at rest the false and malicious statements recently published in the New York World, the Cincinnati Enquirer, and other democratic organs, charging that he obtained campaign funds in 1866 through promise of special advantages to be given certain capitalists in the east in the purchase of the Union Pacific railroad, which is to be sold shortly through foreclosure measures instituted by the United States government. In his speech last night, being the first opportunity he had to reply to these published charges, he said:

"Standing in the presence of my own fellow-citizens and neighbors, I feel that I have a right to deal a little in person. I feel that I have the right, standing before a Cleveland audience, to reply to all the slanderous attacks and malicious attacks that have been heaped upon me during this campaign. (Applause.) I do not believe in dealing in personalities in political discussion, and for a long time I held my breath and waited—waited—hoping that common decency would yet pervade the enemy's mind. Now I propose every time I face an audience in my own state, where I was born and where I have always lived, and not in Washington, D. C., (laughter)—I am willing to stand before the people of Ohio and admit that by virtue of the necessities of the situation I am a candidate for the United States senate (great applause)—to reply to those numerous charges which have filled the columns of the newspapers. I am also prepared to say that they are false, every one of them, and for proof I refer to the people among whom I have lived for forty years. (Applause.) If I may be permitted to quote one newspaper article as a sample, it is the latest, and I should judge by the heading, 'Colossal.' 'It appeared in the New York World a day or two ago, and was copied into that vicious sheet, the Cincinnati Enquirer (laughter), and circulated among the people of our state free of cost to anybody who would break open the wrapper. Speaking of what it calls the 'great plunder of the government's treasury,' the sale of the Union Pacific railroad, it goes on to state that last summer I made a deal with the capitalists in New York, that if they would furnish me a large amount of ammunition for our campaign that I would agree to carry through this 'colossal steal.' Well, I don't know as it is worth my while, and I will not read any part of it, because I can make a briefer statement.

"It goes on to say that I had lent a contribution upon all the bankers in New York city, who were to be a part of the syndicate to steal this great railroad from the government, and that in consideration of that I was to give this great measure my hearty support. Now, the facts are, with regard to that, that I never heard of the measure or the syndicate, or anything about it, until early in July last, one year after the time in which this 'steal' had." I do not even know who the members of the syndicate are. I never had any conversation with any of them in regard to it. I never was called upon by my vote or influence to say one word in regard to that sale. It was a contract made on the part of the government by Grover Cleveland's administration, and the only part of it, as I see by the papers, for that is the only method of my information, is that the contract had been agreed to on the part of the present administration on the agreement that they should give five million dollars more for it. Now that is all I know about it. The rest is a lie." (Laughter and applause.)

YELLOW FEVER

Dr. Sarnatelli's Method of Treatment and Cure.

New York, Oct. 26.—A dispatch to the Herald from Buenos Ayres says: Dr. Sarnatelli, who has been in Uruguay for many months studying the yellow fever problem and who recently announced the discovery of a curative anti-toxine for fever, has been interviewed as to his work in Montevideo. In the first place the doctor states that American physicians who have been interviewed by the Herald as to his discovery, are completely mistaken as to its use. It is not a serum to be used for inoculation, to prevent yellow fever, but a serum which he believes will cure. Dr. Sarnatelli said that he had inoculated many horses and other animals with a serum which was intended to give them a mild form of fever, and immunize them. In order to immunize a horse he found inoculation would have to be made at intervals covering fourteen months.

In such case they recovered. He believes the same results will follow the same treatment of persons suffering from the fever, though as yet he has been unable to make a practical test on a man. He states that a human being will not yield so readily to yellow fever, therefore he may make minor changes in his treatment after testing it.

ADVICE TO THE W. C. T. U.

Physical Culture Lecturer Endorses Paine's Celery Compound.

Miss Lucy H. Hitebeck, lecturer, department of physical culture, Woman's Christian Temperance Union, Vermont, wrote on May 16 last:

"It affords me pleasure to add my testimony with others regarding the healing effects of Paine's celery compound upon an exhausted nervous system."

Aug. 12, 1897, she wrote: "As a rule I do not endorse medicines, but I believe Paine's celery compound to be of a different order from the ordinary medicines. Facts cannot be disputed. I have derived so much benefit from the compound that I am glad to heartily commend it, hoping others similarly afflicted will be relieved. Any medicine that will relieve suffering humanity is a blessing to the world."

A blessing to the world! Paine's celery compound has been proven to be the one great remedy that really makes people well. This estimable woman, whose Christian work is earnestly directed toward the betterment of others, and whose eminence in the W. C. T. U. makes her advice of great value, plainly endorses Paine's celery compound.

The amount of poor health on every hand is something shocking to every one who stops to think. Hundreds of men and women in every neighborhood are today carrying about with them a needless load of ailment; that a thorough refreshing of their nerves, a purifying of their blood, more sleep and more regularity in their bodily functions would completely do away with. Paine's celery compound will do all this for sick and ailing men and women.

A "hear-say" reputation may do for other remedies; Paine's celery compound

MANHOOD RESTORED "CURIDENE" THE GREAT VEGETABLE...

NO-TO-BAG CURE FOR HAIR...

is best known from the months of men and women whom it has made well—they are in every city, town and village in the country.

No one can pass the newspaper bulletin without being reminded by how slight a thread the best of men hold on to life. The slight ups and downs in health from which people recover make them forget that there is a limit to the body's elasticity and endurance. The habitual exhausted nervous system at last loses its power of recovery and offers no resistance to disease.

"Prevent disease," is the catchword of the best medical thought of today. Careful men and women do not wait until they are flat on their backs as people once did. The more intelligent part of every community has found out the inestimable benefit to be derived from Paine's celery compound, when one is worn out, nerve-tired and "out-of-sorts."

The little ills, the beginning of neuralgia and rheumatism, the "all gone" and tired feelings show the immediate need of purifying the blood and refreshing the nerves. The direct and energetic way Paine's celery compound overcomes sick and nervous headaches, dizziness and heart troubles, as it does all other nervous disorders, has compelled the admiration of the medical world from the start.

Headaches, rheumatism, neuralgia, lifeless feelings, and debility cannot persist when intelligently met and corrected by this greatest of nerve and brain strengtheners. No remedy ever kept the confidence of so large a body of inquiring men and women. Try it.
