Senator Harrison of Indiana and Senator Cleveland of New Jersey would not only make a fine team where one is just now badly needed, but such a spectacle in the senate would at the same time suggest a happy solution of the problem what to do with our ex-presidents.

Has Uncle Sam yet been invited to make Astoria his headquarters for the light-house board of the Thirtieth district? It is not to be at once, and in such manner that he will not refuse.

Having successfully secured the adjustment of the Young's Bay bridge question, it seems to be the laudable determination on the part of the Progressive Association to stick to the public park matter until they secure results.

The extent of the disaster to the Maine is appalling, and the total destruction of so fine a vessel is a terrible blow to the navy.

No single improvement at this harbor is of more importance. The presence here now of the O. R. & N. Oriental liner Mogel emphasizes the fact. She brought on

this voyage 27 Chinese and Japanese passengers and a crew of 47 Chinese and Japanese. Had one of them been afflicted with contagious disease, the ship would have had to go to Port Townsend for quarantine, indefinitely postponing the landing of her valuable cargo.

HARRISON FOR THE SENATE.

A movement has been on foot for some time in Indiana having for its object the election of Benjamin Harrison to the United States senate as the successor of David Turpie, whose term will expire March 1, 1908.

The next step in contemplation is to try to secure the consent of the ex-president to the use of his name as a candidate for the senate. His friends claim that if he will do this he will have no opponent and that a Harrison legislature will almost elect itself.

The friends of sound money and good government everywhere will hope that the efforts of Mr. Harrison's friends to induce him to re-enter public life by accepting an election to the senate will be successful.

BIG PRICE FOR A BROKEN HEART.
