The report of the local postoffice for the past four years is one worthy of note, as it covers in a general way the business standing of the city. During Mr. Wise's incumbency as postmaster, from July 1, 1934, to August 31, 1937, the Astoria office handled \$20,585.64 in money orders. The amount paid was \$192,968, while the amount issued was \$24,704.77, showing that the money sent out of the city through the medium of money orders is double that received. Of registered packages 14,123 were handled; 11,772 were registered here, 2,351 were received for delivery and 1,503 passed through in transit. In sales of stamps and envelopes the largest monthly transaction was in April, 1937, when the receipts amounted to \$1,128.96, and the smallest was February, 1936, when they amounted to only \$200.96.

A runaway accident, which will probably result in the death of Orrin Belknap of Iwaco, occurred near the Washington town yesterday. Miss Anna Belknap and Mrs. Ross had been in the country visiting Mrs. Belknap. Yesterday Orrin Belknap started to town in a carriage with the women. When about four miles from Iwaco the horses became frightened and the efforts of the driver to control them were unavailing. They started across the road at great speed, overturning the carriage and throwing the occupants to the ground. Belknap slighted on his head. His skull was crushed and his shoulder broken, and he suffered other injuries. Mrs. Ross received a deep gash over the right eye, but was not otherwise hurt. Miss Belknap escaped without injury. Belknap was taken to his home for treatment. His injuries are very serious and it is thought by the attending physician that he cannot recover. His skull is frightfully crushed and he is suffering from concussion of the brain. The fall rendered him unconscious, in which condition he still lies. The injured man is well known in Iwaco. His sister, Miss Anna, and Mrs. Ross, are teachers in the public schools there.

The crematory committee of the Progressive Commercial Association met yesterday afternoon at the association rooms. The following were present: C. W. Caranahan, chairman; F. W. Newell, secretary; William Larson, D. J. Ingalls, W. Whiters, A. Hildebrand and C. S. Dow. Professor Kent, of the state agricultural college at Corvallis, wrote of the committee, offering to assist in drawing the plans for the building and agreeing to show the proper arrangement of the apparatus. Professor Kent also furnished the association with a copy of the plans of the dairy and cattle commissioners of Kansas, giving statistics of the co-operative creameries in that state and illustrating the complete plans of the crematory. This report will be of much assistance to those interested in building the crematory. A letter from the officials of the Astoria & Columbia River Railroad Company was also read, in which it was stated that they would do everything in their power to further the project. The officials have agreed to make low rates on milk for delivery at the crematory building. It was the sense of the committee that complete plans of organization be prepared and submitted to the general meeting of the farmers, which will be held at the association rooms on Saturday, September 10, at 10 p. m. There is now no doubt as to the success of the enterprise, and work on the building will probably commence shortly. The Push Club is entitled to great credit for the interest it has taken in the matter, and for its untiring efforts in seeing the proposition through.

WHAT IS MEANT BY COMMON WHEAT TERMINAL

ASTORIA, Sept. 1.—Editor Astorian: There seems to be some misunderstanding of what is meant when we speak of a "common wheat terminal" for Astoria. Allow me to give my views on this subject.

There are some extensive wheat growing centers of the inland Empire, each one of which—being situated on the Northern Pacific and O. R. & N. Company's railroads as well—as a double outlet for its grain. Some grain from each of these centers is carried by the Northern Pacific to Puget Sound and some from each is carried by the O. R. & N. Company's railroad down the Columbia. These centers include the cities of Walla Walla, Spokane, Dayton and Wainburg in the State of Washington, and Pendleton and Athens in Oregon, Lewiston in Idaho and others.

Let us for the sake of convenience call each one of these points having such a double outlet a "Common Point of the Inland Empire."

Now, as I understand it, we are insisting that the freight rate on grain between these common points of the Inland Empire and Astoria via the O. R. & N. Company's railroad shall be as low as the freight rate on grain between these same inland Empire common points and Puget Sound via the Northern Pacific's railroad. In that we are decidedly right.

We are not asking to be made a common wheat terminal with Portland, but we are insisting that Astoria be placed on an equality with Tacoma and Seattle in this whole business.

Some have thought that this common point for Astoria for wheat would give us at Astoria the same tariff that Portland has from The Dalles and other
