ANY FOOL CAN DECLARE WAR.

As long as war can be avoided it must be avoided. It will be little less than criminal for congress to rush madly into a war with Spain at a time when a few days more of consideration and reflection might avert it and bring all the results that could be obtained at the end of a bloody war, says the Times-Herald.

This is the policy President McKinley is pursuing, and he is doing all that wisdom and firmness can do to protect the honor and interests of the United States and maintain peace. If war, however, must come, he has shown his foresight in making every preparation for it, and we are in far different position now from what we were six weeks ago.

Our navy is mobilized, our coast defenses are armed and manned, our army has been made effective, and our great national reserve, the national guard at the states, upon which at the last we must rely, has been aroused and stands ready to answer with alacrity the first call to arms. Such is our position today, and by reason of it we are master of the situation.

Holding this vantage ground, if we can obtain our just demands by peace why should we not? Whether we are to have peace or war now depends on the Spanish government, and most assuredly no government has ever been confronted by a problem so desperate. If on the one hand it surrenders Cuba the reigning dynasty may be driven with execration from the throne. If on the other hand it cleaves to Cuba the very existence of Spain herself becomes involved.

Add to these contingencies the facts that the Spanish army in Cuba is dwindling away, suffering far more from disease than from war, and that Spanish finances are in a hopeless condition, the national credit sinking lower and lower, and what possible chance is there for Spain in a war with the United States? In the outcome she would lose both her American colonies and her navy, while her credit would be ruined forever.

Doubtless for a time she might wage a war of despair against us and inflict much damage, but the eventual result can be no other than defeat for her, perhaps annihilation. Why then should not congress give a little more time for reflection before proceeding to the last resort? Every day's delay makes for peace. All Europe is interested in preserving peace, for no man can tell when the torch is once lighted where the conflagration will end. It is because of this apprehension that great European pressure is being brought to bear on Spain to recede from her present position and to preserve the peace of the world even at the sacrifice of Cuba.

The American people are prepared for war and are willing to make all sacrifices necessary to a just war, but they demand to be led by the president and not by congressional hot-heads. Any fool can declare war, but in great crises it requires statesmanship to preserve peace. In the statesmanship of the president the people put their trust and calmly abide the event.

WAR AND FREE SILVER.

New York Tribune. It may be only a coincidence, but it is still worth noting as one of the salient features of the present interesting political situation, that the most impatient patriots and the noisiest advocates of immediate unconditional and uncompromising war are the persons who for the last two or three years have been in pretty much the same eager, excited, violent and bloodthirsty state of mind over the financial question and the unwillingness of the cowardly and unpatriotic Money Power to agree to the free coinage of silver. Ex-Governor White of Colorado, who achieved an almost world-wide notoriety a few years ago by his declaration that the free-silver advocates were ready to ride in blood to their horses' bridles to effect their ends, was only a typical representative of the restless, reckless and ambitious demagogue who seize upon every occasion to advance their own political fortunes by appeals to the passions of the mob. The wild-eyed disturbers of the public peace who went raving through the country in the campaign of 1892, stirring up the masses against the classes and threatening civil revolution unless their demands were complied with, are the orators of passion who today are denouncing the administration as a slave of the Money Power and shouting themselves red in the face over the cowardice of conservatism and the foolishness of common-sense.

It is only a coincidence or is it simply the logic of the situation that all the restless and reckless elements which united in 1892 in an assault upon the credit of the nation should take advantage of the present opportunity to incite with or without cause a war which, whatever else might be the result, would inevitably increase the national debt, force the issue of new financial obligations, unsettle values, derange the currency and bring the country nearer to free-silver coinage and consequent repudiation? Is it only a manifestation of the madness which seems to be temperamental and chronic with these people, or is there method in it and do they hope to effect through the disturbance and tumult of war what they have failed to accomplish through the peaceful and orderly processes of an election at the polls? The seal with which the democrats have rushed to the front in congress with war talk, not only against Spain, but against the president and this republican administration, for not plunging into the conflict out of hand, without waiting either for a just cause or reasonable preparation, is to the intelligent observer an indication, not so much of a desire to maintain the national honor and extend the area of freedom and civilization, as of a burning eagerness to make political capital out of the situation and promote the prospects of the democratic party.

When granddaddy had his "picket lock." These were the shadows cast before the coming of Computer Daguerre. And his art, like a girl in a pinafore. Some day to bloom to a goddess fair. Men certainly were not as black, we know as they pictured them, 50 years ago.

Fifty Years Ago.

This is the way it was found to look when granddaddy had his "picket lock." These were the shadows cast before the coming of Computer Daguerre. And his art, like a girl in a pinafore. Some day to bloom to a goddess fair. Men certainly were not as black, we know as they pictured them, 50 years ago.

Ayer's Sarsaparilla

began to make new men, just as the new pictures of men began to be made. Thousands of people fronted the camera with skins made clean from blotch and blemish, because they had purified the blood with Ayer's Sarsaparilla. It is as powerful now as then. Its record proves it. Others imitate the remedy; they can't imitate the record.

50 Years of Cures.

When granddaddy had his "picket lock." These were the shadows cast before the coming of Computer Daguerre. And his art, like a girl in a pinafore. Some day to bloom to a goddess fair. Men certainly were not as black, we know as they pictured them, 50 years ago.

FALLEN FROM THE SKY.

Every once in a while some adventurous aeronaut makes a balloon ascension, gets entangled with a cyclone and has an abrupt descent. The building of aerial vehicles which are intended to travel through the "blue empyrean" comparatively and dangerless has long been the dream not only of practical and chemical people, but of really scientific minds. But the idea of these aerial machines traveling space has never been realized, probably never will be. Experience, however, teaches us one fact of real importance, namely, that it needs no lofty flights to grasp the fact that Huxley's Stomach Bitters will relieve, surely and speedily, biliousness, whether chronic or temporary. No less efficacious in this standard medicine is cases of malarial fever, nervousness, dyspepsia, rheumatism and sick headache or debility. Like all meritorious medicines, it deserves a fair trial.

The latest in the trick line is called "beloved eye." It is sworn as a charm and is pointed to represent exactly the eye of the person desired to you in the world.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailments. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to serenity, or consumption. "That" he will tell you "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of revolution blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 99 per cent of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

DISCOVERED BY A WOMAN.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood. His severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottle free at Estes-Conn Drug Co. Regular size 50c and \$1.00. Every bottle guaranteed.

RHEUMATISM CURED.

My wife has used Chamberlain's Pain Balm for rheumatism with great relief, and I can recommend it as a splendid treatment for rheumatism and other household uses for which we have found it valuable. -W. J. Cuyler, Red Creek, N. Y.

When you get to a state where clothes do not count half as much as good meals you can rest assured you are getting old.

It is all very well to talk in Bismarck fashion of the possibilities and probabilities of war, but the women of the land who have loved most who would regard it in a very serious and heart-breaking light.

A veritable curiosity exists in Switzerland in the shape of a telegraph line with stone poles.

In 1887 my wife went East and was attacked with rheumatism. She received no relief until she tried Chamberlain's Pain Balm. Since that time we have never been without it. We find it gives instant relief in cases of burns and scalds and is never failing for all rheumatic and neuralgic pains. -D. C. Grant, Santa Ynez, Cal. For sale by Charles Rogers, druggist.

The entering wedge of a fatal complaint is often a slight cold, which a dose or two of Ayer's Cherry Pectoral might have cured at the commencement. Therefore it is advisable to have this prompt and sure remedy always at hand to meet an emergency.
