MAKING AN EFFORT TO EXCHANGE HOBSON.

NEW YORK, June 12.—A special to the Herald from Washington says: In instructions have been sent by the navy department to Commodore Watson, commander in chief of the blockading squadron, directing him to send Captain Nicol Ludlow, commanding the monitor Terror, to Havana to negotiate for the exchange of the Merrimac prisoners...

BLANCO IS MODEST.

Only Four Spaniards Killed With All the Bombarding at Santiago.

Havana, June 12.—Copyrighted 1898 by the Associated Press.—Following is a Spanish report of the bombardment of Santiago de Cuba:

On June 12, at 5 a. m., fire was opened on the coast batteries of Santiago de Cuba by four American battle ships, two iron clad cruisers and a protected cruiser...

The Spanish losses at Morro were one artillery corporal killed and one second lieutenant, Juan Arbel, eight soldiers and two sailors of the watch severely wounded.

At Socapa battery two artillery sailors were killed and Second Lieutenant Richard Brusquits, of the navy, and two soldiers were wounded.

CAPTURED GOVERNOR'S FAMILY.

London, June 12.—Hong Kong has advices from Manila that the insurgents have captured the family of Governor General August.

AS THE DOGS HAVE IT.

Madrid, June 12.—Advices received here from Havana from official sources characterize the fighting as a "mere skirmish" with the "net result that the Americans have been able to hold the place where they landed."

MILES' OPINION OF THE ARMY.

Washington, June 12.—Speaking in a general way of his observations, General Miles said:

"Having spent some time with the troops during the trying period of their hurried preparation, I am glad to say they are a splendid body of men, of which the country may well be proud of. As to the regulars, they are finest corps in the world."

THE NEXT TROOPS FOR MANILA.

San Francisco, June 12.—General Merritt tonight announced—as selection of troops which will comprise the third expedition to Manila. He says the expedition will sail, if possible, June 25, but it may possibly be delayed until July 1.

The expedition will be commanded by General Charles King.

The brigade on this next expedition will comprise two Idaho battalions, Seventh California, Thirteenth Minnesota, one battalion of the Wyoming regiment, two battalions of the North Dakota regiment and will carry as many recruits as can be accommodated from the various new squads who have lately enlisted.

THE SECOND VOLUNTEER CALL.

Washington, June 12.—Adjutant General Corbin tonight made public the regiments, battalions, companies or batteries recruited from each state under the second call for volunteers.

The organizations from each state will be in addition to the number of men enlisted from the several states to fill to the maximum of 100 men to the company organizations now in the field. Of the 15,000 men required under the second call, 12,000 will be needed to recruit existing volunteer regiments up to the maximum strength. The remaining 3,000 men will be organized into companies, battalions and regiments, each state meeting the requirements of the second as it met the first call.

Oregon will furnish two light batteries of artillery and Washington one battalion of infantry.

NOT READY TO EXCHANGE.

Washington, June 12.—The following telegram has been received from Commodore Watson:

"On the 12th I sent Captain Ludlow on the Merrimac under a flag of truce with full power to negotiate an exchange of Hobson and seven petty officers. The chief of staff answered by a letter that after reference to Madrid, the captain general will communicate by a flag of truce, Captain Ludlow will, if possible, have the exchange made as desired, and soon."

"The United States authorities are anxious to secure Hobson and the men without delay in order that they may be moved from Santiago before the battle for the possession of the city occurs. In sending Captain Ludlow to Havana the authorities were guided by information confirmatory to the press dispatches announcing that the Madrid government had authorized Blanco to treat with this government for the exchange of prisoners."

It is understood that Rear Admiral Sampson's negotiations with Cervera resulted in failure because the Spanish commander did not feel authorized to negotiate the exchange without consultation with Blanco. It is untrue that any prisoners have been taken by the army expedition now en route to Santiago de Cuba, who are to be exchanged for the Merrimac crew.

ARE SHORT ON STEAMERS

Twenty More Are Needed to Transport Troops to Manila.

READY TO CAPITULATE

Governor General of the Philippines Will Probably Surrender to Dewey in Preference to Insurgents.

THE NAVY DEPARTMENT

Inclined to Believe That Dewey Has a Thorough Understanding With the Insurgent Leader, and Manila Will Be Spared Until Our Transports Arrive.

SAN FRANCISCO, June 12.—Orders have been issued to have the City of Para ready to sail with the third Manila expedition on June 25. It is not expected, however, that the transports will sail much before July 1.

So far as decided upon they will consist of the Ohio, Indiana, Morgan City, City of Para, and Valencia. The last named, which was secured yesterday, can carry 600 men, is neat and has superior accommodations for officers.

The steamers Progresso and Amante have been examined and may be taken. If they are not secured, the force of men under General King may not exceed 2,500 or 3,000, owing to the limited capacity of the steamers engaged. Seven transports have already sailed and only 6,000 men are yet on their way to Manila. It will require nearly twenty more troopships to carry the 14,000 soldiers necessary to make up the 20,000 which is given out as the number which will occupy the Philippines.

If the deal with the British Northern Pacific company can be successfully made, the way will be open for engaging more foreign vessels, and the government may yet get such steamers as the Celtic, Gaelic, and Doric. The Celtic can carry 1,000 men in the list, she sails tomorrow for the Orient.

TALKING ABOUT THE VESUVIUS.

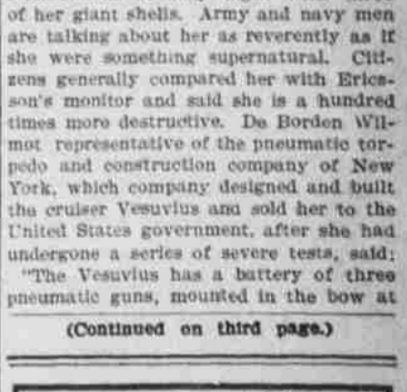

She Is Regarded as the Greatest Naval Discovery Since Ericsson's Monitor.

New York, June 12.—The Vesuvius evidently began a new era in warfare when she made havoc of the Santiago harbor fortifications Monday night with three of her giant shells. Army and navy men are talking about her as reverently as if she were something supernatural. Citizens generally compared her with Ericsson's monitor and said she is a hundred times more destructive. Dr. Borden Wilcox, representative of the pneumatic torpedo and construction company of New York, which company designed and built the cruiser Vesuvius and sold her to the United States government, after she had undergone a series of severe tests, said: "The Vesuvius has a battery of three pneumatic guns, mounted in the bow at
