No amount of age or storing will make bad whiskey good. It must be good when made and must be stored in wood and not in metal. Cyrus Noble Old Bourbon Whiskey is stored in oak wood barrels. This develops its flavors and tonic properties. These flavors make it delicious in cocktails. It is the only American Whiskey of international reputation.  
George Bartley yesterday received a fish from the life-saving crew at Fort Canby that no one seems to recognize. Some pronounced it a devil fish and others are certain it is an octopus. Its girth is probably ten or twelve inches and from the tail to the gills vary but little in size. Much to the regret of water front men the pilot schooner Jessie was thrown out of commission yesterday by the action of the pilot's association. Hereafter there will be but one schooner, the San Jose, in service. It is understood that the tug will also carry pilots when necessary—a consideration.

The dangers of civilization are everywhere, worry and sorrow. We need a habituating power to sustain us. Learned men and experience point to pure whiskey. Primitive men did not need whiskey. We do. Mr. Theodore Fredrickson, the violinist, Madama M. Olson, the pianist, and Mrs. H. T. Crosby, the organist, will accompany Miss Veiguth. **FOR ASTORIA'S ADVANTAGE.**  
Meeting of Citizens Held Yesterday Afternoon an Interesting One.  
An adjourned meeting of the citizens' convention, having for its principal object the intelligent advertising of Astoria's resources and the tremendous changes in her business, about to take place, was held yesterday afternoon in the Chamber of Commerce rooms.  
The appointments made by Chairman Kinney were received and approved as follows: Committee on finance, J. O. Harbison, Frank R. Stokes, W. L. Robb, J. E. Higgins and Harrison Allen; executive committee, W. G. Goadin, C. R. Thompson and H. G. Van Dusen. Samuel Elmore was appointed to represent Astoria before other cities. The other two members are to be appointed by the Astoria Progressive Commercial Association and the Chamber of Commerce.  
Resolutions were made that the first move of the finance committee should be calling of a mass meeting at Fisher's opera house, where good speakers and good music should be furnished for the evening's entertainment, and an opportunity be given the citizens of subscribing to the advertising fund before breaking up the meeting. It is certain that both the bands of the city will come to the front as they did in the instance of the Progressive association, and it is equally certain that no charge will be made for the opera house for this purpose.  
Portland and San Francisco are awaking to the fact that Seattle gave them the slip in the race for Alaska business, by judicious advertising. Between twenty and fifty thousand dollars in coin was placed in the hands of Seattle's local papers, who were given carte blanche in the management of domestic and foreign advertising, with the result that every little town in the east knows about Seattle, where it is that it has steamers running to Skagway and St. Michael, and that it has stores which sell miners' outfit Portland and San Francisco have caught on to the modern operandi and propose to profit by Seattle's experience. Astoria is just in time to get into the band wagon, and with her proposed independent line to Copper river, and enjoying the privileges of the O. R. & N. Co.'s very liberal proposition to increase its Skagway line to a five day service, and with the possibility of having the Oregon's San Francisco-St. Michael line of steamers call in here, Astoria will be in it. But to reap any benefit from her advantages, she must let the world know what she can do.

**THE GOLDEN SPIKE.**  
A traveling man down from Portland yesterday said that there had been a great change in the sentiment in that city in regard to the Astoria railroad proposition.  
"The majority of business men of Portland, bankers, commission men and newspaper and railroad men realize Portland and Astoria must work together for the greatest good to the greatest number in Oregon. Competition with San Francisco and the Sound is very sharp and in order to put our commerce in this state at the head where it belongs, because of our equated harbor at the mouth of the Columbia, it is necessary to leave no stone unturned to capture the shipping of the world. We are now making great strides toward this end. The Duwamish, Carlisle, R. & N. Oriental steamship and transcontinental line, the increased Skagway service, the proposed St. Michael and Yukon river line, and the Astoria-Copper River line, will be augmented and quadrupled in effectiveness by the completion of the Astoria-Portland railroad. The Portland Chamber of Commerce is working heartily to bring about the establishment of range lights at the mouth of the Columbia river, as well as the building there of a dry dock, naval station and quarantine station. Astoria is working for these objects also, and success for Oregon can be the only result. We are anxious to awaiting to attend the ceremony of driving of the golden spike on your railroad, which we understand will occur sometime in January. Our business men, newspaper men and railroad men will be there."  
**ASTORIA SCHOOL OF SUGGESTIVE THERAPEUTICS.**  
Established for the Treatment of all Functional and Nervous Diseases.  
NEURALGIA and RHEUMATISM, Asthma, Obstructive Constipation, Dyspepsia, Headache, Insomnia, Melancholia, Menstrual and Sexual Disorders, Nervous Prostration, Paralysis, Stammering, St. Vitus' Dance, Vicious Habits and DRUG HABITS (tobacco, alcohol, morphia and cocaine), successfully treated.  
Instruction given.  
W. I. HOWARD, Medical Director.  
586 Commercial Street.

**CHANGE IN RATES.**  
Effective December 15, the west-bound transcontinental tariff will show a change in rates slightly in excess of those now in force. The principal commodities affected are in the iron schedule, which has been raised from 10 to 20 cents per 100 pounds in car load lots. The articles where the most radical changes in rates will take place are rivets, sheet iron, and steel pipe, plates, castings, chain, etc.  
Effective in a few days, the rate on canned salmon, in car lots, all rail, to the Atlantic seaboard, will be 75 cents per 100 pounds (instead of 65 cents, the present rate) by lake and rail, lake navigation having closed. It is anticipated that the Sunset route will also raise its rate to 75 cents.

**FORESTERS' NOTICE.**  
All members of Court Astoria, No. 8 are requested to be present at the regular meeting, Thursday evening, December 2, at 7:30 sharp. Business of importance.  
G. GARDNER, Secretary.

**NOTICE TO CONTRACTORS.**  
The committee on streets and public ways will receive bids at the auditor's office until Friday, December 2, 1897, at 10 o'clock for improvement of Eighth street from Grand avenue to Niagara avenue, and from Niagara avenue to Seventh street, and from Seventh street to Bay avenue, in accordance with plans and specifications now on file with auditor and police judge and ordinance governing same. The committee reserves the right to reject any or all bids.  
F. L. PARKER, Chairman Committee on Streets and Public Ways.

## SHANAHAN BROS.

The Only Store That Sells Cheap

**THEY RIDICULE IT.**  
Many People Ridicule the Idea of an Absolute Cure for Dyspepsia and Stomach Troubles.  
Ridicule, However, is Not Argument, and Facts Are Stubborn Things.  
Stomach troubles are so common and in many cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. Many such pride themselves on their acuteness in never being humbugged, especially on medicines.  
This fear of being humbugged may be carried too far, so far, in fact, that many persons suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims of a preparation so reliable and universally used as Stuart's Dyspepsia Tablets.  
Now Stuart's Dyspepsia Tablets are really different in an important respect from ordinary proprietary medicines for the reason that they are not a secret medicine, but a secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Bif, binium, hydrastis and nux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common sense plan of digesting the food raven promptly, thoroughly before it has time to ferment, sour and cause the indigestion. This is the only secret of their success.  
Cathartic pills never cure and never can cure indigestion and stomach troubles because they act entirely upon the bowels, whereas the whole trouble is really in the stomach.  
Stuart's Dyspepsia Tablets, taken after meals, digest the food. That is all there is to it. Food not digested or half digested is poison as it creates gas, acidity, headache, palpitation of the heart, loss of flesh and appetite, and many other troubles which are often called by some other name.  
They are sold by druggists everywhere at 50 cents per package. Address Stuart Co., Marshall, Mich., for book on stomach disease or ask your druggist for it.
